INTRODUCTORY SECTION

This Page Intentionally Left Blank.

June 26, 2014

Honorable Mayor Frank G. Jackson
City of Cleveland Council and
Citizens of the City of Cleveland, Ohio

Introduction

We are pleased to submit the Comprehensive Annual Financial Report of the City of Cleveland (the City) for the year ended December 31, 2013. This report, prepared by the Department of Finance, includes the basic financial statements that summarize the various operations and cash flows related to the City's 2013 activities. Our intention is to provide a clear, comprehensive and materially accurate overview of the City's financial position at the close of last year. The enclosed information has been designed to allow the reader to gain an understanding of the City's finances, including financial trends, financial instruments and fund performances. The City has complete responsibility for all information contained in this report.

This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with generally accepted accounting principles in the United States of America (GAAP). Because the cost of internal controls should not outweigh their benefits, this comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by Clark, Schaefer, Hackett & Co. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City for the year ended December 31, 2013, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. Clark, Schaefer, Hackett & Co. concluded, based upon its audit, that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for the year ended December 31, 2013 are fairly presented in conformity with GAAP. The Independent Auditors' Report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City's separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the Independent Auditors' Report.

Structure of this Comprehensive Annual Financial Report

This Comprehensive Annual Financial Report (CAFR) is designed to assist the reader in understanding the City's finances. This CAFR consists of the following sections:

- The Introductory Section, which includes this letter of transmittal and contains information pertinent to the City's management and organization.
- The Financial Section contains the Independent Auditors' Report, Management's Discussion and Analysis (MD&A), Basic Financial Statements and various other statements and schedules pertaining to the City's funds and activities.
- The Statistical Section contains numerous tables of financial and demographic information. Much of this information is shown with comparative data for the ten-year period from 2004 through 2013.

References throughout this report to Note 1, Note 2, etc., are to the Notes to Financial Statements included in the Financial Section of this CAFR.

Profile of the Government

The City

The City is a municipal corporation and political subdivision of the State of Ohio. It is located on the southern shore of Lake Erie and is the county seat of Cuyahoga County.

The City is included in the Cleveland-Elyria-Mentor, OH Metropolitan Statistical Area (MSA), comprised of Cuyahoga, Lake, Lorain, Geauga and Medina counties. This MSA is the 29th largest of 381 Metropolitan Areas in the United States and the second largest Metropolitan Area in the State of Ohio.

Cleveland is located in the northeast part of the state, approximately 150 miles north-east of Columbus. Bordering Lake Erie, Cleveland is home to world-renowned medical facilities, professional sports venues, Severance Hall, numerous lakefront parks, the Port of Cleveland, the Rock and Roll Hall of Fame and operates the nation's ninth largest water system. Interstate highways I-71, I-480, I-77 and I-90 serve as some of the City's major transportation arteries. The City is rich in educational and medical facilities, including Cleveland State University, Case Western Reserve University, the Cleveland Clinic and University Hospitals of Cleveland.

City Government

The City operates under, and is governed by, the Charter which was first adopted by the voters in 1913 and has been and may be further amended by the voters from time to time. The City is also subject to certain general State laws that are applicable to all cities in the State. In addition, under Article XVIII, Section 3 of the Ohio Constitution, the City may exercise all powers of local self-government and may exercise police powers to the extent not in conflict with applicable general State laws. The Charter provides for a mayor-council form of government.

The City's chief executive and administrative officer is the Mayor, elected by the voters for a four-year term. Frank G. Jackson was elected as Mayor of the City in November 2005 and began his first term on January 2, 2006. He was re-elected to a third term in November 2013. Prior to assuming office as Mayor, Mr. Jackson served as a Ward 5 City Council member for 16 years and in 2002, was elected by the then 21-member City Council to serve as Council President. Under the Charter, the Mayor may veto any legislation passed by Council, but a veto may be overridden by a two-thirds vote of all members of the Council.

Legislative authority is currently vested in a 17-member Council. Council members serve four year terms and are elected from wards. The present terms of the Mayor and Council members expire on December 31, 2017. The Council fixes compensation of City officials and employees and enacts ordinances and resolutions relating to City services, tax levies, appropriating and borrowing money, licensing and regulating businesses and trades, and other municipal functions. The presiding officer is the President of Council, elected by the Council members. Kevin J. Kelley was elected as President of Council in November 2013. The Clerk of Council is appointed by Council. The Charter establishes certain administrative departments; the Council may establish divisions within departments or additional departments. The Mayor appoints all of the directors of the City's 12 departments.

The Director of Finance and City Controller believe that, to the best of their knowledge, the data contained in this report present fairly the financial position and results of operations of the various funds of the City. All necessary disclosures are included in this report to enable the reader to understand the City's financial activities.

Financial Reporting Entity

The City has applied guidelines established by Governmental Accounting Standards Board (GASB) Statement No. 61. Provisions outlined in this statement define the operational, functional and organizational units for which the City, "acting as Primary Government", is required to include as part of its reporting entity. The inclusion of a component unit as part of the City's reporting entity requires the appointment of a voting majority of the component unit's board and either (1) the City's ability to impose its will over the component unit or (2) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the City.

Under these provisions, the City's financial reporting entity acts as a single rather than multi-component unit. The provisions permit the entity to include all funds, agencies, boards and commissions that, by definition, comprise components within the primary government itself. For the City, these components include police and fire protection services, waste collection, parks and recreation, health, select social services and general administrative services. Primary enterprise activities owned and operated by the City include a water system, electric distribution system and two airports.

In accordance with GASB Statement No. 61, the Cuyahoga Metropolitan Housing Authority, Cleveland-Cuyahoga Port Authority and Cleveland Municipal School District are defined as related organizations and Gateway Economic Development Corporation of Greater Cleveland is defined as a jointly governed organization. None of these organizations are included within the City's reporting entity.

Internal Control

Management of the City is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft or misuse. The internal control structure ensures that accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable assurances that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal, state and county financial assistance, the City is also responsible for maintaining a rigorous internal control structure that ensures full compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management, external auditors and the internal audit staff of the City. The City is required to undergo an annual audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133, *Audits of State and Local Governments and Non-profit Organizations*. The information related to the Single Audit, including the schedule of federal awards expenditures, findings and recommendations and auditor's reports on the internal control structure and compliance with applicable laws and regulations are included in a separate report.

Accounting and Financial Reporting

The City's accounting system is organized and operated on a fund basis. A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts. The types of funds to be used are determined by GAAP and the number of individual funds established is determined by sound financial administration. Each fund is a separate accounting entity with its own self-balancing set of accounts, assets, liabilities and fund balance. The City's governmental funds include the General Fund, Special Revenue Funds, Debt Service Funds and Capital Projects Funds. The City's proprietary funds are its Enterprise Funds that provide services to the general public, including utilities and airport service and Internal Service Funds that provide services to City departments, divisions and other governments. The City also maintains Fiduciary Funds to account for assets held by the City in an agent capacity for individuals, private organizations and other governments.

Except for budgetary purposes, the basis of accounting used by the City conforms to GAAP as applicable to governmental units. All governmental funds are accounted for using a current financial resources (current assets, current liabilities and deferred inflows) measurement focus. The modified accrual basis of accounting is utilized for governmental funds. Revenues are recognized when they are susceptible to accrual (both measurable and available). Expenditures are recognized when the related liability is incurred, except for interest on long-term debt which is recorded when due.

The measurement focus of the City's proprietary funds is on the flow of total economic resources (all assets, deferred outflows, liabilities and deferred inflows). The accrual basis of accounting (revenues are recognized when earned and expenses when incurred) is utilized for the Enterprise and Internal Service Funds.

The City's basis of accounting for budgetary purposes differs from GAAP in that revenues are recognized when received, rather than when susceptible to accrual (measurable and available) and encumbrances and pre-encumbrances are included as expenditures rather than included in fund balances.

In March of 2012, Governmental Accounting Standards Board (GASB) Statement No. 65, *Items Previously Recognized as Assets and Liabilities* was issued. This Statement is effective for fiscal periods beginning after December 15, 2012. The objective of this Statement is to establish accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. As required, the City implemented GASB Statement No. 65 as of December 31, 2013.

In March of 2012, Governmental Accounting Standards Board (GASB) Statement No. 66, *Technical Corrections – 2012 as amendment of GASB Statements No. 10 and No. 62* was issued. This Statement is effective for fiscal periods beginning after December 15, 2012. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, *Statements No. 54, Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. The City has determined that GASB Statement No. 66 has no impact on its financial statements as of December 31, 2013.

In November of 2010, Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus, an amendment of GASB Statements No. 14 and No. 34* was issued. This Statement is effective for fiscal periods beginning after June 15, 2012. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. GASB Statement No. 61 requires reporting a component unit as if they were part of the primary government (that is, blending) in circumstances where the component unit's total debt outstanding is expected to be repaid entirely or almost entirely with resources of the primary government. The City has determined that GASB Statement No. 61 has no impact on its financial statements as of December 31, 2013.

Budgeting Procedures

Detailed provisions regulating the City's budget, tax levies and appropriations are set forth in the Ohio Revised Code and the City Charter. The Mayor is required to submit the appropriation budget, called "The Mayor's Estimate" to City Council by February 1 of each year. The Council may adopt a temporary appropriation measure for the first three months of the year, but must adopt a permanent appropriation measure for the fiscal year by April 1. The Cuyahoga County Auditor must certify that the City's appropriation measure does not exceed the amounts set forth in the County Budget Commission's Certificate of Estimated Resources.

The City maintains budgetary control on a non-GAAP basis at the character level (personnel and related expenditures and other expenditures) within each division. Lower levels within each character are accounted for and reported internally. Lower levels are referred to as the program level. Estimated expenditure amounts must be pre-encumbered and subsequently encumbered prior to the release of purchase orders to vendors or finalization of other contracts. Pre-encumbrances and encumbrances that would exceed the available character level appropriation are not approved or recorded until the Council authorizes additional appropriations or transfers. Unencumbered appropriations lapse at the end of each calendar year. As an additional control over expenditures, the City Charter requires that all contracts in excess of \$50,000 shall first be authorized and directed by ordinance of City Council.

Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the General Fund, this comparison is shown on page 59 as part of the basic financial statements. For other governmental funds with appropriated annual budgets, this comparison is presented in the supplementary information subsection of this report along with more detailed information regarding the General Fund, which starts on page 116.

Factors Affecting Financial Condition

Local Economy

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

Cleveland's economic condition draws strength and stability from its evolving role as the focal point of a growing, changing and substantial regional economy. The City is located at the center of one of the nation's heaviest population concentrations. The Cleveland metropolitan area is a significant local market, housing 2.1 million people. Cleveland also provides superior links to the global markets. The Cleveland-Cuyahoga Port Authority handles the largest amount of overseas cargo on Lake Erie and includes a Foreign Trade Zone. The City is also well-served with extensive highways and Cleveland Hopkins International Airport is serviced by all major airlines. The re-emergence of downtown Cleveland as a vibrant center for national and regional entertainment and major cultural activities signals a turning point in the City's overall fortunes and is paving the way for further economic expansion that will be significantly more entrepreneurial in scope.

Major Industries, Economic Conditions and Employment

Cleveland, as well as most large urban municipalities across the nation, has faced significant economic challenges in recent years. Like all manufacturing cities across the country, Cleveland has tried to combat the declining industry base with more professional and service industry opportunities. The City's budget basis income tax collections increased 3.5% in 2013.

While the City's economy has shifted more toward health care and financial services, its manufacturing base has assumed a smaller, yet still vital role. Competitive pressures in manufacturing have limited job creation, but the competitive position of Cleveland based industrial companies has improved.

The 2007 economic census indicates that Cleveland’s employment base continues to become more diversified. The following table summarizes the percentage of Clevelanders employed by industry type based on 2007 census figures.

<u>Industry</u>	<u>Percent of Workforce</u>
Utilities	0.39 %
Administration and Support of Waste Management and Remediation Services	8.40
Manufacturing	16.77
Wholesale Trade	6.54
Retail Trade	12.60
Transportation and Warehousing	3.28
Information	2.42
Finance, Insurance and Real Estate	9.57
Professional, Scientific Management	6.09
Education, Health, Social Services	19.43
Arts, Entertainment, Recreation	1.62
Accommodation and Food Services	9.47
Other Services	3.42
Total	<u><u>100.00 %</u></u>

Current Projects and 2013 Accomplishments

The 2013 budget focused on continuing the City’s commitment to improve the quality of life of its citizens by strengthening our neighborhoods, fostering a favorable business climate and providing superior services.

Despite fiscal constraints and economic challenges, the City achieved the following 2013 programmatic goals and projects without an income or property tax increase:

Department of Community Development

- The City continued its policy that all housing projects that receive City financial assistance – including tax abatement – meet the City’s new Green Building Standards. The City coordinated with Enterprise Community Partners in updating the existing Green Building Standards that are applied nationally to low-income housing developments. The updated standards were implemented in 2013.
- Expended \$51.5 million of the Neighborhood Stabilization Program (NSP-1 and NSP-2) and \$6.0 million of NSP-3 funds to support demolition, land reutilization and housing renovations to strengthen the housing stock.
- Habitat for Humanity (Habitat) initiated an expansion of its affordable home ownership model by commencing a 12 unit rehabilitation project in two neighborhoods in 2013. Habitat has historically focused on new construction and the Habitat expansion into rehabilitation furthers our efforts to focus on renovation.
- Repositioning vacant urban land into productive community gardens and urban farms has continued as a priority for making our neighborhoods more vibrant and sustainable. To better partner with the expanding urban agriculture community the City reformed its policies and increased its efforts and investment in land reuse, with an emphasis on urban agriculture projects.
- Several noteworthy multifamily projects were completed in 2013, including Cotman Vistas, University Tower and Lee Miles Apartments. Cotman Vistas is a new 34-unit apartment building on the Health Line in University Circle for persons with mobility disabilities; University Towers involved the rehabilitation of a 158-unit building into 113 apartments for low-income people; and Lee-Miles Apartments, a new 40-unit apartment building for low-income seniors on the site of Beehive Elementary School.

- The Department supported the completion of the innovative Fairfax Intergenerational Housing project. The 40-unit, new construction, rental townhomes were designed specifically for low-income seniors that have legal custody of their grandchildren. The project was developed jointly by Fairfax Renaissance Development Corporation and the Cuyahoga Metropolitan Housing Authority with substantial financial assistance from the City of Cleveland. This will be one of the first housing developments specifically designed to address this population. These families are routinely not eligible for other affordable senior housing. Also, traditional low-income family housing projects frequently lack the specialized physical accommodations and services that may be required by a senior head of household.
- The City, as part of a broad consortium of non-profit housing developers and service providers, collaborates to develop and implement activities to reduce and prevent homelessness. Through the Housing First Initiative, over 575 units of permanent supportive housing have been developed since 2006. Two more permanent supportive housing projects were completed in 2013. The \$9.4 million Winton on Lorain is comprised of 40 units, while the \$11.5 million Buckeye Square project includes 65 apartments. The City provided a total of \$1.9 million of funding for the two projects. In addition, the City committed funding in 2013 for another 66 units of permanent supportive housing apartments as part of the Emerald Alliance VIII project on Detroit Avenue.
- In anticipation of, and to prepare for a rebound in the housing market, the City strategically assembled land. Several sites across the City are, or have been, assembled for development when the market is ready. One of those sites includes the 72-unit housing project Trailside at Morgana Run, which is currently under construction.

Department of Building and Housing

- Demolished 1,087 condemned structures. Since January 2006, the Department has inspected, condemned and razed over 7,604 structures.
- Initiated 1,316 court cases against negligent property owners.
- Issued 5,187 violation notices.
- Issued 15,760 construction permits valued at \$900 million in new construction.
- Boarded-up and secured 4,102 vacant structures.
- Issued 1,608 condemnation notices.

Department of Economic Development

- The City closed on a \$6 million Housing and Urban Development (HUD) Section 108 Loan to fund the Rotunda and 1010 Building redevelopment, which will feature a Heinen's grocery store. Located at the corner of Euclid and East 9th, this site has long been identified as a redevelopment priority by the City. The total project cost is estimated at \$170 million and the developer has committed to the creation of 300 jobs.
- The Health Tech Corridor continues to grow and attract businesses. In the past 3 years, the City assisted with over 334,000 square feet of newly constructed or renovated space which have reached 86% occupancy since the first building opened in 2011. Over 40 acres of land have been assessed to determine if contamination exists and 28 acres of land have been remediated and received their NFA (No Further Action) Letter and are being marketed with great interest. The opportunities for business attraction to Cleveland by partnering with the area's institutions are immense and have already resulted in over 1,200 new jobs since the Corridor's inception in 2008.
- The City provided a \$50,000 Vacant Properties Initiative loan to assist JC BeerTech with the acquisition and renovation of a long-time vacant building located at 4125 Lorain Avenue. JC BeerTech installs and services draft beer and soda dispensing systems. They moved their office from Medina, Ohio and immediately relocated 5 jobs and expect to create additional jobs in Cleveland.
- The final phase of the renovation of St. Luke's Manor began in 2013 and focused on the East Wing of the building. The Intergenerational School will occupy 3 floors, and the Boys and Girls Club of Cleveland, Neighborhood Progress, Inc., and St. Vincent Charity Medical Center will occupy the balance of the newly renovated space. The City provided a financing package of \$680,000. The total budget was \$15,600,000 and the project expects to create 5 new jobs.

- The City provided \$200,000 to the Economic and Community Development Institute (ECDI) to structure microloans to small businesses in Cleveland that would not be eligible for traditional bank funding. A portion of the funding (\$50,000) is specifically geared toward immigrant and refugee business. ECDI's lending efforts in 2013 have resulted in the following:
 - 17 loans in the City of Cleveland;
 - \$674,500 to Cleveland-based businesses;
 - 9 female-owned businesses;
 - 8 minority-owned businesses;
 - 77 jobs created in the City

Department of Health (CDPH)

- Coordinated a city-wide education and outreach event to inform Cleveland residents about their options for obtaining health care insurance through the Affordable Care Act's Health Insurance Marketplace. Over 500 individuals attended and received one-on-one assistance from a team of health care navigators, certified application counselors, insurance agents and brokers.
- Secured over \$3 million from the US Environmental Protection Agency (EPA) for the remediation of hazardous chemicals at the W.C. Reed Playfield.
- The Department was instrumental in the successful prosecution of illegal dumpers at the Wayside Avenue dumpsite and also facilitated the clean-up of the site.
- Conducted a city-wide Safe Sleep Community Education Campaign that included 25 billboards targeting ten neighborhoods with the highest sleep related deaths to decrease the infant mortality rates in Cleveland's communities. In addition, over 100 Safe Sleep Tool Kits were distributed to places of worship throughout Greater Cleveland.
- In partnership with the Cuyahoga County Board of Health, established the Ohio Institute for Equity in Birth Outcomes. This three year project is designed to implement community-wide initiatives to reduce infant mortality and to eliminate health disparities in birth outcomes.
- The Department's Office of Emergency Preparedness earned the highest preparedness rating in the history of the Cleveland Cities Readiness Initiative Program, scoring 100%.
- Received two grants from the National Association of County and City Health Officials (NACCHO) and the Ohio Public Health Partnership to support CDPH's initial preparations for Public Health Accreditation.
- Developed five neighborhood data briefs on diabetes, hypertension, obesity, asthma, cigarette and all tobacco use in partnership with the Prevention Research Center for Healthy Neighborhoods at Case Western Reserve University.
- Published a peer review paper examining public health workforce issues regarding enforcement of Ohio's Smoke Free Work Place law (Public Health Reports). This work was funded by a Robert Wood Johnson Foundation grant.
- Obtained Title X funding to expand reproductive health services in the City's Health Centers.

- The Enforcement Section of Air Quality obtained a FLIR Infrared Camera to use on inspections and complaint investigations. This device will record images of volatile organic emissions that cannot be seen in the visible light spectrum.
- The Division of Air Quality received a grant of \$200,000 from the USEPA to develop a site for Near Road Monitoring.
- The Division of Air Quality's revenue (predominantly from City Air Permit fees) slightly exceeded its 2013 calendar year goal of \$155,000.

Department of Aging

- Provided core services to 5,718 clients including senior citizens and adults with disabilities.
- Secured approximately \$500,000 of external grants.
- The Annual Senior Day Program held in May 2013 attracted more than 2,000 senior citizens. The Annual Cleveland Senior Walk, held in July in conjunction with the National Senior Games had over 1,600 participants, while the Annual Disability Awareness Day luncheon held in October included over 200 participants.
- Provided the following services: 3,253 clients received supportive services, 117 received help with a major home repair, 668 received grass cutting services, 242 received help with indoor chores, 663 received help with leaf raking, 681 with snow removal, 273 clients received a daily call through the automated telephone reassurance program to check on their well-being, 192 received assistance to prevent homelessness, 1,890 seniors were registered for transportation services, 206 clients received economic case management, 1,308 clients received a benefits checkup, 168 clients received long-term support counseling and the Department handled 998 information and assistance contacts for Cleveland residents in 2013.

The Office of Equal Opportunity

- Under Codified Ordinance 188, OEO penalizes contractors that fail to meet the Resident Employment Law. Since 2009, over \$223,290 in penalties have been collected for non-compliance with the Codified Ordinance 188.
- Under Codified Ordinance 123.08, OEO is the Citywide Prevailing Wage Coordinator. Since 2011, OEO has established itself as a convener and facilitator of standardized policies and procedures related to prevailing wage. This model of Prevailing Wage Coordinators informally reporting to the Director of OEO to ensure standardization in practices, policies and procedures has been deemed effective. In addition, the implementation of Labor Compliance Tracker (LCP) has enhanced standardization and effectiveness through technology. As such OEO, through the Director, will continue the role of Convener and Facilitator.
- A Disparity Study (conducted by National Employment Rights Authority), was completed in December 2012. OEO continues to work inter-departmentally with the Division of Purchasing and the Department of Law to implement recommendations from the Disparity Study. Recommendations that were immediately implemented include:
 1. The contracting market was expanded to include the 6 contiguous counties surrounding Cuyahoga (Geauga, Lake, Lorain, Medina, Portage, and Summit).
 2. The threshold for diversity and inclusion was increased from \$10,000 to \$50,000.
- Business to Government Now (B2GNow) & LCP, OEO's real-time compliance software, went live in January 2013. Adoption of this technology meets the Mayoral goal of "*efficiency through technology*".
- In 2013, OEO provided more than 250 hours of technical assistance to both internal and external customers: contractors, subcontractors, and City of Cleveland contracting departments as a matter of *customer service*, a Mayoral goal, and in effort to implement seamless Go Live implementation of B2GNow & LCP. In 2014 OEO will continue to provide technical assistance sessions as a matter of customer service and to alleviate fear commonly associated with the introduction of technology.

- In 2013, OEO monitored over 107 construction contracts exceeding \$100,000 to ensure compliance with the Cleveland Resident Employment Law (aka Fannie M. Lewis Law) requiring that at least 20% construction worker hours are City of Cleveland residents. For the *4th consecutive year*, contractors have exceeded the 20% requirement. Over the course of 2013, contractors managed an average of 22.8% Cleveland resident construction worker hours.

Department of Public Works

- The Division of Recreation served over 170,000 nutritious after school and summer meals during 2013.
- The Division of Park Maintenance serviced 50,699 vacant properties in 2013.
- The Division of Motor Vehicle Maintenance purchased 370 new vehicles. Included in the total are small engine equipment vehicles purchased for Park Maintenance.
- The Division of Urban Forestry trimmed 2,384 trees, removed 835 trees and planted 500 new trees.
- The Division of Waste Collection collected and disposed of 216,046 tons of debris and recycled 22,280 tons of materials. They expanded the automated waste collection and curbside recycling program to 25,000 additional households, bringing the citywide total to 95,000.
- The Division of Parking installed 49 smart meters that accept both coin and credit card payments. Additionally, 91 sensor guided parking spaces were installed for vehicles seeking on-street parking.
- The Division of Streets resurfaced 258,180 square yards of curb-to-curb projects and an additional 39,003 square yards of spot resurfacing.
- The Division of Traffic Engineering painted over 672 miles of lane lines and replaced over 2,186 traffic light bulbs.

Department of Public Safety

- The City of Cleveland completed the purchase and deployment of the 800 MHz voice communication system. As a result, every City department and division has new mobile and portable radios capable of transmitting and receiving critical information and every officer in the Division of Police was issued a new hand-held portable radio that can be used on and off-duty. The new communication system allows the City to expand interoperability with our community partners across Cuyahoga County. The ability to communicate across jurisdictions is paramount to our strong regional partnerships.
- Through City Council legislation passed in May 2013, the City increased the Portable Camera Program from 24 locations to 47. Fifteen of the cameras are Portable Camera Units, allowing the Chief of Police to utilize them for targeted mobile speed enforcement. In November 2013, the City began upgrading our current photo enforcement cameras with the latest technology and video surveillance capabilities, which immediately aided in several traffic accident investigations for the City and other municipalities. The Automated Photo Enforcement Cameras consist of Red Light, Speed on Green and Fixed Speed pole configurations. The use of portable camera units enabled the Division of Police Traffic Unit to redeploy officers for traditional enforcement and various related duties.
- In September 2013, the City opened the new One Stop Impound and Clerk of Courts Payment Center (the Center). Prior to the opening of the Center, all paperwork had to be completed at the Clerk of Courts office in the Justice Center before going to the impound center to retrieve their vehicle. Now, people retrieving a towed vehicle can go straight to the Center, complete all paperwork and recover their vehicle. The Center now provides a more efficient way of doing business for the City and improves our customer service to the community.
- In November of 2013, the Department of Public Safety broke ground on the new Division of Police Third District Headquarters. This state-of-the-art facility is scheduled to be completed in the second quarter of 2015 and will house the new Public Safety Communications Center for the Divisions of Police, Fire and Emergency Medical Service.

- In the spring of 2014, the Department of Public Safety will break ground for a new Division of Fire and EMS facility that will replace outdated Fire Station 36. The new facility will be designed to headquarter cross-trained, dual role firefighter-paramedics and will be the first station of the new era of integrated service for fire and medical response for the City.
- The integration of the Divisions of Fire and Emergency Medical Service continued throughout 2013 and will continue in 2014. In addition to the administrative consolidation of timekeeping and payroll, supply and equipment purchasing, tracking and delivery; a new classification of firefighter-paramedic has been created. The process of cross-training employees into the all hazard classification is underway and the deployment of firefighter-paramedics onto ambulances and fire response apparatus will commence in the second quarter of 2014. This integration will significantly enhance response capabilities and provide a higher level of medical service to the community while maintaining fire suppression and rescue service. The integrated division will begin providing community health screenings and fire safety programs at facilities throughout the community.
- A site for the new Kennel for the Division of Animal Control has been approved. The Department of Public Safety has engaged community stakeholders in the design of the new facility and groundbreaking is scheduled for the third quarter of 2014. We continue to work with our regional partners to develop a regional approach to animal control.
- The City of Cleveland and Cuyahoga County continue to negotiate the transfer of the operations of the City's Division of Corrections to the Cuyahoga County Sheriff's Department. The Cuyahoga County Sheriff would assume the duties of booking, housing, transporting and other related services for City of Cleveland prisoners. This is another example of the Department of Public Safety's commitment to working with regional partners in an effort to enhance service delivery to the community, increase operational efficiencies, and implement processes that are fiscally responsible.

Department of Public Utilities

- The Division of Water (CWD) reliably provides approximately 1.4 million customers throughout Cleveland and 79 surrounding communities with high quality, safe water. CWD pumped more than 78.1 billion gallons of water to customers and invested more than \$87 million in its infrastructure this year.
- The Division of Cleveland Public Power (CPP) provided 74,000 residential and business customers in the City of Cleveland with reliable and affordable power. In 2013, CPP continued work on its Capacity Expansion Program which is designed to upgrade infrastructure, increase customer capacity and improve reliability.
- The Division of Water Pollution Control maintains the local sanitary sewer and storm water collection system within the City of Cleveland. The system is comprised of 1,436 miles of sewer lines, more than 42,000 storm drains and 15 pump stations. In 2013, WPC cleaned 11,860 storm drains, 490,897 linear feet of sewers and completed TV inspections of 264,697 linear feet of sewer lines.

Department of Port Control

- Terminal Terrazzo Flooring Project: The first phase of the Cleveland Hopkins International Airport (CLE) terrazzo floor and artwork installation project began in January 2011 and continued throughout 2013. The project consists of removing old flooring and carpet to replace them with terrazzo starting at security checkpoint C, continuing up Concourse C, then proceeding to Concourses A and B. The entire project is expected to be complete in January 2014. As part of the terrazzo flooring project, artwork selected from an airport artist competition will be installed into select floor locations. Six of the seven select art pieces were installed by the end of 2013. The project will be substantially complete in 2014.
- Parking Redevelopment Project, Phase I: This consists of demolition of the long-term garage and replacing the garage with a 1,000 space surface parking lot. The demolition and resurfaced parking lot were completed in 2013. The project also improved several of the existing peripheral lots and included the installation of "smart parking" technology which increased the efficiency of the existing short-term garage usage. The smart parking installation was also completed in 2013. In 2014, construction of a parking management building and access structure will be completed.

Department of Law

- Drafted approximately 451 contracts and reviewed over 979 contracts for legal form and correctness.
- Prepared 525 pieces of legislation for introduction to City Council.
- Obtained 744 search warrants for housing court enforcement actions and helped Building and Housing obtain legal authorization for more than 1,263 demolitions of unsafe structures in the City.
- Responded to 3,143 citizen requests for non-routine public records; provided legal advice as needed in response to almost 8,000 routine requests.
- Processed 1,216 general claims for property damage and other losses.
- Initiated 1,336 criminal prosecutions in Housing Court for health and safety code violations to ensure that property owners adequately maintain their properties. Successfully prosecuted civil nuisance abatement actions for numerous properties across the City.

2014 Budget

During 2013, the City continued to strengthen its financial position through increased efficiencies, streamlining of operations, improving accountability, refinancing debt and increasing revenue. The City continues to see moderate growth in income taxes primarily related to heightened construction activity in the downtown and University Circle areas. The Budget Management Strategy for fiscal 2014 includes, but is not limited to, the following:

- Federal assistance for demolition of condemned structures expired in 2013, necessitating a need to identify new funding sources.
- Enhance downtown public safety and service.

The estimate of receipts and expenditures for all General Fund departments and divisions for the 2014 budget are:

- Revenues and other sources are projected to decrease from \$513.7 million in 2013 to \$493.8 million in 2014. This decline is primarily attributed to a reduction of \$4.4 million in miscellaneous revenue related to one-time monies and a \$3.0 million decrease in the estate tax.
- Expenditures and other uses are estimated to increase from \$515.6 million to \$540.3 million in 2014. The rise is primarily attributed to a \$8.1 million increase in Public Safety expenditures (related to the hiring of 90 additional employees) and increased benefit costs.

Long-term financial planning:

The City has a long-term goal of increasing the Rainy Day Reserve Fund to 5% of General Fund expenditures (approximately \$25 million). As part of the goal, the City transferred \$5 million into the Rainy Day Reserve Fund in 2013, bringing the balance in the fund to \$18.6 million. This will allow the City to obtain the lowest rates possible when issuing debt and also withstand economic downturns with minimum disruptions to City services.

The City manages its long-term financing of its capital needs through the annual updating of its Capital Improvement Plan (CIP). The CIP schedules capital improvements through the current and succeeding five years. The CIP does not include appropriations or authorizations to expend monies. Capital Projects are approved by City Council when funding sources have been determined. The City usually issues bonds to fund capital projects.

The following projects currently underway will provide the momentum necessary to continue rebuilding the City's economic base:

- Phase two of the Flats East Bank Project began construction in 2013. The second phase includes a 243-unit upscale apartment complex as well as 10-15 restaurants/nightclubs and additional parking.
- The \$250 million Ameritrust Project commenced construction in 2013. The project includes a new headquarters building for Cuyahoga County, office space, housing and a Heinen's grocery store.
- The \$120 million renovation of FirstEnergy Stadium. The City worked with the Cleveland Browns to bring needed improvements to the stadium in 2014, including state-of-the-art scoreboards in both end zones and increased seating capacity in the lower level.
- The City is expected to select a development team amongst four respondents to our Request for Proposals (RFP) for private lake development. The City's Group Plan provided direction for the development of more than 28 acres of property along the Lake Erie shoreline, with the goal of infusing a sustainable and complimentary assortment of entertainment, dining, hospitality, office and public waterfront access.
- Cuyahoga County began demolition in 2013 of its former Administration Building on Lakeside Ave. to clear the way for the construction of a \$260 million 600-room convention center hotel. The construction is expected to be completed by 2016 and Hilton Worldwide will operate the facility.

Major Initiatives

As the City plans ahead to achieve increased municipal efficiencies and enhanced infrastructure coordination, the Mayor has launched the following initiatives:

- *Citywide Municipal Wireless Broadband* – the City completed a survey of its entire wireless infrastructure to solve immediate, specific, operational needs in a more cost-efficient way. Based on the survey results, free wireless internet access was installed in City Hall and Public Auditorium. Also, a pilot program which deployed a 4.5 square mile Wi-Fi network in the 13th Ward was implemented in an attempt to help close the Digital Divide throughout the City.
- *Automated Waste Collection Program* – begun in 2009, the program provides automated waste collection and curbside recycling to City residents. The City provides each resident participating in the program with a 96 gallon cart for garbage and a 64 gallon cart for recyclable items. Currently, 95,000 of the 152,000 households in the City participate in the program. Another 25,000 households are scheduled to participate by October, 2014. During the past year, new recycle income and landfill diversion cost reductions allowed the City to realize \$1.4 million in total savings and revenue.
- *Clean Cleveland* – is a systematic delivery system designed to deliver service more efficiently and improve quality of service to Cleveland neighborhoods, without spending more money.

Awards and Acknowledgements

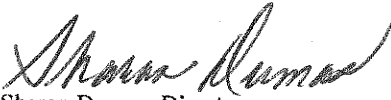

The Independent Audit: The City Charter requires an annual audit of the financial statements of all accounts of the City by an Independent Certified Public Accountant. Accordingly, this year's audit was completed by Clark, Schaefer, Hackett & Co. The year ended December 31, 2013, represents the 33rd consecutive year the City has prepared a Comprehensive Annual Financial Report (CAFR). In addition to the independent auditors, the City maintains its own Internal Audit Division. Along with the duty of assisting the independent auditors, the Internal Audit Division is responsible for strengthening and reviewing the City's internal controls. The Internal Audit Division performs its own independent operational and financial audits of the City's many funds, departments and divisions. We believe that the City's internal control structure adequately safeguards its assets and provides reasonable assurance of proper recording of all financial transactions.

GFOA Certificate of Achievement Award: The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Cleveland, Ohio for its CAFR for the fiscal year ended December 31, 2012. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

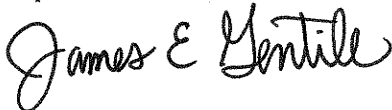

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized CAFR, the contents of which conform to program standards. Such CAFRs must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for the last 29 years (years ended 1984 – 2012). We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA.

Acknowledgements: The preparation of this report could not have been accomplished without the efficient and dedicated service of the Finance Department, particularly the Division of Financial Reporting and Control. We would also like to thank the Mayor, the cabinet and members of City Council. Without their continued support, the Department of Finance could not have maintained the financial management practices required to ensure the financial integrity of the City. We would like to thank the representatives of Clark, Schaefer, Hackett & Co. for their efforts and professional conduct throughout the audit engagement.

Very truly yours,

Sharon Dumas, Director

INDEPENDENT AUDITORS' REPORT

To the Honorable Frank G. Jackson, Mayor, Members of Council and the Audit Committee
City of Cleveland, Ohio:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Cleveland, Ohio (the "City") as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

one east fourth street, ste. 1200
cincinnati, oh 45202

www.cshco.com
p. 513.241.3111
f. 513.241.1212

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Cleveland, Ohio, as of December 31, 2013, and the respective changes in financial position and, where applicable, cash flows and the budgetary comparison for the General Fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 18 to the basic financial statements, in 2013, the City adopted GASB Statement No. 65, *Items Previously Recognized as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 33 through 50 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, capital assets schedules, introductory section, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules and capital assets schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 26, 2014 on our consideration of the City of Cleveland's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Cleveland's internal control over financial reporting and compliance.

Clark, Schaefer, Hackett & Co.

Cincinnati, Ohio

CITY OF CLEVELAND, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Cleveland (the City) we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the year ended December 31, 2013. Please read this information in conjunction with the City's financial statements and footnotes that begin on page 52.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at December 31, 2013 by approximately \$2.805 billion (net position). Of this amount, \$420.7 million (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and creditors.
- Of the approximately \$2.805 billion of net position, governmental activities accounted for approximately \$779 million of net position, while business-type activities net position accounted for approximately \$2.026 billion.
- The City's net position increased by \$145.2 million as compared to 2012. The governmental activities net position increased by \$118.0 million and the business-type activities net position increased by \$27.2 million.
- At the end of the current year, unassigned fund balance for the General Fund was \$75.9 million, which represents the amount available for spending at the City's discretion. The unassigned fund balance equals 15.7% of the total current General Fund expenditures and other financing uses.
- In 2013, the City's total long-term debt and other long-term debt-related obligations, excluding premiums, accreted interest and discounts decreased by \$62.6 million. The decrease indicates that the City's debt service payments and debt refunded or defeased exceeded new debt issued in 2013.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of four components: (1) government-wide financial statements, (2) fund financial statements, (3) General Fund budget and actual statement and (4) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private sector business.

The statement of net position presents financial information on all of the City's assets, liabilities and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City principally include: General Government; Public Works; Public Safety; Community Development; Building and Housing; Public Health and Economic Development. The business-type activities of the City principally include: water; electricity; and airport facilities.

The government-wide financial statements can be found on pages 52-55 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City presents 33 individual governmental funds on a modified accrual basis. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, which is considered to be a major fund. Data from the other 32 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annually appropriated budget for its General Fund, Enterprise and Internal Service Funds. The City adopts an annually appropriated budget for some of its Special Revenue and Debt Service Funds. The General Fund budgetary comparison has been provided as a separate financial statement to demonstrate compliance with its budget.

The basic governmental fund financial statements can be found on pages 56-59 of this report.

Proprietary funds. The City maintains two different types of proprietary funds. The first type is Enterprise Funds. They are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses Enterprise Funds to account for its water, electric, airport, sewer, public auditorium, markets, parking lots, cemeteries and golf course operations. The second type of proprietary fund the City uses is Internal Service Funds to account for its motor vehicle maintenance, printing and reproduction, postal services, utilities administration, sinking fund administration, municipal income tax administration, telephone exchange, radio communications operations and workers' compensation reserve. Internal Service Funds are an accounting device used to accumulate and allocate costs internally throughout the City's various functions. Because most of the internal services predominantly benefit governmental rather than business-type functions, they have been included within the governmental activities in the government-wide financial statements, except for the Utilities Administration Fund which has been classified as a business-type activity.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Division of Water, Cleveland Public Power and Department of Port Control Funds, which are considered to be major funds of the City. Conversely, Internal Service Funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the nonmajor Enterprise and Internal Service Funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 60-64 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City’s own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. All of the City’s fiduciary funds are Agency Funds.

The basic fiduciary fund financial statement can be found on page 65 of this report.

Notes to the financial statements. The notes provide additional information that is essential to achieve a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 67-114 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Information regarding the government-wide net position of the City is provided below:

**Summary Statements of Net Position
as of December 31, 2013 and 2012**

	<u>Governmental Activities</u>		<u>Business-Type Activities</u> (Amounts in 000's)		<u>Total</u>	
	2013	2012 (restated)	2013	2012 (restated)	2013	2012 (restated)
Assets:						
Current and other assets	\$ 765,631	\$ 743,284	\$ 1,143,316	\$ 1,197,141	\$ 1,908,947	\$ 1,940,425
Capital assets	1,025,543	929,462	3,085,009	3,055,706	4,110,552	3,985,168
Total assets	<u>1,791,174</u>	<u>1,672,746</u>	<u>4,228,325</u>	<u>4,252,847</u>	<u>6,019,499</u>	<u>5,925,593</u>
Deferred outflows of resources	8,241	9,509	79,369	96,829	87,610	106,338
Liabilities:						
Long-term obligations	784,325	784,215	2,071,097	2,135,047	2,855,422	2,919,262
Other liabilities	176,798	180,791	192,982	187,605	369,780	368,396
Total liabilities	<u>961,123</u>	<u>965,006</u>	<u>2,264,079</u>	<u>2,322,652</u>	<u>3,225,202</u>	<u>3,287,658</u>
Deferred inflows of resources	59,217	56,135	17,573	28,240	76,790	84,375
Net position:						
Net investment in capital assets	686,794	572,213	1,307,661	1,303,584	1,994,455	1,875,797
Restricted	145,729	122,488	244,196	227,826	389,925	350,314
Unrestricted	<u>(53,448)</u>	<u>(33,587)</u>	<u>474,185</u>	<u>467,374</u>	<u>420,737</u>	<u>433,787</u>
Total net position	<u>\$ 779,075</u>	<u>\$ 661,114</u>	<u>\$ 2,026,042</u>	<u>\$ 1,998,784</u>	<u>\$ 2,805,117</u>	<u>\$ 2,659,898</u>

As noted earlier, net position may serve, over time, as a useful indicator of a government's financial position. The City's assets and deferred outflows exceeded liabilities and deferred inflows by approximately \$2.805 billion at the close of the most recent fiscal year. This represents an increase of 5.5% in 2013. Of the City's net position, 27.8% represents its governmental net position and 72.2% represents its business-type net position.

Of the net position from governmental activities, \$686.8 million represents its investment in capital assets (e.g., land, land improvements, buildings, infrastructure, furniture, fixtures, equipment and vehicles), net of accumulated depreciation, less any related, still-outstanding debt issued to acquire, construct or improve those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be used to liquidate these liabilities. Another significant portion of net position, \$145.7 million, represents resources that are subject to external restrictions on how they may be used. There was a decrease in unrestricted net position of \$19.9 million.

In 2013, the total assets and deferred outflows from governmental activities increased by \$117.2 million. This increase is primarily attributed to increases in capital assets of \$96.1 million. The increase in capital assets relates largely to the construction of the Fulton Road Bridge of \$40.7 million and an increase of \$14.5 million in construction in progress due to the Metroparks Lakefront Parks.

Also in 2013, the total liabilities and deferred inflows of resources from governmental activities decreased by \$801,000. This was caused primarily by a decrease in accrued wages and benefits payable of \$11.2 million which was offset by an increase in unearned revenue of \$10.0 million in 2013.

In 2013, business-type total assets and deferred outflows of resources decreased by \$42.0 million. Restricted cash and cash equivalents decreased \$79.2 million which was offset by an increase in capital assets of \$29.3 million. The increase in capital assets is largely related to an increase of \$24.2 million in the Division of Water's rehabilitation of water mains and water tanks.

Business-type total liabilities and deferred inflows of resources decreased by \$69.2 million primarily due to a decrease in long-term obligations in 2013 related to payments of principal in 2013 and an increase of \$10.5 million in the fair market value of derivative instruments.

At the end of the current year, the City is able to report positive balances in total net position for both its governmental activities and its business-type activities. Information regarding government-wide changes in net position is provided below:

Changes in Net Position
For Fiscal Years Ended December 31, 2013 and 2012

	<u>Governmental</u> <u>Activities</u>		<u>Business-Type</u> <u>Activities</u> (Amounts in 000's)		<u>Total</u>

Nonmajor activities			35,235	39,444	35,235	39,444
Total expenses	<u>676,638</u>	<u>685,813</u>	<u>620,261</u>	<u>600,531</u>	<u>1,296,899</u>	<u>1,286,344</u>
Changes in net position before transfers	119,488	44,619	25,731	55,390	145,219	100,009
Transfers	<u>(1,527)</u>	<u>(1,589)</u>	<u>1,527</u>	<u>1,589</u>	<u>-</u>	<u>-</u>
Changes in net position	117,961	43,030	27,258	56,979	145,219	100,009
Net position at beginning of year (as restated)	<u>661,114</u>	<u>618,084</u>	<u>1,998,784</u>	<u>1,941,805</u>	<u>2,659,898</u>	<u>2,559,889</u>
Net position at end of year	<u>\$ 779,075</u>	<u>\$ 661,114</u>	<u>\$ 2,026,042</u>	<u>\$ 1,998,784</u>	<u>\$ 2,805,117</u>	<u>\$ 2,659,898</u>

Business-type net position increased \$27.2 million in 2013. Of the business-type net position, \$1.308 billion represents its investment in capital assets, net of accumulated depreciation, less any related, still-outstanding debt issued to acquire, construct or improve those assets. These capital assets are used to provide services to their customers. Consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional \$244.0 million of net position is subject to external restrictions on their use. The remaining balance of \$474.0 million is unrestricted and may be used to meet the City's ongoing obligations to customers and creditors.

Revenues by Source - Governmental Activities

Other includes other taxes, shared revenues, unrestricted investment earnings and other general revenues.

Expenses and Program Revenues - Governmental Activities

(Amounts in 000's)

Revenues by Source - Business-type Activities

Expenses and Program Revenues - Business-type Activities

(Amounts in 000's)

Business-type activities are principally accounted for in the City's Enterprise Funds. The City operates three major Enterprise Funds encompassing two airports, a water system and an electric distribution system. The City also operates other Enterprise Funds consisting of a sewer system, cemeteries, a public auditorium, municipal parking lots and public market facilities. The City owns two golf courses whose management and operations are currently leased to outside entities. The operating results of the City's Major Enterprise Funds are discussed below.

Division of Water: The Division operates a major public water supply system, the ninth largest in the United States that serves not only the City, but also 68 direct service, eight master meter and three emergency standby suburban municipalities in Cuyahoga, Medina, Summit and Geauga counties. They provide water to approximately 417,605 city and suburban accounts in the Cleveland Metropolitan Area. Operating revenue in 2013 decreased to \$272.7 million from \$280.3 million in 2012. The decrease is mainly due to a decrease in water pumpage. Operating expenses, exclusive of depreciation, increased approximately 3.9% to \$154.9 million compared to \$149.2 million in 2012.

Division of Cleveland Public Power: The Division supplies electrical service to approximately 74,000 customers in the City. The Division is responsible for supplying, transmitting and distributing electricity and providing related electrical services to customers within its service area. The Division's 2013 operating revenue increased 3.1% to \$170.3 million from \$165.2 million in 2012. Purchased power expense increased 5.4% to \$100.9 million in 2013 from \$95.8 million in 2012. Operating expenses, exclusive of depreciation and purchased power, decreased 2.5% to \$40.2 million compared to \$41.2 million in 2012.

Department of Port Control: The City's Department of Port Control consists of the Divisions of Cleveland Hopkins International Airport and Burke Lakefront Airport. Currently, 26 passenger airlines provide scheduled airline service at Cleveland Hopkins International Airport. Burke Lakefront Airport, a federally certified commercial and general aviation reliever airport, provides the majority of its services to air taxi operators serving the City's downtown business activities. The airports' operating income experienced little change in 2013. There was an \$8.1 million increase in capital contributions in 2013 which was primarily for the design and construction of the Burke Runway Safety Area Improvements Project.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current year, the City's governmental funds reported combined ending fund balances of \$433.9 million, an increase of \$24.9 million and approximately 6.1% in comparison with the prior year. The components of the governmental fund balances include an unassigned balance of \$75.9 million, which indicates the amount available for spending at the City's discretion. An additional \$245.0 million of fund balance is available for expenditures that are legally restricted for a particular purpose. The nonspendable portion of fund balance has \$1.0 million of items that are not in a spendable form, such as inventory. An additional \$98.8 million is committed to fund specific purposes and cannot be reassigned without legislative approval. The remaining assigned balance of \$13.2 million represents funds that the City intends to use for a specific purpose.

The General Fund is the chief operating fund of the City. At the end of the current year, the unassigned fund balance of the General Fund was \$75.9 million and the total fund balance was \$89.7 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures and transfers out. Unassigned fund balance represents 15.7% of total General Fund expenditures and other financing uses, while total fund balance represents approximately 18.5% of that same amount.

A two-year comparison of General Fund activity is shown below. The revenues, expenditures and changes in fund balance shown in these comparisons are presented on the modified accrual basis of accounting applicable to governmental funds.

General Fund
Statement of Revenues, Expenditures and Changes in Fund Balance Information - GAAP Basis
2013 and 2012
(Amounts in 000's)

	<u>2013</u>	<u>2012</u>

Fund balance at end of year	<u>\$ 89,748</u>	<u>\$ 71,750</u>

Analysis of General Fund Revenues

General Fund revenues and other sources totaled \$501.9 million in 2013, an increase of approximately \$1.2 million from 2012. A discussion of each of the major types of General Fund revenues follows.

Municipal Income Taxes

Ohio law authorizes a municipal income tax both on corporate income (net profits from the operation of a business or profession) and employee wages, salaries and other compensation at a rate of up to 1% without voter authorization and at a rate above 1% with voter authorization. In 1979 and in 1981, the voters in the City approved increases of one-half of one percent to the rate of the income tax, bringing it to the current 2% rate. By the terms of the 1981 voter approval, as amended in 1985, one-ninth of the receipts of the total 2% tax (the Restricted Income Tax) must be used only for capital improvements, debt service or obligations issued for capital improvements or the payment of past deficits. The remaining eight-ninths of the municipal income tax is recorded in the General Fund and is pledged to, and may also be used for, debt service on General Obligation Bonds of the City, to the extent required and certain other obligations of the City.

The income tax is also imposed on gross salaries and wages earned in the City by non-residents of the City and on salaries, wages and other compensation of City residents earned within or outside the City. The income tax liability of a City resident employed outside the City is reduced by a credit equal to 50% of the tax paid to the municipality in which the City resident is employed. The tax on business profits is imposed on that part of profits attributable to business conducted within the City. In 2013, approximately 89% of the total income taxes paid to the City were derived from non-residents employed in the City and business profits.

Income tax revenue increased approximately \$1.1 million in 2013 from 2012, primarily due to increased construction activity in the University Circle and downtown areas.

Property Taxes

Taxes collected from real property in one calendar year are levied in the preceding calendar year on assessed values as of January 1 of that preceding year. Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year.

The “assessed valuation” of real property is fixed at 35% of true value and is determined pursuant to rules of the State Tax Commissioner. An exception is that real property devoted exclusively to agricultural use is to be assessed at not more than 35% of its current agricultural use value. Real property devoted exclusively to forestry or timber growing is taxed at 50% of the local tax rate multiplied by the assessed value.

The assessed values of taxable property in the City for the past two years were as follows:

<u>Tax Collection Year</u>	<u>Real Property</u>	<u>Public Utility Tangible Personal Property</u> (Amounts in 000's)	<u>Total Assessed Valuation</u>
2013	\$ 4,602,210	\$ 266,558	\$ 4,868,768
2012	\$ 5,385,180	\$ 246,081	\$ 5,631,261

Property tax revenue fell by \$3.3 million as a result of a decrease in both residential property valuations and lower collection rates.

State Local Government Funds, Other Taxes and Other Shared Revenues

State Local Government Funds, Other Taxes and Other Shared Revenues include taxes levied and collected by the State of Ohio or counties and partially redistributed to the City and other political subdivisions. Other Taxes and Other Shared Revenues include state income, sales, admission, motor vehicle, parking, hotel, commercial activity, corporate franchise, casino, homestead and rollback, public utility, estate and cigarette taxes as well as liquor fees. State Local Government Funds revenue decreased by \$3.4 million or 10.6% due to decreases in the distributions to local governments implemented as part of the State's budget balancing measures. Other Taxes increased \$2.5 million or 7.2% from 2012 levels primarily as a result of increases in admission tax revenues. Other Shared Revenues increased \$3.9 million or 25.8% from 2012 levels primarily as a result of the City collecting revenue from all four casinos of which three were open for the entire year.

Since 1993, the State Local Government Funds (LGF) have been the City's largest source of non-tax General Fund revenue. Through these funds, Ohio subdivisions share in a portion of the State's collection of the sales tax, use tax, personal income tax, corporate franchise tax and public utilities excise tax. The percentages of the five taxes supporting these funds have varied over the years. At times, the dollar amount in the funds has been capped at specified levels.

Pursuant to statutory law in Ohio, State LGF revenues are divided into county and municipal portions. The county portion, the larger of the two, is distributed to each of the State's 88 counties and is allocated based upon a statutory formula utilizing county population and county municipal property values. Once received by a county, the funds can either be distributed to all subdivisions using the statutory formula or the county and its subdivisions may agree upon an alternate method for allocating the funds. Cuyahoga County and its recipient communities have chosen the latter method which is comprised of a base allocation and an excess allocation. The excess allocation takes into account such factors as assessed value per capita, per capita income, population density and the number of individuals receiving public assistance. The municipal portion of the LGF is distributed directly by the State to those municipalities that collect an income tax. A municipality receives its share of the funds based upon its percentage of total municipal income taxes collected throughout the state in a given year.

Distributions from the State of Ohio and Cuyahoga County (as a conduit between the State and City) have generally decreased since 2000.

Analysis of General Fund Expenditures

General Fund expenditures and other financing uses totaled \$483.9 million in 2013, an increase of 0.7% from 2012. The amount of expenditures and other uses by function on a GAAP basis, including the increases (decreases) over the prior year, are shown in the following table:

<u>Expenditures and Other Financing Uses</u>	<u>Actual 2013</u>	<u>% of Total</u>	<u>Actual 2012</u>	<u>% of Total</u>	<u>Increase (Decrease)</u>	<u>% Change</u>
(Amounts in 000's)						
Current:						
General Government	\$ 75,834	15.67	\$ 76,966	16.02	\$ (1,132)	(1.47)
Public Works	62,444	12.91	63,622	13.24	(1,178)	(1.85)
Public Safety	295,028	60.97	294,955	61.38	73	0.02
Community Development	168	0.03	157	0.03	11	7.01
Building and Housing	8,874	1.83	7,836	1.63	1,038	13.25
Public Health	4,419	0.91	5,326	1.11	(907)	(17.03)
Economic Development	1,472	0.31	1,407	0.29	65	4.62
Other	12,127	2.51	10,992	2.29	1,135	10.33
Capital Outlay	13	0.00	2,302	0.48	(2,289)	(99.44)
Transfers Out	<u>23,507</u>	4.86	<u>16,941</u>	3.53	<u>6,566</u>	38.76
Total Expenditures and Other Financing Uses	<u>\$ 483,886</u>		<u>\$ 480,504</u>		<u>\$ 3,382</u>	

The total expenditures and other financing uses increased by \$3.4 million. The growth was primarily caused by a \$7.3 million increase in transfers out to the Cleveland Stadium Operations Fund. This was primarily offset by a decrease of \$2.3 million in capital outlay relating to repairs for the Public Auditorium.

Proprietary Funds. The City’s proprietary fund financial statements provide the same type of information found in the government-wide financial statements, but in more detail.

The unrestricted net position of the Division of Water, Cleveland Public Power and the Department of Port Control Funds amounted to \$274.5 million, \$41.8 million and \$114.0 million, respectively, at December 31, 2013. The change in net position for each of the respective funds amounted to an increase of \$33.4 million and decreases of \$143,000 and \$6.8 million during 2013. Other factors concerning the finances of the City’s proprietary funds have already been addressed in the discussion of the City’s business-type activities.

Major Functional Expense Categories. A discussion of the City’s major functional expense categories follows:

Employees and Labor Relations

As of December 31, 2013 and 2012, the City had approximately 7,109 and 7,126 full-time employees, respectively. Of the 7,109 full-time employees, approximately 5,350 full-time employees are represented by 31 collective bargaining units. The largest collective bargaining units, together with the approximate number of employees represented by such units, include the American Federation of State, County and Municipal Employees, Local 100 – 1,165 members; Cleveland Police Patrolmen’s Association – 1,234 members; the Association of Cleveland Firefighters – 779 members; Municipal Foreman and Laborers Union, Local 1099 – 417 members; and Local 244 – 233 members.

There have been no significant labor disputes or work stoppages in the City within the last 30 years.

The Council, by ordinance, establishes schedules of salaries, wages and other economic benefits for City employees. Generally, the terms of these ordinances have been the product of negotiations with representatives of the employees or bargaining units, and increases in economic benefits have normally been provided on an annual basis.

Chapter 4117 of the Ohio Revised Code (the Collective Bargaining Law), establishes procedures for, and regulates public employer-employee collective bargaining and labor relations for the City and other state and local governmental units in Ohio. The Collective Bargaining Law creates a three-member State Employment Relations Board (the SERB), which administers and enforces the Collective Bargaining Law. Among other things, the Collective Bargaining Law: (i) creates rights and obligations of public employers, public employees and public employee organizations with respect to labor relations; (ii) defines the employees it covers; (iii) establishes methods for (a) the recognition of employees and organizations as exclusive representatives for collective bargaining and (b) the determination of bargaining units; (iv) establishes matters for which collective bargaining is either required, prohibited or optional; (v) establishes procedures for bargaining and the resolution of disputes, including negotiation, mediation and fact finding; and (vi) permits all covered employees to strike, except certain enumerated classes of employees, such as police and fire personnel.

Over the past two years, the total salaries and wages paid to the City’s employees from all funds were as follows:

<u>Year</u>	<u>Amount Paid</u> (Amounts in 000's)
2013	\$ 431,853
2012	421,023

In 2013, there was an increase in salaries and wages payable due to the addition of a 27th pay period.

Employee Retirement Benefits

City employees are members of one of two retirement systems. These retirement systems provide both pension and post-retirement health care benefits to participants. They were created pursuant to Ohio statutes and are administered by state created Boards of Trustees. The boards are comprised of a combination of elected members from the respective retirement system’s membership and ex-officio members from certain state and local offices.

These two retirement systems are:

- Ohio Public Employees Retirement System (OPERS), created in 1935, represents state and local government employees not included in one of the other retirement systems. Management of the system indicates there are 347,727 actively contributing members and total net position of this pension system approximated \$89.0 billion as of December 31, 2013, the latest information available. More data on this pension system is shown in Note 13 – Defined Benefit Pension Plans and Note 14 – Other Postemployment Benefits of this report.
- Ohio Police and Fire Pension Fund (OP&F), created in 1965, represents sworn personnel, not civilians, employed in police and fire divisions of Ohio’s local governments. As of December 31, 2013, the latest information available, management of the fund indicates membership of 27,444 active members and net position of this pension fund approximated \$13.0 billion. All of the City’s police and fire officers are members of this pension fund. More data on this pension fund is shown in Note 13 – Defined Benefit Pension Plans and Note 14 – Other Postemployment Benefits of this report.

Over the past two years, the City and its employees have paid the following amounts to OPERS and OP&F:

	<u>2013</u>	<u>2012</u>
	(Amounts in 000's)	
Paid by City to:		
OPERS	\$ 35,261	\$ 35,516
OP&F	<u>31,956</u>	<u>32,607</u>
Total paid by City	<u>67,217</u>	<u>68,123</u>
Paid by employees to:		
OPERS	25,130	25,380
OP&F	<u>15,582</u>	<u>15,060</u>
Total paid by employees	<u>40,712</u>	<u>40,440</u>
Total	<u>\$ 107,929</u>	<u>\$ 108,563</u>

The City is current in all of its required contributions to the respective pension funds. The pension plans and other postemployment benefits for health care are explained in Note 13 – Defined Benefit Pension Plans and Note 14 – Other Postemployment Benefits.

GENERAL FUND BUDGETARY ANALYSIS

In 2013, the principal difference between the original and the final revenue and other sources budget (see page 59) was a \$5.4 million increase in miscellaneous revenue which is attributed to a workers' compensation adjustment the City expected to receive. There was also an increase of \$5.2 million in other expenditures attributed to a \$3.6 million expected increase in capital outlay as well as a \$1.6 million expected increase in Justice Center expenditures.

The major differences between the final amended budget and the actual total revenues were increases of \$10.0 million in income taxes and \$2.8 million in other taxes. The increase in income taxes is primarily attributed to increased construction activity and an improving local economy, while the other taxes resulted from mostly admission taxes which came in higher than expected in 2013. There were minor decreases in most expenditure components due to increased operating efficiencies and reduced payroll costs.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets: The City's capital assets for its governmental and business-type activities as of December 31, 2013, amounts to \$4.1 billion (net of accumulated depreciation). This capital assets balance includes land; land improvements; utility plant; buildings, structures and improvements; furniture, fixtures, equipment and vehicles; infrastructure; and construction in progress. The total increase in the City's capital assets for the current fiscal year was 3.1% (a 10.3% increase for governmental activities and a 1.0% increase for business-type activities). A summary of the City's capital assets at December 31, 2013 is as follows:

	<u>Capital Assets, Net of Accumulated Depreciation</u>		
	<u>Governmental</u> <u>Activities</u>	<u>Business-Type</u> <u>Activities</u>	<u>Total</u>
		(Amounts in 000's)	
Land	\$ 66,188	\$ 191,677	\$ 257,865
Land improvements	55,082	55,793	110,875
Utility plant		1,545,100	1,545,100
Buildings, structures and improvements	325,606	334,434	660,040
Furniture, fixtures, equipment and vehicles	44,993	141,014	186,007
Infrastructure	374,809	499,732	874,541
Construction in progress	<u>158,865</u>	<u>317,259</u>	<u>476,124</u>
Total	<u>\$ 1,025,543</u>	<u>\$ 3,085,009</u>	<u>\$ 4,110,552</u>

Additions to construction in progress during the current fiscal year affecting the City's capital assets included the following:

- Cleveland Public Power incurred \$20.9 million of capital additions relating to the Lake Road Project, Flats East Bank Project and Emergency Transformer Repairs.
- The Division of Water had capital improvements totaling \$87.7 million. Major improvements were for the continuing renovations and enhancements of water mains and water tanks as well as the security enhancement program and automated meter reading system.
- Port Control capital improvements totaled approximately \$19.3 million. Major initiatives were the Power Distribution Enhancement Project, installation of a new terrazzo floor in the main concourse, the Regional Transportation Authority (RTA) Level Art Gallery, which replaces various interior infrastructure items to allow for the display of wall and floor artwork and Burke Lakefront Airport Runway 6L-24R safety area improvements.
- Water Pollution Control had capital improvements of \$4.0 million. Major components included citywide rehabilitation and relining sewers, 800MHZ System Upgrade, Earle Avenue Sewer and emergency repairs.
- Major capital projects for Governmental Activities included land improvements, building improvements, vehicles and equipment, various computer system upgrades and infrastructure improvements.

The primary sources for financing the City's Capital Improvement Projects are general obligation bond proceeds, certificates of participation proceeds, urban renewal bond proceeds, revenue bond proceeds, proceeds from capital leases, interest earned on funds prior to and during the construction period, restricted income taxes and funds from the State Issue 2 and Local Transportation Improvement Programs. The City has three primary goals relating to its Capital Improvements: (1) preservation and revitalization of the City's neighborhoods, (2) economic development and job creation and (3) provision of cost-effective, basic City services to Cleveland residents and the business community. Additional information on the City's capital assets, including commitments made for future capital expenditures, can be found in Note 15 – Capital Assets.

Long-term debt and certain other obligations: At the end of the current fiscal year, the City had total long-term debt and certain other obligations outstanding of \$2.6 billion as shown below. General Obligation Bonds are typically issued for general governmental activities and are backed by the full faith and credit of the City. Revenue bonds are typically recorded in the applicable Enterprise Fund and are supported by the revenues generated by the respective Enterprise Fund. The remainder of the City's debt represents bonds or notes secured solely by specified revenue sources.

The activity in the City's debt obligations outstanding during the year ended December 31, 2013 is summarized below (excluding unamortized discounts, premiums and accreted interest).

	Balance January 1, 2013	Debt Issued	Debt Refunded or Defeased	Debt Retired	Balance December 31, 2013
	(Amounts in 000's)				
<u>Governmental Activities:</u>					
General Obligation Bonds	\$ 308,700	\$	\$	\$ (26,150)	\$ 282,550
Urban Renewal Bonds	4,270			(600)	3,670
Subordinated Income Tax Bonds	50,020			(3,105)	46,915
Subordinate Lien Income Tax Bonds	92,380	35,840		(3,730)	124,490
Non-Tax Revenue Bonds	55,894	25,360	(25,360)	(2,786)	53,108
Annual Appropriation Bonds	10,765			(240)	10,525
Certificates of Participation	123,605			(5,935)	117,670
Capital Lease Obligations	16,236	6,535		(3,586)	19,185
Note/Loans Payable	<u>1,000</u>	<u>2,786</u>	<u>_____</u>	<u>(431)</u>	<u>3,355</u>
Total Governmental Activities	<u>662,870</u>	<u>70,521</u>	<u>(25,360)</u>	<u>(46,563)</u>	<u>661,468</u>
<u>Business –Type Activities:</u>					
Revenue Bonds & Notes	1,926,203	58,000	(58,000)	(62,615)	1,863,588
Ohio Water Development Loans	109,742	11,950		(7,320)	114,372
Deferred Payment Obligation	<u>3,510</u>	<u>_____</u>	<u>_____</u>	<u>(3,230)</u>	<u>280</u>
Total Business –Type Activities	<u>2,039,455</u>	<u>69,950</u>	<u>(58,000)</u>	<u>(73,165)</u>	<u>1,978,240</u>
Total	<u>\$ 2,702,325</u>	<u>\$ 140,471</u>	<u>\$ (83,360)</u>	<u>\$ (119,728)</u>	<u>\$ 2,639,708</u>

Funds used to meet the debt service requirements of the City's General Obligation Bonds are from certain ad valorem taxes, restricted income taxes and interest earnings. Ad valorem taxes, the primary source of funds, amounted to \$17.04 million in 2013 which represents approximately 42% of the debt service requirements on the General Obligation Bonds. These taxes were derived from a levy of \$4.35 per \$1,000 of assessed property. The remaining 58% of debt service requirements is retired from a portion of the City's restricted income tax proceeds, homestead and rollback reimbursement from the State, interest earnings and other miscellaneous revenue sources generated within the Debt Service Funds.

The City issues its General Obligation Bonds within the context of its Capital Improvement Program. Programs which have benefited due to the issuance of general obligation debt include, but are not limited to, public works improvements, bridge and roadway improvements, recreation facilities, cemeteries and urban redevelopment. The City's Enterprise Funds implement their own individual Capital Improvement Programs and issue revenue bond and note debt necessary to fund their programs.

The City's bond ratings for general obligation and revenue bonds are as follows as of December 31, 2013:

	Moody's Investors Service	Standard & Poor's	Fitch Ratings
General Obligation Bonds	A1	AA	A+
Subordinate Lien Income Tax Bonds	A1	AA	N/A
Waterworks Revenue Bonds	Aa1	AA	N/A
Second Lien Water Bonds	Aa2	AA-	N/A
Cleveland Public Power Revenue Bonds	A2	A-**	N/A
Airport System Revenue Bonds	Baa1	A-	A-
Parking Revenue Bonds (Insured Ratings)	A2 *	AA-	N/A

* On January 17, 2013, Moody's Investors Service lowered its rating on Assured Guaranty Municipal Corporation to A2 from Aa3. Parking Facilities' bonds only carry the insured rating.

** Effective November 26, 2013 Standard & Poor's changed its outlook on Cleveland Public Power from stable to negative.

The ratio of net general bonded debt to assessed valuation and the amount of bonded debt per capita are useful indicators of the City's debt position to management, citizens and investors. Net general bonded debt is total general bonded debt supported by taxes less amounts available in the Debt Service Fund. This data at December 31, 2013 was:

Net General Bonded Debt:	\$279,124,000
Ratio of Net Bonded Debt to Assessed Valuation:	5.73%
Net General Bonded Debt Per Capita:	\$703.41

The Ohio Revised Code provides that the net debt of a municipal corporation, whether or not approved by the electors, shall not exceed 10.50% of the assessed value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.50% of total assessed value of property. The City's total debt limit (10.50%) is \$511,220,638 and unvoted debt limit (5.50%) is \$267,782,239. At December 31, 2013, the City had virtually no capacity under the indirect debt limitation calculation per the Ohio Revised Code to issue additional unvoted debt. However, these debt limitations are not expected to affect the financing of any currently planned facilities or services.

In addition, the City has entered into various derivative or hedging agreements since 1999. Derivative instruments are contracts, the value of which depends on, or derives from, the value of an underlying asset, index or rate. The most common types of derivatives used by governments are interest rate swaps and interest rate locks. A detailed description of each outstanding derivative, including its terms, objectives, risks and fair value, can be found in Note 5 – Debt and Other Long-Term Obligations.

The City reports a deferred outflow and a liability in the amount of the fair value of the interest rate swaps, which reflect the prevailing interest rate environment at December 31, 2013 and an investment loss or gain as appropriate based on the change in fair value. The specific terms and conditions of each swap have been provided by the respective counterparty for each swap and confirmed by the City's financial advisor.

Additional information on the City's long-term debt can be found in Note 5 – Debt and Other Long-Term Obligations.

FACTORS EXPECTED TO IMPACT THE CITY'S FUTURE FINANCIAL POSITION OR RESULTS OF OPERATIONS

The City, like all municipalities both local and national, continues to face the challenges of economic recession. Basic operating costs continue to rise due to negotiated salary increases, higher benefit costs and federal and state mandates being placed upon municipalities at the same time federal and state funding is being reduced.

Over the last several years, the City has seen significant reductions in funding from the federal and state governments. To offset these reductions, the City continues to focus on stimulating economic and community development throughout its core business districts and neighborhoods to strengthen its housing stock value and ensure a strong local job market.

Other Impacting Factors

- On February 3, 2014, United Airlines announced a 60% reduction in average daily departures from Cleveland and a reduction of regional departures from Cleveland by over 70%.
- On February 11, 2014, the City issued \$31,460,000 Subordinate Lien Income Tax Bonds, Series 2014A.
- Effective February 12, 2014, the City issued \$24,255,000 Airport System Revenue Bonds, Series 2014A and \$9,070,000 Airport System Revenue Bonds, Series 2014B.
- On March 18, 2014, Standard & Poor's Ratings Services raised its rating on Assured Guaranty Municipal Corp. which is the insurer of the Series 2006 Parking Facilities Refunding Revenue Bonds.
- On May 19, 2014, City Council approved legislation authorizing the issuance of one or more series of bonds to refund outstanding public power system revenue bonds for the purpose of restructuring the Cleveland Public Power debt.

See Note 22- Subsequent Events for additional information.

NEED ADDITIONAL INFORMATION

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Office of the Finance Director, City Hall, Room 104, 601 Lakeside Avenue, Cleveland, Ohio 44114.

TOTAL LIABILITIES, DEFERRED INFLOWS AND FUND BALANCES	<u>\$ 224,693</u>	<u>\$ 531,001</u>	

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities (excluding internal service fund capital assets) are not financial resources and, therefore, are not reported in the funds.	1,021,364
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.	80,940
Long-term liabilities, including bonds and claims payable, are not due and payable in the current period and therefore are not reported in the funds.	(766,776)
The assets and liabilities of most of the internal service funds are included in the governmental activities in the statement of net position.	<u>9,620</u>
Net position of governmental activities	<u><u>\$ 779,075</u></u>

CITY OF CLEVELAND, OHIO

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES OF GOVERNMENTAL FUNDS FOR THE YEAR ENDED DECEMBER 31, 2013

(Amounts in 000's)

Amounts reported for governmental activities in the statement of activities (pages 54 and 55) are different because:

Net change in fund balances - total governmental funds (page 57)	\$ 24,947
Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	96,550
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(1,783)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences, including accrued interest, in the treatment of long-term debt and related items.	474
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	630
The net revenue of certain activities of internal service funds is reported with governmental activities.	<u>(2,857)</u>
Change in net position of governmental activities (pages 54 and 55)	<u>\$ 117,961</u>

The notes to financial statements are an integral part of this statement.

CITY OF CLEVELAND, OHIO
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF CITY OPERATIONS AND REPORTING ENTITY

The City: The City of Cleveland, Ohio (the City) operates under an elected Mayor/Council (17 Council members) administrative/legislative form of government.

Reporting Entity: The accompanying financial statements as of December 31, 2013 and for the year then ended have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) applicable to local governments. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles, which are primarily set forth in the GASB's Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification).

In evaluating how to define the governmental reporting entity, the City complies with the provisions of GASB Statement No. 61, *The Financial Reporting Entity*, under which the financial statements include all the organizations, activities, functions and component units for which the City (primary government) is financially accountable. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and either (1) the City's ability to impose its will over the component unit or (2) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the City.

On this basis, the City's financial reporting entity has no component units but includes in its financial statements the financial activities of all departments, agencies, boards and commissions that are part of the primary government, including police and fire protection, waste collection, parks and recreation, health, certain social services and general administrative services. In addition, the City owns and operates several enterprise activities, the principal ones consisting of a water system, an electric distribution system and two airports.

The following entities are related organizations of the City of Cleveland; however, the City's accountability does not extend beyond its appointing authority:

Cuyahoga Metropolitan Housing Authority – Created under the Ohio Revised Code, the Cuyahoga Metropolitan Housing Authority provides public housing services. The five-member board consists of two appointed by the Mayor of the City of Cleveland, two appointed by Cleveland City Council and one appointed by the Mayor of the City of East Cleveland with approval from its City Council.

Cleveland-Cuyahoga County Port Authority – Created under the Ohio Revised Code, the Cleveland-Cuyahoga County Port Authority conducts port operations and economic development activities. The nine-member Board of Directors consists of three appointed by the Cuyahoga County Commissioners and six appointed by the City of Cleveland.

Cleveland Metropolitan School District (Schools) – In November of 1998, the Mayor of the City of Cleveland was given appointing authority for the Schools. As approved by the State Legislature, the Ohio Revised Code provides for the Mayor to appoint a Chief Executive Officer who must be approved by the Board of Education (the Board). The Board is comprised of nine-members. The members of the Board are appointed by the Mayor from a pool of candidates presented to the Mayor by an independent nominating panel. In November 2002, the voters of Cleveland elected to maintain the current governance structure.

The following entity is a jointly governed organization of the City; however, the City has no ongoing financial interest or responsibility:

Gateway Economic Development Corporation of Greater Cleveland (Gateway) – Gateway is responsible for the operations of a sports complex and related economic development. The five-member board consists of two members appointed by the City, two members appointed by the Board of County Commissioners and one by the President of the Board of County Commissioners with concurrence of the Mayor of the City of Cleveland.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant Accounting Policies:

The following is a summary of the more significant policies followed during the preparation of the accompanying financial statements.

A. *Government-Wide and Fund Financial Statements*

GASB Statement No. 34 established requirements and a reporting model for the annual financial reports of state and local governments. GASB Statement No. 34 was developed to make annual reports easier to understand and more useful to the people who use governmental financial information to make decisions. Financial information of the City is presented in the following format:

Basic Financial Statements:

1. *Government-wide financial statements* consist of a statement of net position and a statement of activities. These statements report all of the assets, deferred outflows, liabilities, deferred inflows, revenues, expenses, gains and losses of the City. Governmental activities are reported separately from business-type activities. Governmental activities are normally supported by taxes and intergovernmental revenues whereas business-type activities are normally supported by fees and charges for services and are usually intended by management to be financially self-sustaining. Fiduciary funds of the City are not included in these government-wide financial statements.

Interfund receivables and payables, bonds and notes issued and held by the City as investments within governmental and business-type activities have been eliminated in the government-wide statement of net position. Related interest amounts are eliminated in the government-wide statement of activities. These eliminations minimize the duplicating effect on assets and liabilities within the governmental and business-type activities total column.

Internal Service Fund balances, whether positive or negative, have been eliminated against the expenses and program revenues shown as governmental activities in the statement of activities, except for the Utilities Administration Fund which is shown in the business-type activities column.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the City and for each function of the City's governmental activities.

Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenue includes (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions, including special assessments that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. General revenues are considered unrestricted in nature.

Program revenues and expenses previously reported as “Other” program revenues and expenses in governmental activities on the statement of activities are now classified as General Government program revenues and expenses as appropriate.

Business-type activities on the government-wide statement of activities summarizes other Enterprise Funds as Nonmajor activities. These include Sewer, Public Auditorium, West Side Market, East Side Market, Municipal Parking Lots, Cemeteries and Golf Courses.

2. *Fund financial statements* consist of a series of statements focusing on information about the City’s major governmental and enterprise funds. Separate statements are presented for the governmental, proprietary and fiduciary funds.

The City’s major governmental fund is the General Fund. Of the City’s business-type activities, the Division of Water Fund, Cleveland Public Power Fund and Department of Port Control Fund are considered major Enterprise Funds.

The General Fund is the primary operating fund of the City. It is used to account for all financial resources, except those required to be accounted for in other funds. Its revenues consist primarily of income and property taxes, investment earnings, other taxes, other shared revenues, charges for services, licenses, fees and fines.

General Fund expenditures represent costs of General Government; Public Works (including waste collection); Public Safety (including police and fire); Building and Housing; Public Health; Community Development; and Economic Development. General Fund resources are also transferred annually to support other services which are accounted for in other separate funds.

The Division of Water Fund is a segment of the Department of Public Utilities of the City. The Division of Water was created for the purpose of supplying water services to customers within the Cleveland Metropolitan Area.

The Cleveland Public Power Fund is a segment of the Department of Public Utilities of the City. The Cleveland Public Power Fund was established by the City to provide electrical services to customers within the City.

The Department of Port Control Fund was established to account for the operations of the City’s airport facilities.

While not considered major funds, the City maintains Internal Service Funds used to account for the financing of goods or services provided by one department or division to another department, division or other government on a cost-reimbursement basis.

Also maintained by the City are fiduciary funds, such as Agency Funds, used to account for assets held by the City as an agent for individuals, private organizations or other governments.

3. The City’s General Fund budget to actual statement is presented as part of the basic financial statements.
4. Notes to financial statements provide information that is essential to a user’s understanding of the basic financial statements.

B. ***Financial Reporting Presentation***

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows, liabilities, deferred inflows, fund balance (equity), revenues and expenditures (expenses). The fund types and classifications that the City reports are as follows:

GOVERNMENTAL FUNDS

1. **General Fund** – The general fund should be used to account for and report all financial resources not accounted for and reported in another fund.
2. **Special Revenue Funds** – Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures of specified purposes other than debt service or capital projects. The term *proceeds of specific revenue sources* establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.
3. **Debt Service Funds** – Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.
4. **Capital Project Funds** – Capital Project Funds are used to account for and report financial resources that are restricted or committed to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital project funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

PROPRIETARY FUNDS

1. **Enterprise Funds** – The Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.
2. **Internal Service Funds** – The Internal Service Funds are used to account for the financing of goods or services provided by one department or division to other departments or divisions or to other governments on a cost-reimbursement basis. The City's most significant Internal Service Funds are used to account for Motor Vehicle Maintenance, Municipal Income Tax Administration and the Workers' Compensation Reserve.

FIDUCIARY FUNDS

1. **Agency Funds** – Agency Funds are used to account for assets held by the City as an agent for individuals, private organizations and other governments. The Agency Funds are custodial in nature (assets equal liabilities) and do not have a measurement focus. However, the accrual basis of accounting is used to recognize receivables and payables. The City's more significant Agency Funds are used to account for Municipal Court and income tax collections for other municipalities.

Fiduciary funds are not included in the government-wide statements.

C. ***Measurement Focus and Basis of Accounting***

Except for budgetary purposes, the basis of accounting used by the City conforms to GAAP as applicable to governmental units. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide, proprietary and fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include income taxes, property taxes, grants, shared revenue and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the taxpayer's liability occurs and revenue from property taxes is recognized in the fiscal year for which the taxes are levied. On an accrual basis, revenue in the form of shared revenue is recognized when the provider government recognizes its liability to the City. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include: (1) timing requirements which specify the year when the resources are required to be used or the year when use is first permitted; (2) matching requirements, in which the City must provide local resources to be used for a specified purpose; and (3) expenditure requirements, in which the resources are provided to the City on a cost-reimbursement basis.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. The City generally considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year end. Expenditures are generally recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences, which are recognized as expenditures only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

In applying the susceptible-to-accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available (i.e., collectible within the current year or within sixty days after year end and available to pay obligations of the current period): income taxes, investment earnings and other shared revenues. Reimbursements due for federal or state funded projects are accrued as revenue at the time the expenditures are made or, when received in advance, deferred until expenditures are made. Property taxes and special assessments, though measurable, are not available to finance current period obligations. Therefore, property tax receivables are recorded and deferred until they become available. Other revenues, including licenses, fees, fines and forfeitures and charges for services are recorded as revenue when received in cash because they are generally not measurable until actually received.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. Non-operating revenues, such as investment income and passenger facility charges, result from non-exchange transactions or ancillary activities.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed. The City uses unrestricted resources that are committed first, assigned second and unassigned last.

D. **Budgetary Procedures**

The City is required by State law to adopt annual budgets for the General Fund, certain Special Revenue Funds (including the Division of Streets, Restricted Income Tax, Rainy Day Reserve, Schools Recreation and Cultural Activities and Cleveland Stadium Operations Funds), Debt Service Funds (except for Urban Renewal and Urban Renewal Reserve Funds) and Proprietary Operating Funds. Modifications to the original budget are approved by City Council throughout the year. The City maintains budgetary control by not permitting expenditures to exceed appropriations for personnel costs (including benefits) and other costs (including debt service and capital outlay), within a division of the City, without the approval of City Council. Adjustments to the budget can only be made within a division and then within each category. Further legislation is needed in order to move budget amounts from “personnel” to “other” or vice versa, or between divisions. City Council adopted five appropriation amendments during 2013 which reallocated appropriations and increased the budget by less than 3% from the original budget.

Unencumbered appropriations for annually budgeted funds lapse at year end.

The City’s budgetary process does not include annual budgeting for certain Special Revenue Funds and Capital Project Funds. Appropriations in these funds remain open and carry over to succeeding years (i.e., multi-year) until the related expenditures are made or until they are modified or canceled. Appropriations for these funds are controlled on a project basis.

The City’s budgetary process accounts for certain transactions on a basis other than GAAP. The major differences between the budget basis and the GAAP basis are that:

- Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- Encumbrances and pre-encumbrances are recorded as the equivalent of expenditures (budget) as opposed to being included in fund balances (GAAP).

A reconciliation of the General Fund’s results of operations for 2013 reported on the budget basis versus the GAAP basis is as follows:

	(Amounts in 000's)
Excess of Revenues and Other Financing Sources over (under)	
Expenditures and Other Financing Uses (Budget Basis)	\$ (1,896)
Adjustments:	
Revenue Accruals	(11,814)
Expenditure and other financing sources (uses) Accruals	20,686
Encumbrances and Pre-Encumbrances	11,022
Net Change in Fund Balance	<u>\$ 17,998</u>

E. **Other Significant Accounting Policies**

Cash and Cash Equivalents: Cash resources of certain individual funds are combined to form a pool of cash and investments which is managed by the City Treasurer. Investments in the Pooled Cash and Segregated Accounts, consists of obligations of the U.S. Treasury, agencies and instrumentalities; State Treasurer Asset Reserve Fund (STAROhio); commercial paper; U.S. Government Money Market Mutual Funds; guaranteed investment contracts; manuscript debt; bonds and other State of Ohio obligations; certificates of deposit; and repurchase transactions are carried at fair value (see Note 4 – Pooled And Segregated Cash And Investments) based on quoted market values, where applicable. Interest earned on pooled cash and investments is distributed to the appropriate funds utilizing a formula based on the month-end balance of cash and investments of each fund. Cash equivalents are defined as highly liquid investments with a maturity of three months or less at the time they are purchased by the City.

Investments: The City reports its investments at fair value based on quoted market values, where applicable, and recognizes the corresponding change in the fair value of the investments recorded in investment earnings in the year in which the change occurs.

Unbilled Revenue: Unbilled revenues are estimates for services rendered but not billed to customers at year end.

Recoverable Costs of Purchased Power: The City passes through certain power costs to the customer as Energy Adjustment Charges. The power costs related to recoverable costs of purchased power will be billed to customers in future billing periods.

Inventory of Supplies: Utility funds' inventory is valued at average cost. All other funds' inventory is valued at cost using the first in/first out method. Inventory generally consists of construction materials, utility plant supplies and parts inventory not yet placed into service. Inventory costs are charged to operations when consumed.

Restricted Assets: Issuance of debt and amounts set aside for payment of Enterprise Fund revenue bonds and construction loans are classified as restricted assets since their use is limited by applicable bond indentures. Passenger facility charges are restricted for capital expenditures or related debt. Construction loans are restricted to fund approved capital projects.

Capital Assets: Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements to the extent the City's capitalization threshold is met. The City defines capital assets as assets with an estimated useful life in excess of one year and an individual cost of more than \$5,000 for land, furniture, fixtures, equipment and vehicles; and \$10,000 for all other assets or projects. Assets are recorded at historical cost or estimated historical cost, if historical cost is not available. Contributed capital assets are recorded at their estimated fair market value on the date contributed.

As permitted under the implementation provisions of GASB Statement No. 34, the historical cost of infrastructure assets acquired, significantly reconstructed or that received significant improvements prior to January 1, 1980 have not been included as part of governmental capital assets in the government-wide financial statements.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets are the same as those used for the general capital assets. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Capitalized interest is amortized on the straight-line basis over the estimated useful lives of such assets. The City applies guidance provided by the Governmental Accounting Standards Board. This guidance requires capitalization of the interest cost of the borrowings less interest earned on investment of the bond proceeds from the date of the borrowing until the assets constructed from the bond proceeds are ready for their intended use. This guidance is applied to Waterworks Revenue Bonds, Public Power Revenue Bonds and Airport Revenue Bonds.

Costs for maintenance and repairs are expensed when incurred. However, costs for repairs and upgrading that materially add to the value or life of an asset and meet the above criteria are capitalized.

The City depreciates capital assets on a straight-line basis using the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	15-100
Utility plant	5-100
Buildings, structures and improvements	5-60
Furniture, fixtures, equipment and vehicles	3-60
Infrastructure	3-50

Compensated Absences: The City accrues for compensated absences such as vacation, sick leave and compensatory time using the termination payment method specified under GASB Statement No. 16, *Accounting for Compensated Absences*. In the government-wide and proprietary funds financial statements, the entire amount of unpaid compensated absences is reported as a liability. A liability for compensated absences is accrued in the governmental funds only if the amount is currently due and payable at year end. These amounts are recorded as accrued wages and benefits in the fund from which the employees who have accumulated leave are paid. The remaining portion of the liability is not reported in the governmental funds.

Normally, all vacation time is to be taken in the year available. The City allows employees to carryover vacation time from one year to the next. Sick days not taken may be accumulated until retirement. An employee is paid one-third of accumulated sick leave upon retirement, calculated at the three year average base salary rate, with the balance being forfeited.

Uniformed police and fire employees are eligible to defer earned vacation time and overtime, with the appropriate approvals, until retirement. Once deferred, the employee cannot use deferred time as vacation. Deferred vacation is paid to the employee upon retirement, calculated using their current hourly rate at the date of retirement. Deferred overtime is paid once a year upon request up to the amount budgeted for the year for such purpose. If requests exceed the budgeted amounts, the requests are to be paid on a pro-rata basis.

Long-Term Obligations: In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities and proprietary fund type statements of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Losses on advance refundings are deferred and amortized over the life of the new debt, or the life of the advance refunded debt, whichever is shorter. Bonds payable are reported net of the applicable unamortized bond premium or discount.

In the governmental fund financial statements, bond premiums and discounts are reported as other financing sources and uses during the period in which they are incurred. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Swap Agreements: The City may enter into interest rate swap agreements to modify interest rates on outstanding debt. The City has accordingly recorded the fair value of each swap in the Government-wide financial statements. As further described in Note 5 – Debt And Other Long-Term Obligations, the City has four swap agreements outstanding at December 31, 2013, one for its Subordinated Income Tax Variable Rate Refunding Bonds, one on the Parking Facilities Refunding Revenue Bonds and two associated with the 2008 Water Revenue Bonds Series Q and 2010 Water Revenue Bonds Series U and V.

Grants and Other Intergovernmental Revenues: Grants and assistance awards made on the basis of entitlement programs are recorded as intergovernmental receivables and revenues when entitlement occurs. Reimbursement-type grants are recorded as intergovernmental receivables and revenues when the related expenditures (expenses) are incurred. The City accounts for loans receivable related to the Economic Development Funds, Urban Development Action Funds, Community Development Block Grants, Neighborhood Development Investment Funds and Supplemental Empowerment Zone as restricted or committed fund balance in the fund financial statements as applicable to the extent that these loans do not have to be repaid to the Federal government. Loans receivable deemed uncollectible are included in the allowance for doubtful accounts. The loan proceeds are earmarked for future reprogramming under federal guidelines and are not available to fund current operating expenditures of the City.

Encumbrances and Pre-Encumbrances: Encumbrance accounting, under which purchase orders, requisitions, contracts and other commitments for expenditures are recorded as encumbrances or pre-encumbrances to reserve the applicable portion of the appropriation.

Interfund Transactions: During the course of normal operations, the City has numerous transactions between funds, including the allocation of centralized expenses and transfers of resources to provide services, construct assets and service debt. Such transactions are generally reflected as transfers or direct expenses of the fund that is ultimately charged for such costs.

Statement of Cash Flows: The City utilizes the direct method of reporting cash flows from operating activities in the Statement of Cash Flows as defined by the GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities that use Proprietary Fund Accounting*. In the statement of cash flows, cash receipts and cash payments are classified according to operating, noncapital financing, capital and related financing and investing activities.

Deferred Outflows/Inflows of Resources: In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

F. **Accounting Pronouncements**

In March of 2012, Governmental Accounting Standards Board (GASB) Statement No. 65, *Items Previously Recognized as Assets and Liabilities* was issued. This Statement is effective for fiscal periods beginning after December 15, 2012. The objective of this Statement is to establish accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. As required, the City has implemented GASB Statement No. 65 as of December 31, 2013.

In March of 2012, Governmental Accounting Standards Board (GASB) Statement No. 66, *Technical Corrections – 2012 as amendment of GASB Statements No. 10 and No. 62* was issued. This Statement is effective for fiscal periods beginning after December 15, 2012. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. The City has determined that GASB Statement No. 66 has no impact on its financial statements as of December 31, 2013.

In November of 2010, Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus, an amendment of GASB Statements No. 14 and No. 34* was issued. This Statement is effective for fiscal periods beginning after June 15, 2012. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. GASB Statement No. 61 requires reporting a component unit as if they were part of the primary government (that is, blending) in circumstances where the component unit's total debt outstanding is expected to be repaid entirely or almost entirely with resources of the primary government. The City has determined that GASB Statements No. 61 has no impact on its financial statements as of December 31, 2013.

NOTE 3 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

- A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds and net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. The details of this \$766.8 million difference are as follows:

	(Amounts in 000's)
Bonds payable	\$ (642,280)
Interest rate swap	(454)
Unamortized bond premium	(22,006)
Accrued interest payable	(4,290)
Capital leases payable	(19,185)
Loans payable	(2,390)
Claims and adjustments	(4,144)
Loss on refunding	8,241
Compensated absences	<u>(80,268)</u>
Net adjustments to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	<u>\$ (766,776)</u>

- B. Explanation of certain differences between the governmental fund statement of revenues, expenditures and changes in fund balances and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The details of this \$93.8 million difference are as follows:

	(Amounts in 000's)
Capital outlay	\$ 114,042
Contributed Capital	40,701
Depreciation expense	(52,989)
Capital asset disposal	<u>(5,204)</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u>\$ 96,550</u>

Another element of that reconciliation states that revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the fund statements. The details of this difference are as follows:

	(Amounts in 000's)
Reversal of prior year deferred inflows of resources	\$ (82,723)
Current year deferred inflows of resources	<u>80,940</u>
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u>\$ (1,783)</u>

Another element of that reconciliation states that the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of these differences, including accrued interest and in the treatment of long-term debt is \$3.3 million which is detailed as follows:

	(Amounts in 000's)
Debt issued or incurred:	
Issuance of general obligation bonds and other obligations	\$ (74,936)
Accrued interest	3,702
Interest rate swap	(215)
Principal repayments:	
General obligation debt and other obligations	42,977
Payment on capital lease	3,586
Refunding of general obligation bonds and other obligations	<u>25,360</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u>\$ 474</u>

Another element of that reconciliation states that some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. The details of this \$630,000 difference are as follows:

	(Amounts in 000's)
Compensated absences	\$ 1,541
Claims judgements	<u>(911)</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u>\$ 630</u>

NOTE 4 – POOLED AND SEGREGATED CASH AND INVESTMENTS

Monies for the Debt Service Funds, certain Capital Project Funds, certain Agency Funds, Department of Port Control, Division of Water, Division of Water Pollution Control, Division of Cleveland Public Power, Division of Municipal Parking Lots, Cemeteries, Golf Courses, Public Auditorium and certain Special Revenue Funds are deposited or invested in individual segregated bank accounts.

Monies of all other funds of the City, including the accounts of the General Fund, other Special Revenue Funds, other Capital Project Funds, other Enterprise Funds, Internal Service Funds and other fiduciary funds are maintained or invested in a common group of bank accounts. Collectively these common bank accounts and investments represent the Pooled Cash Account (PCA). Each fund whose monies are included in the PCA has equity therein.

Certain funds have made disbursements from the PCA in excess of their individual equities in the PCA. Such amounts have been classified as due to other funds and due from other funds between the Restricted Income Tax Special Revenue Fund and the respective funds that have made disbursements in excess of their individual equities in the PCA.

The City has a restrictive arrangement for certain segregated monies held in escrow at the banks' trust departments in which the City must act in conjunction with a trust officer in order to make investments. The City's role is that of investment manager and the trust officer's role is that of purchasing agent. For other segregated monies, the City acts alone in placing investments with the banks. Amounts held in escrow are designated for a special purpose and are entrusted to a third party to fulfill certain legal provisions.

Deposits: Ohio law requires that deposits be placed in eligible banks located in Ohio. The City's policy is to place deposits only with major commercial banks having offices within the City of Cleveland. Any public depository in which the City places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation. Further, City ordinance requires such collateral amounts to exceed deposits by 10%. Collateral that may be pledged is limited to obligations of the following entities: the United States and its agencies, the State of Ohio, the Ohio Student Loan Commission and any legally constituted taxing subdivision within the State of Ohio. The City also requires that non-pooled securities pledged be held by either the Federal Reserve Bank or other trust institution, as designated by the City, as trustee. This collateral is held in joint custody with the financial institution pledging the collateral and cannot be sold or released without written consent from the City.

Monthly, the City determines that the collateral has a market value adequate to cover the deposits and that it has been segregated either physically or in book entry form. At year end, the carrying amount of the City's deposits including certificates of deposit was \$335,694,000 and the actual bank balance totaled \$349,078,000. The difference represents outstanding warrants payable and normal reconciling items. Based on the criteria described in GASB Statement No. 3, *Deposits with Financial Institutions, Investments (including Repurchase Agreements) and Repurchase Agreements* and GASB Statement No. 40, *Deposit and Investment Risk Disclosures – an Amendment of GASB Statement No. 3*, \$349,078,000 of the bank balance was insured or collateralized with securities held by the City or by its agent in the City's name.

Custodial credit risk for deposits is the risk that in the event of bank failure, the City will not be able to recover deposits or collateral for securities that are in possession of an outside party. At year end, the City's deposits were fully insured or collateralized. All deposits are collateralized with eligible securities pledged and deposited either with the City or with a qualified trustee by the financial institution as security for repayment of all public monies deposited in the financial institution whose market value at all times is equal to at least 110% of the carrying value of the deposits being secured.

Investments: The City's investment policies are governed by State statutes and City ordinances which authorize the City to invest in obligations of the U.S. Treasury, agencies and instrumentalities; State Treasurer Asset Reserve Fund (STAROhio); commercial paper; U.S. Government Money Market Mutual Funds; guaranteed investment contracts; manuscript debt; bonds and other State of Ohio obligations; certificates of deposit; and repurchase transactions. Such repurchase transactions must be purchased from financial institutions as discussed in "Deposits" above or registered broker/dealers. Repurchase transactions are not to exceed a period of one year and confirmation of securities pledged must be obtained. Generally, investments are recorded in segregated accounts by way of book entry through the bank's commercial or trust department and are kept at the Federal Reserve Bank in the depository institution's separate custodial account for the City, apart from the assets of the depository institution. Ohio statute prohibits the use of reverse repurchase agreements.

Investment securities are exposed to various risks such as interest rate, market and credit. Market values of securities fluctuate based on the magnitude of changing market conditions; therefore, significant changes in market conditions could materially affect portfolio value.

Interest rate risk: In accordance with its investment policy, the City limits its exposure to fair value losses caused by rising interest rates, investing primarily in short-term investments maturing within five years from the date of purchase. The intent is to avoid the need to sell securities prior to maturity.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. The City does not have an investment policy dealing with investment custodial risk beyond the requirement in the State statute.

Credit Risk: The City's investments as of December 31, 2013 include U.S. Agency Obligations, U.S. Treasury Notes, U.S. Treasury Bills, STAROhio, commercial paper, money market mutual funds, guaranteed investment contracts, manuscript debt and other investments. The City maintains the highest ratings for its investments. The investments in U.S. Agencies carry a Moody's rating of Aaa. Investments in Dreyfus Government Cash Management, First American Government Obligations Fund, First American Treasury Obligations Fund, Victory Money Market Fund, PNC Government Money Market Fund (A) and STAROhio carry a rating of AAAM, which is the highest money market fund rating given by Standard & Poor's. Ohio law requires that STAROhio maintain the highest rating provided by at least one nationally recognized standard rating service. Investments in U.S. Bank N.A. Open Commercial Paper carries a Standard & Poor's rating of A-1+. The City has no investment policy that would further limit its investment choices.

The City's investments shown in the following table include those which are classified as cash equivalents in accordance with the provisions of GASB Statement No. 9:

<u>Type of Investment</u>	<u>Fair Value</u>	<u>Cost</u>	<u>Investment Maturities</u>		
			<u>Less than One Year</u>	<u>1 - 5 Years</u>	<u>5 Years or More</u>
(Amounts in 000's)					
U.S. Agency Obligations	\$ 19,991	\$ 19,991	\$	\$ 19,991	\$
U.S. Treasury Notes	20,042	19,968		20,042	
U.S. Treasury Bills	3,853	3,853	3,853		
STAROhio	283,569	283,569	283,569		
Commercial Paper	188,865	188,865	188,865		
Mutual Funds	396,231	396,231	396,231		
Guaranteed Investment Contracts	16,850	16,850	16,850		
Manuscript Debt	6,213	6,213			6,213
Other	48,422	48,422	48,422		
Total Investments	984,036	983,962	937,790	40,033	6,213
Total Deposits	335,694	335,694	335,694		
Total Deposits and Investments	\$ 1,319,730	\$ 1,319,656	\$ 1,273,484	\$ 40,033	\$ 6,213

STAROhio is an investment pool created pursuant to Ohio statutes and managed by the Treasurer of the State of Ohio. The fair value of the City's position in STAROhio is equal to the value of the shares the City owns in the investment pool. Investment type "Other" consist of deposits into collective cash escrow pools managed by either Bank of New York, Huntington or US Bank, as trustee.

Concentration of Credit Risk: The City places a limitation on the amount it may invest in any one issuer to help minimize the concentration of credit risk. As of December 31, 2013, the investments in U. S. Agency Obligations, U.S. Treasury Notes, U.S. Treasury Bills, STAROhio, commercial paper, mutual funds, guaranteed investment contracts, manuscript debt and other are approximately 2.0%, 2.1%, 0.4%, 28.8%, 19.2%, 40.3%, 1.7%, 0.6% and 4.9%, respectively, of the City's total investments.

Reconciliation to Financial Statements: Total cash and investments are reported as follows:

(Concluded)

Internal Service Funds predominantly serve the governmental funds, except the Utilities Administration Fund, which serves only business-type activity funds. Long-term liabilities for all Internal Service Funds, except the Utilities Administration Fund, are included as part of the totals for governmental activities in the government-wide statement of net position. At December 31, 2013, \$1,073,733 of the Internal Service Funds, except for Utilities Administration Fund, compensated absences were included in the governmental activities accrued wages and benefits. Long-term liabilities for the Utilities Administration Fund are included as part of the totals for business-type activities in the government-wide statements. At December 31, 2013, \$438,723 of the Utilities Administration Fund compensated absences were included in business-type activities accrued wages and benefits.

The Subordinated Income Tax Refunding Bonds were issued to fund the City's obligation for the employer's accrued liability to the Police and Firemen's Disability and Pension Fund of the State of Ohio. All other bonds were issued to fund capital related activities.

The accrued wages and benefits liability will be paid from the fund from which the employees' salaries are paid. The estimated claims payable liability will be paid from the fund that incurred the liability or from Judgment Bond proceeds.

A detailed summary of principal due for General Obligation Bonds and business-type activities debt by purpose is as follows for 2013:

	Original Issue Amount	Balance January 1, 2013	Additions	(Reductions)	Balance December 31, 2013
			(Amounts in 000's)		
Governmental Activities Obligations:					
General Obligation Bonds					
Public Facilities	\$ 95,790	\$ 52,025	\$	\$ (4,950)	\$ 47,075

The schedule of minimum principal and interest payments for construction loans includes the amortization on sixteen loans provided to the Division of Water and the Division of Water Pollution Control by the Ohio Water Development Authority (OWDA) and two loans to the Division of Water Pollution Control by the Ohio Public Works Commission (OPWC). This amortization is based upon the full amount expected to be financed, regardless of whether the Division of Water and the Division of Water Pollution Control have received all the loan proceeds. Therefore, at December 31, 2013, the amount financed on these OWDA loan projects, which is reflected in the amortization schedule, less the principal payments made to date, exceeds the actual loan balances shown on the schedule of long-term debt outstanding and changes in long-term debt obligations by \$1,062,000.

General Obligation Bonds

General Obligation Bonds: General Obligation Bonds are backed by the full faith and credit of the City. Such bonds are payable from ad valorem property taxes levied within the limitations provided by law, irrespective of whether such bonds are secured by other receipts of the City in addition to such ad valorem property taxes.

Under the direct debt limitation imposed by the Ohio Revised Code, the City had the capacity to issue \$267,782,239 of additional unvoted debt at December 31, 2013.

Other Governmental Obligations

Urban Renewal Bonds: In 1993, the City issued \$10,800,000 of Urban Renewal Bonds (Rock and Roll Hall of Fame and Museum Project) for the purpose of paying a portion of the costs of the acquisition and construction of a “port authority educational and cultural facility” to conduct programs of an educational and instructional nature relating to the field of contemporary music, including rock and roll music, which constitutes the Rock and Roll Hall of Fame and Museum (the Facility). The net proceeds were contributed to the Cleveland-Cuyahoga County Port Authority which owns and leases the facility to Rock and Roll Hall of Fame and Museum, Inc., an Ohio non-profit corporation. The Rock and Roll Hall of Fame and Museum opened in September 1995. The Urban Renewal Bonds are not general obligations of the City and are not secured by the full faith and credit of the City nor are they payable from the general revenues or assets of the City. The Urban Renewal Bonds are secured solely by pledged receipts, consisting of payments to be made in lieu of real property taxes pursuant to Development Agreements between the City and certain property owners and interest income on those payments.

Subordinated Income Tax Variable Rate Refunding Bonds: Effective June 1, 1994, the City issued \$74,700,000 of Subordinated Income Tax Variable Rate Refunding Bonds, Series 1994. The proceeds were used to fund the City’s obligation for the employer’s accrued liability to the Ohio Police and Fire Pension Fund (the Fund). The principal use of the proceeds was the current refunding of the City’s obligation to the Fund for the employer’s accrued liability in the amount of \$104,686,400, which was payable in semi-annual installments of \$2,696,243 through May 15, 2035. Pursuant to Section 742.30 (C) of the Ohio Revised Code, the City and the Fund entered into an agreement that permitted the City to make a one-time payment to the Fund to extinguish the City’s obligation. The payment amount of \$70,493,204 was calculated by applying a 35% discount factor to the \$104,686,400 accrued liability plus adding accrued interest of \$2,447,044.

Effective August 6, 2008, the City issued \$59,960,000 Subordinate Lien Unrestricted Income Tax Bonds, Series 2008 (Police and Fire Pension Payment) to refund all the outstanding Subordinated Income Tax Variable Rate Refunding Bonds, Series 1994. The interest rate swap related to the Series 1994 Bonds was terminated by the City on July 28, 2008 and the termination payment of \$4,325,000 owed to Ambac Financial Services, LLC, the swap counterparty, was paid from the proceeds of the Series 2008 Bonds. The City refunded the Series 1994 Bonds in order to address the increased interest rates incurred on the Bonds as a result of the downgrade of the bond insurer. The Bonds are not general obligations of the City and are not secured by its full faith and credit. The Series 2008 Bonds are unvoted special obligations secured by a pledge of and a lien on the unrestricted municipal income taxes of the City, to the extent that such income taxes are not needed to pay debt service on the City’s currently outstanding unvoted General Obligation Bonds or unvoted General Obligation Bonds issued in the future.

Interest Rate Swap Transaction:

Terms: On February 7, 2003, the City sold an option to JPMorgan Chase Bank (JPM) that gives JPM the right to execute an interest rate swap at its discretion at any time until the option expires on May 15, 2024 on a declining notional amount equal to the outstanding principal amount of the City’s Subordinated Income Tax Variable Rate Refunding Bonds, Series 1994. The swaption is now associated with the Series 2008 Bonds. Under the swap agreement, the City will be the fixed rate receiver, receiving the fixed rate of 4.88%, and JPM will be the floating rate receiver, receiving interest on what would have been the outstanding notional amount of the original 1994 Bonds of \$45,000,000 at December 31, 2013, at a rate equal to the weekly Securities Industry and Financial Markets Association (SIFMA) index. If the option is exercised, the stated termination date under the swap agreement with JPM will be May 15, 2024. The obligation of the City under the swap agreement to make periodic floating rate payments (but not any termination payment) is secured by a subordinate pledge of the income tax receipts, subordinate to the pledge of the income tax receipts made under the “General Bond Ordinance” securing the City’s General Obligation Bonds. The payment of any termination payment is subordinate to the payment of debt service on the Subordinate Lien Unrestricted Income Tax Bonds, Series 2008, and the periodic floating rate payments under the swap agreement.

Objective: The City entered into the swaption in order to potentially capture in the future the savings which could be derived from converting these bonds back to a variable rate if or when the option is exercised. In exchange for selling the option to JPM, the City received a premium payment of \$1,700,000.

Basis Risk: There is no basis risk for the City associated with this transaction with the exception of the risk inherent in all variable rate debt. If the option is exercised, the City will receive a fixed rate of 4.88% which is approximately 29 basis points less than the fixed rate being paid on the Series 2008 Bonds. This transaction would leave the City paying the weekly SIFMA rate plus 29 basis points.

Counterparty Risk: The City selected JPM as a counterparty partly due to its credit strength. Over the long-term, it is possible that the credit strength of JPM could change and this event could trigger a termination payment on the part of the City.

Termination Risk: The swap agreement may be terminated prior to its stated termination date under certain circumstances. Upon termination, a payment may be owed by the City to JPM, or by JPM to the City, depending upon the prevailing economic circumstances at the time of the termination.

Fair Value: The fair value of the swaption at December 31, 2013 as reported by JPM was \$454,000 which would be payable by the City.

Subordinate Lien Income Tax Bonds: Effective May 30, 2013, the City issued \$35,840,000 of Subordinate Lien Income Tax Bonds, Series 2013A. The proceeds of the bonds will be used to pay costs of various public improvements to roads and bridges, public facilities, and parks and recreation facilities as well as the costs of issuing the bonds. Effective November 29, 2012, the City issued \$15,180,000 of Subordinate Lien Income Tax Bonds, Series 2012. These bonds were issued to provide funds for the construction of a new police station and city-wide communications center.

These bonds are special obligations of the City and are not general obligation debt and are not secured by a pledge of the full faith and credit of the City. The bonds are payable from the City's municipal income tax revenues to the extent those revenues are not needed to pay debt service charges on the City's unvoted general obligation debt or unvoted general obligation debt issued in the future. It is the City's intention to continue paying the debt service on the Subordinate Lien Income Tax Bonds issued from 2008 through 2013 from the Restricted Income Tax collections.

Non-Tax Revenue Bonds – Stadium: Effective December 16, 2004, the City issued \$14,835,000 Non-Tax Revenue Bonds, Series 2004 (Cleveland Stadium Project) to refund the Non-Tax Revenue Stadium Bonds, Series 1999A&B. These bonds do not represent a general obligation debt or pledge of the full faith and credit or taxing power of the City, and are payable solely from non-tax revenues of the City.

Non-Tax Revenue Bonds – Economic Development Bonds Series 2003A and Series 2003B (Lower Euclid Avenue Project): In November 2003, the City issued \$7,200,000 Economic Development Revenue Bonds, Series 2003A and \$1,000,000 Economic Development Revenue Bonds, Series 2003B-1 for the Lower Euclid Avenue Project. In November 2004, the final \$1,000,000 Economic Development Revenue Bonds, Series 2003B-2 were issued. The proceeds of these bonds were made available to the owners of certain properties on Euclid Avenue for the construction and renovation of commercial restaurant and retail facilities and the construction of a parking garage. These Tax Increment Financing (TIF) Bonds are secured by a pledge of (a) service payments in lieu of taxes received by the City from the owners of certain properties located within a tax increment financing district, (b) loan payments payable to the City and (c) by a pledge of certain non-tax revenues of the City, subject to the prior pledge by the City of such non-tax revenues to secure other obligations of the City. Only the Series 2003A Bonds remain outstanding.

Non-Tax Revenue Bonds – Taxable Economic and Community Development Revenue Bonds (Core City): Effective July 24, 2008, the City issued \$28,160,000 Taxable Economic and Community Development Refunding Revenue Bonds, Series 2008 (Core City Fund). The proceeds of these bonds were used to refund the outstanding \$26,900,000 Series 2003 Taxable Economic and Community Development Revenue Bonds, to fund a bond reserve fund and to pay the costs of issuing the bonds. The Series 2003 Bonds were refunded in order to address increased interest rates incurred on the bonds due to the collapse of the auction rate securities market. The Series 2008 Bonds, which are special obligations of the City, were issued as variable rate demand obligations secured by a letter of

credit provided by Citizens Bank. Upon the expiration of the letter of credit in 2011, the City obtained a new letter of credit for the Series 2008 Bonds from PNC. At the expiration of the PNC letter of credit, the City elected to refund the Series 2008 Bonds with \$25,360,000 Taxable Economic and Community Development Bonds, Series 2013A effective May 30, 2013. The bonds remain variable rate bonds and were privately placed with KeyBank National Association for a period of five years. The Bonds are payable from the City's non-tax revenues and net project revenues.

On November 10, 2004, the City issued Taxable Economic and Community Development Revenue Bonds, Series 2004 (Core City). The Series 2004 Bonds were issued in the amount of \$19,280,000 to pay the costs of certain economic and community development projects. These Series 2004 Bonds were issued as fixed rate securities and are special obligations of the City, payable from non-tax revenues and net project revenues.

Annual Appropriation Bonds – Flats East Bank: On December 21, 2010, the City issued \$11,000,000 City Annual Appropriation Bonds through the Cleveland-Cuyahoga County Port Authority. The proceeds of the bonds were used to provide funds for land purchase and public improvements in the area of the Flats East Development Project. The bonds are special obligations of the Port Authority payable from appropriation payments made by the City under a cooperative agreement. The City's obligation to make payments is subject to and dependent upon annual appropriations being made by the City. The City intends to make these debt service payments from the Restricted Income Tax collections.

Certificates of Participation (COPS) - Stadium: In June 1997, Certificates of Participation (COPS) in the amount of \$139,345,000 were issued to assist in the construction of an open-air stadium for the play of professional football and other events. In October 1999, COPS in the amount of \$20,545,000 were issued to retire then outstanding Non-Tax Revenue Bond Anticipation Notes. The City will make lease payments subject to annual appropriation by City Council and certification by the Director of Finance as to the availability of funds from those appropriations. These obligations do not constitute a debt or pledge of the full faith and credit of the City.

Effective October 11, 2007, the City issued \$108,390,000 Refunding COPS, Series 2007, to currently refund \$105,800,000 of the outstanding COPS, Series 1997. These were issued as auction rate securities and a swap associated with this transaction went into effect on November 15, 2007.

Due to the downgrade of the bond insurers beginning in late 2007 and the collapse of the auction rate securities market, the COPS, Series 2007 experienced failed auctions and interest rates as high as 12% in early 2008. To address these issues, the City converted all of the outstanding \$108,390,000 COPS, Series 2007 Auction Rate Certificates to Weekly Rate Certificates effective May 29, 2008. The payment of principal and interest was secured by a direct-pay letter of credit provided by Wachovia Bank, National Association.

Effective April 22, 2010, the City issued \$63,225,000 COPS, Series 2010A and \$69,900,000 COPS, Series 2010B to refund all of the outstanding \$108,390,000 COPS, Series 2007, upon the expiration of the Wachovia letter of credit. Proceeds of the COPS, Series 2010, were used to currently refund the COPS, Series 2007, on the day of closing, to fund a required debt service reserve fund deposit in the amount of \$8,324,045, to make a termination payment on the existing hedge agreement with UBS in the amount of \$17,322,000 and to pay costs of issuing the COPS. This refunding was undertaken (1) to remove Ambac as the bond and swap insurer and eliminate the risk of early termination of the hedge agreement due to Ambac's possible insolvency, (2) to obtain lower credit enhancement costs and (3) to restructure debt service payments. The COPS, Series 2010A, were issued as fixed rate obligations. The COPS, Series 2010B, were purchased by Wells Fargo Bank, National Association, as floating rate obligations for a period of three years, the interest on which is reset weekly based on the SIFMA index plus a spread. As a result of this refunding, the City achieved an economic gain (the difference between the present values of the old and new debt service) of approximately \$3,461,000 or 3.19%.

Effective March 21, 2013, the City completed a conversion and remarketing of the COPS, Series 2010B. This was done in order to change the index rate being charged on the bonds as well as to extend the interest rate period until March 2018. The COPS, Series 2010B were again purchased by Wells Fargo Bank, National Association.

Capital Lease Arrangements: The City has entered into various agreements to lease equipment. Such agreements are treated as lease purchases (Capital Leases) and are classified as long-term lease obligations in the financial statements. The lease contracts contain annual one-year renewal options that can be exercised by the City if sufficient funds are appropriated by City Council. Upon the exercise of each annual one-year renewal option and satisfaction of the lease obligations related thereto, title to the equipment will pass to the City.

In February 2010, the City entered into an equipment lease agreement with The Fifth Third Leasing Company which resulted in the City purchasing approximately \$6,690,000 of heavy duty vehicles and apparatus. On June 30, 2011, the City entered into an equipment lease agreement with PNC Equipment Finance LLC. This enabled the City to purchase approximately \$6,585,000 of vehicles and equipment for various departments, including police cars, a fire truck, waste collection equipment and ambulances. On June 5, 2012, the City entered into a \$6,507,400 vehicle lease agreement with PNC Equipment Finance LLC. The funds were used to purchase a variety of vehicles including police cars, EMS ambulances and waste collection equipment. Effective June 20, 2013, the City entered into a \$6,535,000 vehicle lease agreement with Huntington Public Capital Corporation. The funds will again be used to purchase a variety of vehicles including police cars, EMS ambulances and waste collection equipment. Payments on all of these equipment leases are made over a period of seven years from issuance from the Restricted Income Tax Fund.

The assets recorded by the City under Capital Leases were as follows as of December 31, 2013:

	Governmental Activities
	(Amounts in 000's)
Furniture, fixtures and equipment	\$ 40,057
Less – accumulated depreciation	<u>(17,440)</u>
Net book value	<u>\$ 22,617</u>

Gateway Note Payable: In October 1996, the City and Cuyahoga County each agreed to pay \$5,000,000 for additional costs associated with the Gateway Sports Complex. The amounts are to be repaid in annual installments of \$250,000 for 20 years. The monies are deducted from the monthly distribution of the State Local Government Fund which is recorded in the City's General Fund. The first deduction was made in March 1997.

State Infrastructure Bank Loan: The Ohio Department of Transportation provided the City with a 3% loan for the construction of the Fulton Road Bridge. The amount of the loan is \$2,100,000. The loan is payable over 10 years to the Ohio Treasurer of State on a bi-annual basis.

West 150th Street Improvement Loan: The Ohio Public Works Commission (OPWC) approved a loan to the City to finance a portion of the West 150th Street Improvement project. OPWC committed up to \$1,949,332 at a zero percent interest rate for twenty years. The City and the City Brook Park have an agreement to share the debt service requirements of the OPWC loan. The City of Brook Park will pay 100% of the annual debt service requirements and the City will reimburse the City of Brook Park 65% of the annual debt service requirement.

Accrued Wages and Benefits: Accrued wages and benefits, included in long-term obligations, consist of the non-current portion of vacation and sick pay benefits earned by employees of the City. The City accrues vacation and sick pay benefits when earned and future compensation is likely.

Police and Fire Overtime and Deferred Vacation Pay: Uniformed employees of the Police and Fire Divisions accumulate overtime compensation in accordance with the union contracts and the requirements of the Fair Labor Standards Act. In addition, uniformed employees may defer earned vacation time, with the appropriate approvals, until retirement. The liabilities for overtime and deferred vacation time, at current pay rates including their related fringe benefits and converted to straight time hours, at December 31, 2013, follow:

<u>Division</u>	<u>Overtime</u>		<u>Deferred Vacation</u>	
	<u>Hours</u>	<u>Dollars</u>	<u>Hours</u>	<u>Dollars</u>
	(Amounts in 000's)			
Police	1,188	\$ 37,103		\$
Fire	188	6,147	86	2,786
Total	<u>1,376</u>	<u>\$ 43,250</u>	<u>86</u>	<u>\$ 2,786</u>

Business-Type (Enterprise Fund) Obligations

Airport System Revenue Bonds: These bonds are secured by the pledge of all airport revenues, as defined in the revenue bond indenture. Further, the City has assigned to the trustee all its interests in and rights to the airline use agreements under the revenue bond indenture.

Effective April 24, 2013, the City issued \$58,000,000 Airport System Revenue Bonds, Series 2013A. Proceeds of the bonds were used to refund the outstanding \$58,000,000 Airport System Revenue Bonds, Series 2008F, upon the expiration of the existing letter of credit. The bonds were directly purchased by U.S. Bank National Association as variable rate bonds with the City paying on a monthly basis an amount equal to one month LIBOR plus a spread. As a result of this refunding, the refunded bonds were defeased and the liability for the 2008F Bonds has been removed from long-term debt. The City expects to achieve an economic gain (the difference between the present values of the old and new debt service payments) of approximately \$3.4 million or 5.87%.

Effective February 23, 2012, the City issued \$235,150,000 Airport System Revenue Bonds, Series 2012A. Proceeds of the bonds were used to refund the outstanding \$249,445,000 Airport System Revenue Bonds, Series 2000A and to pay the costs of issuing the bonds. Net proceeds of the Series 2012A Bonds, amounts on hand in the Series 2000 interest account and an amount released from the debt service reserve fund totaling \$252,378,809 were placed in an irrevocable escrow account to pay the principal and interest on the refunded bonds on March 26, 2012. As a result, the refunded bonds were defeased and the liability for the 2000A Bonds has been removed from long-term debt. The City completed the refunding in order to achieve debt service savings of approximately \$25.1 million or an economic gain (the difference between the present values of the old and new debt service) of approximately \$15.12 million or 6.06%.

Public Power System Revenue Bonds: These bonds are payable from the net revenues derived from the Public Power System and are secured by a pledge of and lien on such net revenues.

Effective February 24, 2012, the City issued \$15,325,000 Public Power System Revenue Refunding Bonds, Series 2012, to refund all of the outstanding \$15,980,000 Public Power System Refunding Revenue Bonds, Series 2001. Net proceeds of the Series 2012 Bonds and amounts on deposit in the Series 2001 Bond Fund together totaling \$16,293,627 were placed in an irrevocable trust account to pay the principal and interest on the refunded Series 2001 Bonds on March 26, 2012. As a result, the refunded bonds were defeased and the liability for these bonds has been removed from long-term debt. The City completed the refunding in order to achieve debt service savings of approximately \$1,169,000 or an economic gain (the difference between the present values of the old and new debt service) of approximately \$1,148,000 or 7.18%. These bonds were sold through a private sale to Wells Fargo Bank, National Association.

Waterworks Improvement Revenue Bonds: These bonds are payable from the revenues derived from operation of the Waterworks System after the payment of all operating and maintenance expenses (net revenue) and from monies and investments on deposit in the Revenue Fund, the Debt Service Fund, the Debt Service Reserve Fund, the Contingency Fund and the Additions and Improvements Fund.

Upon the mandatory tender by the direct purchasers of the Water Revenue Bonds, Series U, 2010 and the Water Revenue Bonds, Series V, 2010, the City entered into new direct purchase agreements on both series of bonds.

Effective November 1, 2013, the \$54,935,000 Water Series U Bonds were directly purchased by PNC Bank, National Association and subsequently, on December 2, 2013, the \$26,495,000 Water Series V Bonds were also directly purchased by PNC Bank. The City will be paying an interest rate equal to 65.001% of one month LIBOR plus a spread for the next three years.

Effective October 24, 2012, the City issued \$44,410,000 of Senior Lien Water Revenue Bonds, Series X, 2012, and \$76,710,000 of Water Revenue Bonds, Second Lien Series A, 2012. Proceeds of the Series X Bonds will be used to pay costs of improvements to the Waterworks System and to pay costs of issuing the bonds. From the proceeds of the Series A Bonds, \$42,000,000 is being used to fund the final phase of the automated meter reading project while the remainder was used to refund all of the outstanding \$50,000,000 Water Revenue Subordinated Notes, Series 2012, and to pay issuance costs.

In conjunction with the issuance of the Water Revenue Bonds, Second Lien Series A 2012, the City established a Subordinate Bonds indenture for the Division of Water. Bonds issued under this indenture are special obligations of the City payable solely from and secured solely by a pledge of and lien on the Subordinate Pledged Revenues and the Subordinate Pledged funds. The Subordinate Pledged Revenues generally consist of the net revenues of the Division which remain after the payment of all operating expenses and the deposit of all funds required to be made on behalf of the Senior Lien bonds. Bonds issued under this indenture are subordinate to those issued as senior lien bonds under the Division of Water's Amended and Restated Indenture.

Interest Rate Swap Transactions:

Series Q, Series U and Series V Bonds (previously Series Q, Series R and Series S Bonds):

When the Water Series R and Series S Bonds were refunded in 2010, the swap associated with these bonds was transferred to a portion of the new Series U and Series V Bonds. The portion of the swap associated with Series Q remained unchanged.

Terms: Simultaneously with the issuance of the City's \$175,000,000 Water Revenue Bonds, Series M on August 10, 2004, the City entered into floating to fixed rate swap agreements with notional amounts equal to the total declining balance of the Series M Bonds. Bear Stearns Financial Products Inc. (Bear Stearns) (which has since been acquired by JPMorgan Chase Bank, N.A. (JPM)) was the counterparty on a two-thirds pro-rata share of the transaction and Morgan Stanley Capital Services Inc. (Morgan Stanley) was the counterparty on a one-third pro-rata share of the transaction. Under the original swap agreements for the Series M Bonds, the Water System was the fixed rate payor, paying a fixed rate of 3.533%. Each counterparty was a floating rate payor, with each paying the Water System 61.25% of one month LIBOR plus a spread of 28 basis points. Net payments were exchanged semiannually on January 1 and July 1. The obligation of the Water System to make periodic payments (but not any termination payment) was secured by a pledge of and lien on the net revenues of the Water System on a parity with the pledge and lien securing the payment of debt service on the bonds. Both the bond debt service payments on the Series M Bonds and the periodic swap payments were insured by Financial Security Assurance (FSA).

As part of the refunding of the Series M Bonds, the City amended and restated the original swap agreements to (a) eliminate the swap insurance and related insurer rights, (b) modify the payment frequency, (c) transfer the original swap agreement from Bear Stearns to JPM and (d) split each original swap agreement into two separate interest rate swaps in order to hedge separate series of bonds. The original Bear Stearns swap which has been assumed by JPM hedged the entire principal amount of Series R and certain maturities of the Series Q Bonds. The original Morgan Stanley swap hedged the entire principal amount of Series S and a portion of the Series Q Bonds. The floating rate received by the City was not altered. However, the fixed rate paid by the City was adjusted to 3.553% for the JPM swap and 3.5975% for the Morgan Stanley swap. The termination date for the swaps associated with Series Q is January 1, 2021 while the termination date for the Series R and Series S swaps is January 1, 2033. Net payments are now exchanged monthly. With the refunding of the Series R and Series S Bonds, the JPM swap now hedges all but \$200,000 of the Series U Bonds and the Morgan Stanley swap hedges all but \$200,000 of the Series V Bonds.

Objective: The City entered into the swaps in order to maximize the savings associated with the refunding of the bonds. The actual savings to be realized by Water System will depend upon the payments made on the variable rate bonds and the payments received under the swap agreement.

Basis Risk: By entering into swaps based upon the 30 day LIBOR rate of interest, the City has undertaken basis risk associated with a change in tax rates and structure. While the average relationship between SIFMA (tax-exempt) and LIBOR (taxable) interest rates has been 67%, this relationship may not always apply. If the payments received from the counterparties are less than the amount paid on the variable rate bonds, the Water System must make up the difference in addition to paying the fixed rate resulting from the swap. As a result of the turmoil in the financial markets beginning in 2008, the SIFMA/LIBOR ratio has been significantly higher and significantly lower than 67%

for periods of time. In addition, a reduction in federal income tax rates might increase the percentage relationship between SIFMA and LIBOR and may potentially increase the cost of financing.

Counterparty Risk: The City selected highly rated counterparties in order to minimize this risk. However, in the wake of the sub-prime mortgage crisis, Bear Stearns was acquired by JPM. The portion of the City's swap with Bear Stearns as the counterparty has been assumed by JPM. Over the long-term it is possible that the credit strength of JPM and/or Morgan Stanley could change and this event could trigger a termination payment on part of the City.

Termination Risk: The swap agreement may be terminated prior to its stated termination date under certain circumstances. Upon termination, a payment may be owed by the City to JPM and Morgan Stanley or by JPM and Morgan Stanley to the City, depending upon the prevailing economic circumstances at the time of the termination.

Fair Value: The fair value of the swaps (including accrued amounts) at December 31, 2013 as reported by JPM and Morgan Stanley totaled \$17,206,000, which would be payable by the City.

Ohio Water Development Authority and Ohio Public Works Commission Loans: These loans are payable from net revenues derived from the Water and Water Pollution Control Systems. These obligations do not have a lien on revenues of the Divisions. In 2013, Water expended an additional \$9,747,250 out of an anticipated \$10,954,516 for the Crown Waterworks Chemical Project and also expended \$2,203,181 on a new Shaker Heights Water Main Replacement project.

Parking Facilities Revenue Bonds: These bonds are payable from net revenues generated from certain parking facilities and other operating revenues of the Division of Parking Facilities, including parking meter revenue. In addition, the City has pledged other non-tax revenue to meet debt service requirements. The City has pledged and assigned to the trustee a first lien on pledged revenues consisting of fines and penalties collected as a result of the violation of municipal parking ordinances and fines, waivers and costs relating to citations for misdemeanor offenses and the special funds as defined within the bond indenture.

Effective October 6, 2011, the City completed the sale of the City-owned Gateway North Parking Garage to Rock Ohio Caesars Gateway LLC. The garage is now being used by the purchaser in conjunction with a new casino constructed in the Higbee Building adjacent to the garage. The net proceeds of the sale of the garage received by the City totaled \$20,915,504. Of this amount, \$19,578,288 was placed into an irrevocable escrow fund, along with \$1,967,425 released from the debt service reserve fund as a result of the transaction, to be used to pay the principal and interest as it comes due on \$16,145,000 Parking Facilities Refunding Revenue Bonds, Series 2006. As a result, these bonds are considered to be defeased and the liability for the bonds has been removed from long-term debt. In addition, \$480,000 of the sale proceeds was used to terminate the portion of an existing basis swap which was associated with the bonds being defeased. Sale proceeds were also utilized to pay costs of the transaction. As a result of this transaction, the City expects to save approximately \$600,000 annually through 2022.

Effective August 15, 2006, the City issued \$57,520,000 of Parking Facilities Refunding Revenue Bonds, Series 2006. The bonds were issued to currently refund \$56,300,000 of the outstanding Parking Facilities Refunding Revenue Bonds, Series 1996. In addition, proceeds were also used to fund a portion of a payment owed by the City upon early termination under an interest rate swaption agreement entered into in 2003. At the time of the issuance of the Series 2006 Bonds, the City entered into a basis swap agreement with UBS which is described below.

On April 16, 2013, the City entered into a novation agreement with UBS, AG and PNC Bank, National Association (PNC) under which the basis swap was transferred from UBS to PNC effective March 15, 2013. All of the terms of the original basis swap remain the same. The City agreed to transfer the swap to PNC based upon UBS' mandate to downsize its swap portfolio.

Interest Rate Swap Transaction:

Terms: Simultaneously with the issuance of the City's \$57,520,000 Parking Facilities Refunding Revenue Bonds, Series 2006 on August 15, 2006, the City entered into a floating-to-floating rate basis swap agreement with a notional amount equal to the total declining balance of the Series 2006 Bonds. UBS was the counterparty on the transaction. As stated above, the basis swap was transferred to PNC Bank, National Association in 2013. Under the swap agreement for the Series 2006 Bonds, the City is the floating rate payor, paying a floating rate based on the SIFMA index. The counterparty is also a floating rate payor, paying the City 67% of one month LIBOR. The City also received an upfront payment in the amount of \$1,606,000. Net payments are exchanged semi-annually each

March 15 and September 15. The obligation of the City to make periodic payments (but not any termination payment) is secured by a pledge of and lien on the parking revenues and additional pledged revenues as defined in the trust indenture securing the Parking Facilities Refunding Revenue Bonds, Series 2006, on parity with the pledge and lien securing the payment of debt service on the bonds.

Objective: The City entered into the swap in order to maximize the savings associated with the refunding of the bonds and to reduce the City's risk exposure. The actual overall savings to be realized by the City will depend upon the net payments received under the swap agreement.

Basis Risk: By entering into a swap based upon the 30 day LIBOR rate of interest, the City has undertaken basis risk associated with a change in tax rates and structure. While the average relationship between the SIFMA (tax-exempt) and LIBOR (taxable) interest rates has been 67%, this relationship may not always apply. Since late 2008, this relationship has been significantly higher for various periods of time due to the disruptions in the financial markets. The payments received from the counterparty may be less than the amount owed to the counterparty, resulting in a net increase in debt service. However, there have also been periods recently when the SIFMA/LIBOR relationship has been significantly lower than 67%. In this case, payments received from the counterparty may be greater than the amount owed to the counterparty which results in a net decrease in debt service. In addition, a reduction in federal income tax rates might increase the percentage relationship between SIFMA and LIBOR and may potentially increase the cost of the financing.

Counterparty Risk: The City selected a highly rated counterparty in order to minimize this risk. However, over the long-term it is possible that the credit strength of PNC could change and this event could trigger a termination payment on part of the City.

Termination Risk: The swap agreement may be terminated prior to its stated termination date under certain circumstances. Upon termination, a payment may be owed by the City to PNC or by PNC to the City, depending upon the prevailing economic circumstances at the time of the termination. The City obtained insurance to mitigate much of the risk associated with termination due to the event of a downgrade of the City's bond rating. An amount due by the City to PNC upon early termination of the agreement is insured by FSA (now Assured Guaranty Municipal Corp.) up to a maximum amount of \$8,000,000.

Fair Value: The fair value of the swap at December 31, 2013 as reported by PNC totaled \$367,000, which would be payable by the City.

Debt Covenants: The Enterprise Funds' bond agreements have certain restrictive covenants and principally require that bond reserve funds be maintained and that fees charged to customers be in sufficient amounts, as defined, to satisfy the obligations under the indenture agreements. In addition, special provisions exist regarding covenant violations, redemption of principal and maintenance of properties in good condition.

Defeasance of Debt

The City has defeased certain debt by placing cash or the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and defeased bonds are not recorded in the City's financial statements.

The aggregate amount of defeased debt outstanding at December 31, 2013 is as follows:

<u>Bond Issue</u>	<u>(Amounts in 000's)</u>	<u>Bond Issue</u>	<u>(Amounts in 000's)</u>
<u>Parking Facilities Bonds:</u>		<u>Unvoted Tax Supported GO:</u>	
Series 2006	\$ 13,800	Series 2004	\$ 9,235
		Series 2005A	13,275

Airport Special Facilities Revenue Bonds

Airport Special Revenue Bonds, Series 1990, totaling \$76,320,000 were issued to finance the acquisition and construction of a terminal, hangar and other support facilities leased to Continental Airlines at Cleveland Hopkins International Airport. These bonds were refunded in 1999 by the issuance of Airport Special Revenue Refunding Bonds, Series 1999 totaling \$71,440,000. Additional Airport Special Revenue Bonds, Series 1998, totaling \$75,120,000, were issued in 1998 to finance the design and construction of certain airport facilities leased to Continental Airlines, including a new regional jet concourse. Because principal and interest on these bonds are unconditionally guaranteed by Continental Airlines (now United Continental Holdings, Inc.) and paid directly by Continental Airlines, these bonds do not constitute a debt, liability or general obligation of the City or a pledge of the City's revenues. As such, no liabilities relating to these bonds are included in the accompanying financial statements.

Pledges of Future Revenues

The City has pledged future airport revenues to repay \$847,645,000 in various Airport System Revenue Bonds issued in various years since 2001. Proceeds from the bonds provided financing for airport operations. The bonds are payable from airport net revenues and are payable through 2033. Annual principal and interest payments on the bonds are expected to require less than 78% of net revenues. The total principal and interest remaining to be paid on the various Airport System Revenue Bonds is \$1,262,929,000. Principal and interest paid for the current year and total net revenues (including other available funds) were \$67,489,000 and \$87,452,000 respectively.

The City has pledged future power system revenues, net of specified operating expenses, to repay \$232,403,000 in various Public Power System Revenue Bonds issued in various years since 2006. Proceeds from the bonds provided financing for Public Power System improvements. The bonds are payable from Public Power System net revenues and are payable through 2038. Annual principal and interest payments on the bonds are expected to require less than 77% of net revenues. The total principal and interest remaining to be paid on the various Power System Revenue Bonds is \$383,369,000. Principal and interest paid for the current year and total net revenues were \$22,477,000 and \$29,267,000, respectively.

The City has pledged future Water System revenues, net of specified operating expenses, to repay \$754,435,000 in various Senior Lien Water Revenue Bonds and Subordinate Lien Bonds issued in various years since 1993. Proceeds from the bonds provided financing for Water System improvements. The bonds are payable from Water System net revenues and are payable through 2042. Annual principal and interest payments on the bonds are expected to require less than 60% of net revenues. The total principal and interest remaining to be paid on the various Senior and Subordinate Lien Water Revenue Bonds is \$1,100,416,000. Principal and interest paid for the current year on the Senior Lien Bonds and total net revenues were \$70,646,000 and \$119,377,000, respectively.

The City has pledged future revenues from certain parking facilities, net of specified operating expenses, and other operating revenues to repay \$29,105,000 in Parking Facilities Refunding Revenue Bonds issued in 2006. Proceeds from the bonds initially issued provided financing for the construction of parking facilities. The bonds are payable from parking facilities net revenues and are payable through 2022. Annual principal and interest payments on the bonds are expected to require the full amount of net pledged revenues. The total principal and interest remaining to be paid on the Parking Facilities Revenue Bonds is \$37,177,000. Principal and interest paid for the current year (including net swap payments) and total net revenues were \$4,129,000 and \$4,221,000 respectively.

In 2013, no additional pledged revenue was required to meet the debt service on the Parking Facilities Refunding Revenue Bonds. The trust indenture requires, among other things, that the Division will fix parking rates and will charge and collect fees for the use of the parking facilities and will restrict operating expenses. As of December 31, 2013, the Division of Parking Facilities was in compliance with the terms and requirements of the trust indenture.

Derivative Instruments

Derivative instruments are contracts, the value of which depends on, or derives from, the value of an underlying asset, index or rate. The most common types of derivatives used by governments are interest rate swaps and interest rate locks. The City has entered into various derivative or hedging agreements since 1999. A detailed description of each outstanding derivative, including its terms, objectives, risks and fair value, can be found in the section discussing the bonds to which the derivative relates.

The table below presents the fair value balances and notional amounts of the City's derivative instruments outstanding at December 31, 2013, classified by type, and the changes in fair value of these derivatives during fiscal year 2013 as reported in the 2013 financial statements. The fair values of the interest rate swaps, which reflect the prevailing interest rate environment at December 31, 2013 and the specific terms and conditions of each swap, have been provided by the respective counterparty for each swap and confirmed by the City's financial advisor.

	<u>Changes in Fair Value</u>		<u>Fair Value at December 31, 2013</u>		
	<u>Classification</u>	<u>Amount</u>	<u>Classification</u>	<u>Amount</u>	<u>Notional</u>
Investment Derivatives:					
Governmental Activities:					
Fixed to floating interest rate swap					
2003 Subordinated Income Tax Swaption	Investment Loss	\$ (215)	Investment	\$ (454)	\$ 45,000
Business-Type Activities:					
Floating to floating interest rate swap					
2006 Parking Basis Swap	Investment Loss	(2)	Investment	(367)	29,105
Hedging Derivatives:					
Floating to fixed interest rate swaps					
2008 Q Water Swap	Deferred inflow	3,316	Debt	(6,253)	69,880
2010 U Water Swap	Deferred inflow	4,793	Debt	(7,303)	54,735
2010 V Water Swap	Deferred inflow	2,384	Debt	(3,650)	26,295

The table below presents the objective and significant terms of the City's derivative instruments at December 31, 2013, along with the credit rating of each swap counterparty.

<u>Bonds</u>	<u>Type</u>	<u>Objective</u>	<u>Notional Amount</u>	<u>Effective Date</u>	<u>Maturity Date</u>	<u>Terms</u>	<u>Counterparty Credit Rating</u>
Subordinated Income Tax Bonds	Receive Fixed Interest Rate Swaption	Hedge of changes in fair value of Series 1994 Subordinated Income Tax Bonds	\$ 45,000,000	2/7/2003	5/15/2024	If option is exercised, Receive 4.88%, pay SIFMA	Aa3/A+/A+
Water Series Q	Pay Fixed Interest Rate Swap	Hedge of changes in cash flow on the Series Q Water System Bonds	\$ 45,860,000	8/10/2004	1/1/2021	Pay 3.553%, receive 61.25% of LIBOR + 28 bps	Aa3/A+/A+
Water Series Q	Pay Fixed Interest Rate Swap	Hedge of changes in cash flow on the Series Q Water System Bonds	\$ 24,020,000	8/10/2004	1/1/2021	Pay 3.5975%, receive 61.25% of LIBOR + 28 bps	Baa2/A-/A
Water Series U	Pay Fixed Interest Rate Swap	Hedge in changes in cash flow on the Series U Water System Bonds	\$ 54,735,000	2/12/2009	1/1/2033	Pay 3.553%, receive 61.25% of LIBOR + 28 bps	Aa3/A+/A+
Water Series V	Pay Fixed Interest Rate Swap	Hedge in changes in cash flow on the Series V Water System Bonds	\$ 26,295,000	2/12/2009	1/1/2033	Pay 3.5975%, receive 61.25% of LIBOR + 28 bps	Baa2/A-/A
2006 Parking Bonds	Basis Swap - Pay Floating/Receive Floating	Exchange floating rate payments on Series 2006 Parking System Bonds	\$ 29,105,000	8/15/2006	9/15/2022	Pay SIFMA, receive 67% of LIBOR	A2/A+/A+

The following table presents the aggregate debt service requirements on the City's hedged debt and net receipts/payments on the associated hedging derivative instruments as of December 31, 2013. These amounts assume that the interest rates on variable rate bonds and the reference rates in existence as of December 31, 2013 remain the same for the life of the hedging agreement. However, these rates will vary over time and the actual interest payments on the variable rate bonds and the net receipts/payments on the hedging derivative instruments will deviate from the numbers presented below.

Aggregate Cash Flows on Hedging Derivative Instruments

Fiscal Year Ending	Hedging				
December 31	Principal	Interest	Derivatives, Net	Total	
(Amounts in 000's)					
2014	\$	\$	763	\$ 4,558	\$ 5,321
2015			763	4,277	5,040
2016			763	4,219	4,982
2017			763	4,180	4,943
2018			763	3,853	4,616
2019-2023	32,415	3,387	12,658		48,460
2024-2028	80,240	860	2,243		83,343
2029-2033	59,575	125	169		59,869
Total	<u>\$ 172,230</u>	<u>\$ 8,187</u>	<u>\$ 36,157</u>		<u>\$ 216,574</u>

NOTE 6 – DEFERRED PAYMENT OBLIGATION / I-X CENTER

In January 1999, the City purchased the International Exposition (I-X) Center and the land on and around it for \$66.5 million as part of its master plan to expand Cleveland Hopkins International Airport. As part of the purchase agreement, the City leased the building back to the former owner for 15 years, after which the City may demolish the building to make way for airport development. Of the \$66.5 million purchase price, \$36.5 million was paid in cash in 1999. The remaining \$30 million, including interest at 7.75%, is being deferred by the seller and will be offset by future lease payments owed to the City over the 15 year lease period. The future lease payments are equal to the remaining purchase price plus interest at 7.75%, and as such, no cash will be exchanged between the City and the lessee over the term of the lease. The deferred payment is reported as "Deferred Payment Obligation" in the accompanying proprietary funds statement of net position.

In the event that either a similar facility is developed that exceeds a specified size, or there is an expansion of an existing facility that exceeds a specified size within the municipal boundary of the City of Cleveland, the lessee has the right to terminate the lease. Such termination would require the City to pay the lessee the remaining portion of the deferred purchase price.

Rental income recognized by the City under this agreement totaled \$3,389,000 in 2013. Of this amount \$159,000 was offset against interest expense and \$3,230,000 was offset against the principal balance of the deferred obligation.

NOTE 7 – RISK MANAGEMENT

Self Insurance: The City is exposed to various risks of loss related to torts; thefts of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City does not carry commercial insurance for such risks, except for certain proprietary funds and the football stadium. In accordance with GASB Statement No. 10, claims liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). Claims that meet this criteria are reported as liabilities of either governmental or business-type activities in the government-wide statement of net position. In the fund financial statements, claims liabilities that relate to proprietary funds are reported. The current portion of claims is reported as a fund liability in governmental funds; however, the long-term portion of claims liabilities is not reported.

The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines and damage awards. Accordingly, claims are re-evaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs) and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses, regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate.

Changes in the estimated claims payable for all funds during the years ended December 31, 2013 and 2012 were as follows:

	<u>2013</u>	<u>2012</u>
	(Amounts in 000's)	
Estimated claims payable, January 1	\$ 3,993	\$ 2,528
Current year claims (including IBNRs) and changes in estimates	4,116	4,713
Claim payments	<u>(2,650)</u>	<u>(3,248)</u>
Estimated claims payable, December 31	<u>\$ 5,459</u>	<u>\$ 3,993</u>

The estimated claims liabilities are based on the estimated cost of settling claims (including incremental claim adjustment expenses) through a case-by-case review of all outstanding claims and by using historical experience. Claims payable are included as accounts payable on the modified accrual financial statements and are reclassified to long-term obligations as due with one year or due in more than one year on the Statement of Net Position.

Insurance: Certain proprietary funds carry insurance to cover particular liability risks and property protection. Otherwise, the City is generally self-insured. No material losses, including incurred but not reported losses, occurred in 2013. There was no significant decrease in any insurance coverage in 2013. In addition, there were no insurance settlements in excess of insurance coverage during the past three years.

The City provides the choice of four separate health insurance plans for its employees. These plans are provided by two different insurers through commercial insurance. Operating funds are charged a monthly rate per employee, by type of coverage.

In January of 2003, the City exercised the option of retrospective rating as the premium rating mechanism for its workers' compensation program. The total estimated claims liability outstanding at December 31, 2013 was \$23,818,045. Of this amount, \$8,765,242 was recorded as a fund liability within each respective fund. The remaining \$15,052,803 is due in future years and is recorded as a liability in the Workers' Compensation Reserve Internal Service Fund. This liability is funded by charging the appropriate funds their proportionate share of this liability and recording the associated due to or due from as appropriate.

NOTE 8 – CONTINGENCIES

General Contingencies: Various claims and lawsuits are pending against the City. In accordance with GASB Statement No. 10, those claims which are considered “probable” are accrued (see Note 7 – Risk Management), while those claims that are considered “reasonably possible” are disclosed but not accrued.

As of December 31, 2013, the City had \$3,153,000 in claims for which an unfavorable outcome is deemed to be reasonably possible.

These estimates were based on a case-by-case review of outstanding claims by the City’s in-house legal department.

Contingent Liabilities: The City is a member of American Municipal Power (AMP) and has participated in the AMP Generating Station (AMPGS) Project. This project intended to develop a pulverized coal power plant in Meigs County, Ohio. The City’s share was 80,000 kilowatts of a total 771,281 kilowatts, giving the City a 10.37 percent share. The AMPGS Project required participants to sign “take or pay” contracts with AMP. As such, the participants are obligated to pay any costs incurred for the project. In November 2009, the participants voted to terminate the AMPGS Project due to projected escalating costs. These costs were therefore deemed impaired and participants were obligated to pay costs already incurred. In prior years, the payment of these costs was not considered probable due to AMP’s pursuit of legal action to void them. As a result of a March 31, 2014 legal ruling, the AMP Board of Trustees on April 15, 2014 and the AMPGS participants on April 16, 2014 approved the collection of the impaired costs and provided the participants with an estimate of their liability. The City’s estimated share at March 31, 2014 of the impaired costs is \$13,813,694. The City received a credit of \$6,447,719 related to their participation in the AMP Fremont Energy Center (AFEC) Project, and another credit of \$3,617,994 related to the AMPGS costs deemed to have future benefit for the project participants, leaving a net impaired cost estimate of \$3,747,981. Because payment is now probable and reasonably estimable, the City is reporting a payable to AMP in its business-type activities and in its electric enterprise fund for these impaired costs. AMP financed these costs on its revolving line of credit. Any additional costs (including line-of-credit interest and legal fees) or amounts received related to the project will impact the City’s liability. These amounts will be recorded as they become estimable.

The City intends to recover these costs and repay AMP over the next 15 years through a power cost adjustment, thus this incurred cost has been capitalized and reported as a recoverable cost of purchased power, as allowed by GASB Statement No. 65.

Contingencies Under Grant Programs: The City participates in a number of federally assisted Investment Act Grant Programs, principal of which are Community Development Block Grants, Home Weatherization Assistance, the Healthy Start Initiative, Federal HOME Program, Youth Opportunity Area Grant, Workforce Investment Act Grant, Empowerment Zone and Federal Aviation Administration Airport Improvement Grant Programs. These programs are subject to financial and compliance audits by the grantors or their representatives.

In addition to the federally assisted Investment Act Grant Programs, the City received a portion of the American Recovery and Reinvestment Act (ARRA) funds. These funds were funded through existing programs. The ARRA funds are subject to financial and compliance audits by the grantor or their representative and are subject to availability.

HUD Office of the Inspector General (OIG) has issued three findings against the City regarding the Afford A-Home program, two findings regarding the Housing Trust Fund, two findings regarding the Repair-A-Home Program, and one finding regarding the use and reporting of program income. Although the City has made several procedural and policy changes based on the OIG audit, the City is contesting and appealing the audit’s findings.

NOTE 9 – INTERFUND TRANSACTIONS AND BALANCES

Interfund Transactions: During the course of normal operations, the City records numerous transactions between funds including expenditures and transfers of resources to provide services, subsidize operations and service debt. The City has the following types of transactions among funds:

- (1) Reciprocal interfund services provided and used – Purchases and sales of goods and services between funds for a price approximating their external exchange value.
- (2) Nonreciprocal interfund transfers – Flows of assets between funds without equivalent flows of assets in return and without a requirement for repayment. This includes transfers to subsidize various funds.
- (3) Nonreciprocal interfund reimbursements – Repayments from the funds responsible for particular expenditures or expenses to the funds that initially paid for them.

For the year ended December 31, 2013, transfers consisted of the following:

<u>Transfers Out</u>	<u>Transfers In</u>					
	<u>Total</u>	<u>General Fund</u>	<u>Other Governmental Funds</u>	<u>Total Governmental Funds</u>	<u>Enterprise Funds</u>	<u>Internal Service Funds</u>
(Amounts in 000's)						
Governmental Funds:						
General	\$ 23,507	\$	\$ 21,557	\$ 21,557	\$ 1,527	\$ 423
Other Governmental	<u>34,959</u>	<u>2,444</u>	<u>32,515</u>	<u>34,959</u>	<u> </u>	<u> </u>
Total Governmental Funds	<u>58,466</u>	<u>2,444</u>	<u>54,072</u>	<u>56,516</u>	<u>1,527</u>	<u>423</u>
Total	<u>\$ 58,466</u>	<u>\$ 2,444</u>	<u>\$ 54,072</u>	<u>\$ 56,516</u>	<u>\$ 1,527</u>	<u>\$ 423</u>

Interfund Balances: Interfund balances at December 31, 2013 represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting records and (3) payments between funds are made. All are expected to be paid within one year.

Interfund receivable and payable balances as of December 31, 2013 are as follows:

Due To	Total	Due From							
		General Fund	Other Governmental Funds	Total Governmental Funds	Division of Water Fund	Cleveland Public Power Fund	Other Enterprise Funds	Total Enterprise Funds	Internal Service Funds
(Amounts in 000's)									
Governmental Funds:

NOTE 10 – INCOME TAXES

During 2013, the City income tax rate remained at 2% and the credit provided to City residents for income taxes paid to other municipalities remained at 50% and the maximum credit is limited to 1%. A portion of the City income tax is restricted in its use to capital expenditures and debt service and is included in the Restricted Income Tax Special Revenue Fund. All other income tax proceeds are included in the General Fund.

Employers within the City are required to withhold income taxes on employee compensation and remit withholdings to the City at least quarterly. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually.

NOTE 11 – PROPERTY TAXES

Property taxes include amounts levied against all real and public utility property located in the City. The 2013 levy was based upon an assessed valuation of approximately \$4.869 billion. Ohio law prohibits taxation of property from all taxing authorities in excess of 10 mills of assessed value without a vote of the people. Under current procedures, the City's share is 4.4 mills, of which 4.35 mills is dedicated to debt service and .05 mills is dedicated to the payment of fire pension obligations. A revaluation of all property is required to be completed no less than every six years, with a statistical update every third year. The last reappraisal was completed in 2012. Assessed values are established by the Cuyahoga County (County) Auditor. The County Treasurer collects property taxes on behalf of all taxing districts in the County including the City.

Real property taxes, excluding public utility property, are assessed at 35% of appraised market value. Pertinent real property tax dates are:

- Collection Dates January 24 and July 10 of the current year
- Lien Date January 1 of the year preceding the collection year
- Levy Date October 1 of the year preceding the collection year

An electric company's taxable utility production equipment is assessed at 25% of true value, while all of its other taxable property is assessed at 88% of true value. Pertinent public utility tangible personal property tax dates are:

- Collection Dates January 20 and June 20 of the current year
- Lien Date December 31 of the second year preceding the collection year
- Levy Date October 1 of the year preceding the collection year

NOTE 12 – DEFERRED INFLOWS / DEFERRED OUTFLOWS OF RESOURCES

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has items that qualifies for reporting in this category. It is the deferred charge for derivative instruments – interest rate swaps in the government-wide and proprietary fund statements of net position along with the loss on refunding.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

On the modified accrual basis of accounting, the City has recorded certain receivables where the related revenue is unavailable. Unavailable revenues have been reported as deferred inflows of resources on the governmental fund balance sheet for the following:

	Governmental Type Funds		
	Other		
	General	Governmental Funds	Totals
	(Amounts in 000's)		
Income taxes receivable	\$ 14,917	\$ 1,938	\$ 16,855
Property taxes receivable	55,828	29,084	84,912
Special assessments receivable	4,476	7,396	11,872
Local government receivable	9,884		9,884
Estate tax receivable	112		112
Homestead rollback	3,390	1,767	5,157
Emergency medical service receivable	660		660
Motor vehicle taxes receivable		1,352	1,352
Municipal gas tax receivable		1,023	1,023
State gasoline tax receivable		1,998	1,998
Grant receivable		2,938	2,938
Due from other governments	2,490	439	2,929
Other taxes receivable	<u>11</u>		<u>11</u>
Total deferred inflows of resources	<u>\$ 91,768</u>	<u>\$ 47,935</u>	<u>\$ 139,703</u>

NOTE 13 – DEFINED BENEFIT PENSION PLANS

Ohio Public Employees Retirement System: All full-time employees, other than non-administrative full-time police officers and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans as described below:

- 1) The Traditional Pension Plan – a cost-sharing, multiple-employer defined benefit pension plan.
- 2) The Member-Directed Plan – a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the Member-Directed Plan, members accumulate retirement assets equal to the value of member and (vested) employer contributions plus any investment earnings.
- 3) The Combined Plan – a cost-sharing, multiple-employer defined benefit pension plan. Under the Combined Plan, OPERS invests employer contributions to provide a formula retirement benefit similar in nature to the Traditional Pension Plan benefit. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the Member-Directed Plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost-of-living adjustments to members of the Traditional Pension and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/investments/cafr.shtml>, writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or (800) 222-7377.

The Ohio Revised Code provides statutory authority for member and employer contributions. For 2013, member and employer contribution rates were consistent across all three plans. Member contribution rates were 10.00% in 2013, 2012 and 2011. The employer contribution rates were 14.00% of covered payroll in 2013, 2012 and 2011.

The City's required employer contributions to OPERS for the pension portion of all the plans for the years ending December 31, 2013, 2012 and 2011 were \$32,743,188, \$25,369,016 and \$25,558,982 each year, respectively. The required payments due in 2013, 2012 and 2011 have been made.

In June 2012, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. This accounting standard replaces GASB Statement No. 27, and it is effective for employer fiscal years beginning after June 15, 2014.

Ohio Police and Fire Pension Fund: The City contributes to the Ohio Police and Fire Pension Fund (OP&F), a cost-sharing multiple-employer defined benefit pension plan. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by writing to the OP&F, 140 East Town Street, Columbus, Ohio 43215-5164. The report is also available on OP&F's website at www.op-f.org.

From January 1, 2013 through July 1, 2013, plan members were required to contribute 10.00% of their annual covered salary. From July 2, 2013 through December 31, 2013, plan members were required to contribute 10.75% of their annual covered salary. Throughout 2013, Employers were required to contribute 19.50% and 24.00% respectively for police officers and firefighters. The City's contributions to OP&F for the years ending December 31, 2013, 2012 and 2011 were \$26,565,919, \$22,183,185 and \$22,213,372, respectively. The required payments due in 2013, 2012 and 2011 have been made.

NOTE 14 – OTHER POSTEMPLOYMENT BENEFITS

Ohio Public Employees Retirement System: All full-time employees, other than non-administrative full-time police officers and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans: The Traditional Pension Plan – a cost-sharing, multiple-employer defined benefit pension plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan. OPERS maintains a cost-sharing multiple employer defined benefit postemployment health care plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, to qualifying members of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including postemployment health care coverage. In order to qualify for postemployment health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Postemployment Benefit (OPEB) as described in GASB Statement No. 45. The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/investments/cafr.shtml>, writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or (800) 222-7377.

The Ohio Revised Code provides the statutory authority requiring public employers to fund post-retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for funding of post-retirement health care benefits. Employer contribution rates are expressed as a percentage of the covered payroll of active members. The employer contribution rates were 14.00% of covered payroll in 2013, 2012

and 2011. The Ohio Revised Code currently limits the employer contribution to a rate not to exceed 14.00% of covered payroll. Active members do not make contributions to the OPEB Plan. OPERS' Postemployment Health Care plan was established under and is administrated in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Retirement Board determines the portion of the employer contribution rate that will be set aside for funding of postemployment health care benefits. Employer contribution rates used to fund postemployment benefits were 1.00% for members of the Traditional Plan in 2013 and 4.00% in 2012 and 2011, 1.00% for members of the Combined Plan in 2013 and 6.05% for 2012 and 2011. Effective January 1, 2014, the portion of employer contributions allocated to health care was raised to 2.00% for both plans, as recommended by the OPERS Actuary. The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care benefits provided, by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected. The City's actual contributions to OPERS to fund postemployment benefits were \$2,517,622 in 2013, \$10,146,896 in 2012 and \$10,222,877 in 2011. The required payments due in 2013, 2012 and 2011 have been made.

Changes to the health care plan were adopted by the OPERS Board of Trustees on September 19, 2012, with a transition plan commencing January 1, 2014. With the recent passage of pension legislation under SB343 and the approved health care changes, OPERS expects to be able to consistently allocate 4.00% of the employer contributions toward the health care fund after the end of the transition period.

Ohio Police and Fire Pension Fund: The City contributes to the OP&F sponsored health care program; a cost-sharing multiple-employer defined postemployment health care plan administered by OP&F. OP&F provides health care benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium and long-term care to retirees, qualifying benefit recipients and their eligible dependents. OP&F provides access to post-retirement health care coverage for any person who receives or is eligible to receive a monthly service, disability, or survivor benefit check or is a spouse or eligible dependent child of such person. The health care coverage provided by OP&F meets the definition of an Other Postemployment Benefit (OPEB) as described in GASB Statement No. 45. The Ohio Revised Code allows, but does not mandate OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information for the Plan. That report may be obtained by writing to the OP&F, 140 East Town Street, Columbus, Ohio 43215-5164. That report is also available on OP&F's website at www.op-f.org.

The Ohio Revised Code provides for contribution requirements of the participating employers and plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.50% of covered payroll for police and 24.00% of covered payroll for firefighters. The Ohio Revised Code states that the employer contribution may not exceed 19.50% of covered payroll for police and 24.00% of covered payroll for firefighters. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts. One for health care benefits under an IRS Code Section 115 trust and one for Medicare Part B reimbursements administrated as an Internal Revenue Code 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the Ohio Revised Code to the OP&F Board of Trustees. The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) account as the employer contribution for retiree health care benefits. The portion of employer contributions allocated to health care was 4.69% of covered payroll from January 1, 2013 through May 31, 2013 and 2.85% of covered payroll from June 1, 2013 through December 31, 2013. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by provisions of Sections 115 and 401(h). The OP&F Board of Trustees is authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected. The City's contributions to the OP&F that was allocated to the health care plan was \$5,390,151 for the year ending December 31, 2013 \$10,424,190 for 2012 and \$10,399,050 for 2011. The required payments due in 2013, 2012, and 2011 have been made.

NOTE 15 – CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2013 was as follows:

	Balance January 1, 2013	Additions	Reductions	Balance December 31, 2013
	(Amount in 000's)			
Governmental Activities:

The additions to accumulated depreciation may not match depreciation expense due to assets transferred between Business-Type Activities and Governmental Activities, if the transferred assets have been depreciated prior to this year.

Depreciation: Depreciation expense was charged to functions/programs of the City as follows:

	<u>(Amounts in 000's)</u>
Governmental Activities:	
General Government	\$ 29,820
Public Works	12,329
Public Safety	8,683
Building and Housing	144
Community Development	1,523
Public Health	371
Economic Development	119
Depreciation expense on capital assets held by the City's internal service funds that is charged to the various functions based on their usage of the assets	492
Total depreciation expense charged to governmental activities	\$ 53,481
Business-Type Activities:	
Water	\$ 74,217
Electricity	18,171
Airport Facilities	50,865
Nonmajor activities	7,822
Depreciation expense on capital assets held by the City's internal service funds that is charged to the various functions based on their usage of the assets	190
Total depreciation expense charged to business-type activities	\$ 151,265

Capital Commitments: Significant commitments of the City as of December 31, 2013 are composed of the following:

<u>Project Description</u>	<u>Spent-to-Date</u>	<u>Remaining Commitment</u>
	<u>(Amounts in 000's)</u>	
Governmental Activities:

General Engineering Services Phase VIII		3,500
Terminal Ticketing Renovations	162	3,254

Capital Grant Programs: The City participates in the State Issue 2 program and the Local Transportation Improvement Program. Through these programs, the State of Ohio (State) provides financial assistance to the City for its various road and bridge improvements and storm water detention facilities. The Ohio Public Works Commission (OPWC) is the State agency which oversees the allocation of State bond proceeds and tax revenue to selected projects which have met funding requirements. Upon approval of the OPWC, the City and the State create project agreements establishing each entity's financial contribution toward each project. Through December 31, 2013, the State funded \$179,163,000 of road and bridge improvement projects and \$6,974,000 for storm water detention facilities.

Capitalized Interest: Interest expense incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed, net of interest income earned on invested debt proceeds. For 2013, interest expense incurred for the Enterprise Funds was \$91,020,000 of which \$17,553,000 was capitalized net of \$105,000 of interest income capitalized.

Idle Facilities: In April 1977, Cleveland Public Power (CPP) closed its generation plant and since that time, CPP's revenues have been derived primarily from the distribution of purchased power. CPP continued its past practice of depreciating the plant at rates which completed the amortization of the plant in 1999. With the present availability of competitively priced purchased power, management believes the plant will remain idle.

NOTE 16 – SERVICE CONCESSION ARRANGEMENTS

In 2010 the City entered into an agreement with Cleveland Metropolitan Park District (Cleveland Metroparks) under which Cleveland Metroparks will operate and collect user fees from Seneca Golf Course for the next 99 years. Cleveland Metroparks has paid the City \$99 for this agreement. They have agreed to complete at least \$4,000,000 of capital improvements before December 31, 2015. As completed, all capital improvements performed by Cleveland Metroparks will become an asset of Seneca Golf Course and the City. Upon expiration of the agreement, all improvements will be vest in the City. Cleveland Metroparks is required to operate and maintain the golf course in accordance with the City Contract.

In 2012 the City entered into an agreement with Mark A. Nance Golf Ohio, LLC (MAN) under which MAN will operate and collect user fees from the Highland Park Golf Course for the next 10 years. MAN will pay 5% of revenues greater than \$800,000 in years 2012 through 2017. In years 2018 and beyond, MAN will pay 5% on gross revenues up to \$800,000; 10% of gross revenues \$801,000 through \$1,000,000; and 15% of gross revenues greater than \$1,000,000. In addition to receiving a portion of gross revenues, MAN will also make necessary capital

improvements to the golf course. As completed, all capital improvements performed by MAN will become an asset of Highland Park Golf Course and the City. MAN is required to operate and maintain the golf course in accordance with the City Contract.

The City reports the golf courses and related equipment as a capital asset with a carrying amount of \$3,326,000 at year end.

NOTE 17 – SEGMENT INFORMATION

The City has issued revenue bonds and construction loans to finance the activities accounted for in the following Enterprise Funds:

- Division of Water
- Cleveland Public Power
- Department of Port Control
- Municipal Parking Lots

Investors in the revenue bonds rely solely on the revenues generated from the specific enterprise activity to which the debt obligations pertain for repayment.

Shown below is summarized financial information for the City’s enterprise activity that has issued long-term obligations and is not reported as a major fund in the proprietary funds financial statements:

<u>Condensed Statement of Net Position Information</u>	<u>Municipal Parking Lots</u> (Amounts in 000's)
Assets:	
Current assets	\$ 5,802
Restricted assets	8,733
Capital assets, net	35,316
Total assets	<u>49,851</u>
Deferred outflows of resources:	
Loss on refunding	1,884
Total assets and deferred outflows of resources	<u>\$ 51,735</u>
Liabilities:	
Current liabilities	\$ 3,887
Long-term liabilities	27,532
Total liabilities	<u>31,419</u>
Deferred inflows of resources:	
Derivative instruments-interest rate swaps	367
Total liabilities	<u>367</u>
Net position:	
Net investment in capital assets	10,252
Restricted for debt service	5,526
Unrestricted	4,171
Total net position	<u>19,949</u>
Total liabilities, deferred inflows of resources and net position	<u>\$ 51,735</u>

Condensed Statement of Revenues, Expenses and Changes in Net Position Information

	Municipal Parking Lots
	(Amounts in 000's)
Charges for services	\$ 7,875
Depreciation (expense)	(1,376)
Other operating (expenses)	<u>(3,819)</u>
Operating income (loss)	2,680
Nonoperating revenues (expenses):	
Investment income	13
Interest expense	(1,739)
Other revenue (expenses)	70
Capital Contributions	<u>34</u>
Change in net position	1,058
Net position at beginning of year (restated)	<u>18,891</u>
Net position at end of year	<u><u>\$ 19,949</u></u>

Condensed Statement of Cash Flows Information

	Municipal Parking Lots
	(Amounts in 000's)
Net cash provided by (used for):	
Operating activities	\$ 4,141
Noncapital financing activities	70
Capital and related financing activities	(4,129)
Investing activities	<u>15</u>
Net increase (decrease) in cash and cash equivalents	97

Other	48	9	50,491		5,952	
Total	\$ 180,899	\$ 47,871	\$ 270,987	\$ 8,733	\$ 5,952	\$ 558

NOTE 18 – RESTATEMENT

The Governmental Accounting Standards Board (GASB) issued Statement No. 65 effective for periods beginning after December 15, 2012. The Statement changed the treatment of bond issuance costs. Previously, the costs were recorded as assets and amortized over the life of the related debt issue. The GASB evaluated these costs and concluded that with the exception of prepaid insurance, the costs relate to services provided in the current period and thus they should be expensed in the current period. As a result, the following restatements are necessary:

	<u>Net Position</u>	<u>Restatement</u>	<u>Restated Net Position</u>
	<u>January 1, 2013</u>		<u>January 1, 2013</u>
	(Amounts in 000's)		
Government-Wide Governmental	\$ 682,318	\$ (21,204)	\$ 661,114
Government-Wide Business-Type	2,024,366	(25,582)	1,998,784
Water Enterprise Fund	1,259,472	(5,151)	1,254,321
Cleveland Public Power Enterprise Fund	211,191	(2,646)	208,545
Port Control Enterprise Fund	394,000	(16,497)	377,503
Nonmajor Enterprise Funds	159,363	(1,288)	158,075

NOTE 19 – FUND BALANCES / NET POSITION

Fund Balance Classifications: Fund balance is classified in five categories (1) Nonspendable, (2) Restricted, (3) Committed, (4) Assigned and (5) Unassigned. Nonspendable fund balances include amounts that are not in spendable form or are legally required to remain intact. Restricted fund balances include amounts that have external restrictions by either grantors, debt covenants, laws or other governments. Committed fund balances include amounts that are committed to a specific purpose by council ordinance. Per City policy, assigned fund balances include amounts that have an intended use by the Mayor and/or the Director of Finance to be used for a specific purpose. Unassigned fund balances include amounts that have not been assigned to any purpose. Fund expenditures and encumbrances are from restricted resources to the extent of the restricted fund reserve and followed by committed then assigned and unassigned resources.

Below are the fund balance classifications for the governmental funds at December 31, 2013:

	<u>General</u> <u>Fund</u>	<u>Other</u> <u>Governmental</u>	<u>Total</u> <u>Governmental</u>
	(Amounts in 000's)		
Fund Balances			
Nonspendable			
Inventory	\$ 648	\$ 355	\$ 1,003
Nonspendable Total	648	355	1,003
Restricted

Economic Development		88,398	88,398
Committed Total	-	98,806	98,806
Assigned			
General Government	5,403		5,403
Public Works	3,329		3,329
Public Safety	1,959		1,959
Community Development	3		3
Public Health	367		367
Building and Housing	411		411
Other	1,737		1,737
Debt Service		3	3
Assigned Total	13,209	3	13,212
Unassigned	75,891		75,891
Total Fund Balances	<u>\$ 89,748</u>	<u>\$ 344,179</u>	<u>\$ 433,927</u>

Net Position: Net position represent the difference between assets, deferred outflows, liabilities and deferred inflows. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings issued to acquire, construct or improve those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available. Net position are restricted for debt service, loans and other purposes. Other purposes include street construction and maintenance, grant programs and debt or capital funding from restricted income tax.

Rainy Day Reserve Fund: The City, in accordance with Section 5705.13(A), Revised Code, has established by ordinance the Rainy Day Reserve Fund (Rainy Day). Rainy Day should accumulate to at least a level equal to two percent of the General Fund expenditures and cannot exceed five percent of the General Fund expenditures. The City funds the Rainy Day through transfers from the General Fund, when funds become available. In order to use the Rainy Day, the City must pass an ordinance. The amount of the Rainy Day is reported within the unassigned fund balance classification in the City's General Fund.

NOTE 20 – GATEWAY ECONOMIC DEVELOPMENT CORPORATION

In accordance with an agreement with Gateway Economic Development Corporation (Gateway), Gateway is required to reimburse the City for the excess of the debt service requirements of the Parking Facilities Refunding Revenue Bonds attributed to the two Gateway garages over the net revenues generated by the two Gateway garages. In October 2011, the City sold one of the Gateway garages and defeased the applicable bonds. Going forward the amounts required to be reimbursed will be calculated based upon the net revenues of the remaining garage and remaining applicable bonds outstanding.

The first garage on the Gateway site was completed in January 1994. The second garage was completed in August 1994. The third parking facility, Willard Park Garage, was completed in April 1996.

In 2013, net revenues generated by the one remaining Gateway garage were less than the debt service payments attributed to that garage by \$1,527,000. Cumulative debt service payments funded by the City that are due from Gateway totaled \$46,765,000 at December 31, 2013. Due to the uncertainty of collecting such amounts, an allowance has been recorded to offset the amounts in full; therefore, these amounts do not appear in the accompanying financial statements.

To enhance the security of the bonds issued by the County for the construction of facilities at Gateway, the City has agreed to pledge annually a percentage of admissions taxes on all events held at the arena to pay debt service if other revenue sources are not sufficient. Any exempted admissions tax not required for debt service will be reimbursed to the City. The City's current admissions tax rate is 8%. For the year ended December 31, 2013, the City pledged \$2,300,844.

NOTE 21 – COMPLIANCE AND ACCOUNTABILITY

At December 31, 2013, the Telephone Exchange Fund had a net position deficiency of \$15,000. This deficiency will be eliminated by increasing the rates charged to user departments during 2014.

NOTE 22 – SUBSEQUENT EVENTS

Pursuant to Amendment Number One to Lease Agreement, entered into on November 21, 2008 between the City and I-X Center Corporation, commencing February 1, 2014, I-X Center Corporation is to begin paying annual rent of \$2,000,000. This will be paid in monthly installments during the duration of the lease extension which primary term expires on January 31, 2019.

On February 3, 2014, United Airlines announced a 60% reduction in average daily departures from Cleveland and a reduction of regional departures from Cleveland by over 70%. United Airlines will no longer offer hub-level connecting service in Cleveland, Ohio. United Airlines will go from 166 average annual daily departures to about 65, a decrease of 61% and will reduce average daily seats by 46%. United Airlines will go from 7,400,000 available seat miles (ASM's) to 4,800,000 ASM's, a reduction of 36% and will go from 58 peak-day destinations to 20, a reduction of 66%.

As a result of the announcement by United Airlines that it would be cutting its daily departures from Cleveland Hopkins Airport and would no longer maintain a hub at the airport, Fitch Ratings announced on February 5, 2014 that it had downgraded its rating on the City's Airport System Revenue Bonds from A- (negative outlook) to BBB+ (negative outlook). In addition, on February 13, 2014, Standard & Poor's Ratings Services placed its A- rating on the Airport's bonds on CreditWatch with negative implications.

On February 11, 2014, the City issued \$31,460,000 Subordinate Lien Income Tax Bonds, Series 2014A. Proceeds of these bonds will be used to fund improvements to various public facilities (including the City's contribution to a proposed County-owned convention center hotel), to parks and recreation facilities and to cemeteries. The City expects to pay the principal and interest on these bonds from the General Fund.

Effective February 12, 2014, the City issued \$24,255,000 Airport System Revenue Bonds, Series 2014A and \$9,070,000 Airport System Revenue Bonds, Series 2014B. The Series 2014A Bonds refunded the outstanding \$24,255,000 Airport System Revenue Bonds, Series 2009A while the 2014B Bonds refunded the outstanding \$9,070,000 Airport System Revenue Bonds, Series 2009B. These refundings were done as a result of the expiration of the existing letters of credit on the bonds. The 2014A & B Bonds were directly purchased by U.S. Bank National Association as variable rate bonds. The City expects to realize \$5.4 million or 22.6% of aggregated net present value savings on the Series 2014A Bonds and \$635,000 or 7.0% net present value savings on the Series 2014B Bonds.

On March 18, 2014, Standard & Poor's Ratings Services raised its rating on Assured Guaranty Municipal Corp. to AA (stable outlook) from AA- (stable outlook). Assured Guaranty is the insurer of the Series 2006 Parking Facilities Refunding Revenue Bonds. The Division has no ratings on its bonds based solely on its own credit.

On May 19, 2014, City Council approved legislation authorizing the issuance of one or more series of bonds to refund outstanding public power system revenue bonds for the purpose of restructuring the Cleveland Public Power debt.

City Council approved Ordinance Number 1354-13 on November 11, 2013 and subsequently became law on December 11, 2013. The Ordinance authorized the Division of Water to recoup stranded costs and cost to cure other communities still in the water system from communities that exit the system. On February 7, 2014, the Court of Common Pleas, Cuyahoga County issued a preliminary injunction that prevents the Division from imposing said costs on the City of Westlake and shall remain in effect pending further order from the Court.

Effective June 11, 2014, the City issued \$37,740,000 Subordinate Lien Income Tax Bonds, Series 2014B. These bonds were issued to provide funds to pay the costs of various public improvements to roads and bridges, public facilities and parks and recreation facilities throughout the City.

SUPPLEMENTARY INFORMATION

CITY OF CLEVELAND, OHIO

SCHEDULE OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE-BUDGET AND ACTUAL (NON-GAAP BUDGETARY BASIS)- GENERAL FUND-LEGAL APPROPRIATION LEVEL FOR THE YEAR ENDED DECEMBER 31, 2013

CITY OF CLEVELAND, OHIO

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted or committed by the City to expenditures for particular purposes. The City’s Special Revenue Funds are described below:

Division of Streets	To account for motor vehicle license tax and gasoline excise tax used for the repair and building of streets.
Restricted Income Tax	To account for one-ninth of the City’s income tax collections. Monies are to be used for capital improvement purposes and repayment of debt.
Cleveland Stadium Operations	To account for the operating activities of Cleveland Browns Stadium.
Community Development Block Grants	To account for revenue from the federal government and expenditures as prescribed under the Community Development Block Grant Program.
Community Development Funds	To account for revenue earmarked for City-wide development.
Building and Housing Funds	To account for revenue earmarked to administer and enforce the provisions of the Cleveland building, housing and zoning codes plus the national electrical code and state building, plumbing and elevator codes.
Urban Development Action Funds	To account for revenue from the federal government under the Urban Development Action Grant Program.
Economic Development Funds	To account for revenue earmarked to revitalize distressed cities by stimulating economic development.
Home Weatherization Grants	To account for revenue from the State of Ohio and expenditures as prescribed under the Home Weatherization Assistance Program.
Work Force Investment Act Grants (WIA)	To account for revenue and expenditures from the State of Ohio under the Work Force Investment Act.
General Government Funds	To account for revenue earmarked for general government activities.
Public Works Funds	To account for revenue earmarked for the public works activity.
Public Safety Funds	To account for revenue earmarked for public safety activities.

SPECIAL REVENUE FUNDS (Continued)

Public Health Funds	To account for revenue earmarked for the improvement of public health.
Cleveland Stadium Debt Service Fund	To account for the accumulation of resources earmarked for the repayment of debt related to Cleveland Browns Stadium.
Gateway Shared Income Tax Funds	To account for municipal income tax revenue derived from persons employed at the Arena and Progressive Field with 50% of the revenues shared with the other taxing districts in the City.
Neighborhood Development Investment Fund	To account for revenue earmarked for the Neighborhood Development Investment Fund.
Core City Program Funds	To account for revenue earmarked for certain economic and community development projects.
Supplemental Empowerment Zone	To account for revenue from the U.S. Department of Housing and Urban Development Program designed to help rebuild specified urban communities.

SPECIAL REVENUE FUNDS (for budgetary purposes only)

These funds are rolled into the General Fund for Modified Accrual Financial Statements.

Rainy Day Reserve Fund	To account for revenue which is eligible to be used during significant periods of economic downturn.
Schools Recreation and Cultural Activities Fund	To account for revenue from special taxes earmarked for Cleveland Municipal Schools for recreation and cultural activities.

DEBT SERVICE FUNDS

Debt Service Funds are used to account for the accumulation of financial resources for, and the payment of, general long-term debt principal, interest and related costs. The City's Debt Service Funds are described below:

Unvoted Tax Supported Obligations Fund	To account for the accumulation of resources for the payment of General Obligation Bonds of the City. These bonds do not require a vote of the electors, other than self-supporting obligations. They are payable from ad valorem property taxes levied within the limitations provided by law.
Stadium Bond Fund	To account for the accumulation of resources for the payment of the Certificates of Participation (COPS) - Stadium from pledged City taxes.
Subordinated Income Tax Fund	To account for the accumulation of resources for the payment of Subordinated Income Tax Variable Rate Refunding Bonds payable from pledged income taxes.

DEBT SERVICE FUNDS (Continued)

Lower Euclid Avenue TIF	To account for the accumulation of resources for the payment of Economic Development Bonds payable from tax increment financing revenues and a pledge of the non-tax revenue of the City.
Core City Bonds	To account for the accumulation of resources for the payment of taxable Economic and Community Development Bonds payable from non-tax and net project revenues.
Subordinate Lien Income Tax Fund	To account for the accumulation of resources for the payment of Subordinate Lien Income Tax Bonds payable from pledged income taxes.
Urban Renewal Fund	To account for the accumulation of resources for the payment of tax increment Urban Renewal Bonds payable from deposits made in lieu of taxes.
Urban Renewal Reserve Fund	The account is to be maintained at an amount equal to one year's maximum annual debt service on certain Urban Renewal Bonds and can be used to cover any debt insufficiency payable from certain urban renewal bonds.

CAPITAL PROJECT FUNDS

Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The City's Capital Project Funds are described below:

Capital/Urban Renewal Bond Construction	To account for all bond proceeds and capital projects costs of bond-funded capital acquisitions, tax increment Urban Renewal Bond issues and construction within the City.
Grant Improvement	To account for capital grant revenues which fund Capital Improvement Projects within the City.
Capital Improvement	To account for miscellaneous revenues which fund capital projects.
Certificates of Participation/Capital Leases	To account for Certificates of Participation (COPS) and capital lease proceeds which fund certain capital funds.
Cleveland Stadium Construction	To account for bond proceeds and capital projects costs of the Cleveland Browns Stadium.

CITY OF CLEVELAND, OHIO

NONMAJOR ENTERPRISE FUNDS

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private sector businesses where the intent of the governing body is that the expense (including depreciation) of providing goods or services primarily or solely to the general public be financed or recovered primarily through user charges. The City's nonmajor Enterprise Funds are as follows:

Water Pollution Control

The Division of Water Pollution Control is a segment of the Department of Public Utilities of the City. The Division of Water Pollution Control was created for the purpose of providing sewage services to customers and to maintain the local sewer system of the City.

Public Auditorium

The Public Auditorium is a multi-purpose performing arts, entertainment and conference center. It was constructed in the grand opera tradition and features a spacious 21,780 square foot registration lobby, a 10,000 seat auditorium, the 3,000 seat Cleveland Music Hall and 600 seat Little Theater.

West Side Market

The West Side Market provides a public market where Cleveland area residents can purchase a variety of quality foods in a centralized location.

East Side Market

The East Side Market provides a public market where Cleveland area residents can purchase a variety of quality foods in a centralized location.

Municipal Parking Lots

The Division of Parking was established to provide municipal parking within the City's limits.

Cemeteries

The Division of Cemeteries was established to provide interment and cremation services for the City and its neighboring communities.

Golf Courses

The Golf Course Division was established to provide the City and neighboring communities with recreational facilities for golfing and cross country skiing. Currently, both City golf courses are being leased out. Seneca is being leased by Cleveland Metroparks and Highland is leased by Mark A Nance Golf Ohio.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods or services provided by one department of the City to other departments of the City on a cost-reimbursement basis. The City's Internal Service Funds are described below:

Motor Vehicle Maintenance	The Division of Motor Vehicle Maintenance was established to provide centralized maintenance, repairs and fueling of certain City vehicles.
Printing and Reproduction	The Division of Printing and Reproduction was established to provide printing and reproduction services for all City divisions.
City Storeroom and Warehouse	The City's Storeroom and Warehouse Division provides centralized mailroom service.
Utilities Administration	The Division of Utilities Administration was established to provide administrative assistance to the Department of Public Utilities.
Sinking Fund Administration	The Sinking Fund Administration Fund was established to account for personnel and other operating expenditures related to the administration of the Debt Service Fund.
Municipal Income Tax Administration	The Municipal Income Tax Administration Fund was established to account for operating expenditures related to the collection of municipal income tax for Cleveland and other municipalities.
Telephone Exchange	The Division of Telephone Exchange was established to operate the communications system for the City at minimal cost.
Radio Communications	The Office of Radio Communications was established to operate the 800MHZ radio communication system.
Workers' Compensation Reserve	The Workers' Compensation Reserve was established to account for liabilities related to workers' compensation claims under the retrospective rating policy.

CITY OF CLEVELAND, OHIO

AGENCY FUNDS

Agency Funds are used to account for assets received and held by the City acting in the capacity of an agent or custodian. The City's Agency Funds are described below:

Municipal Courts	To account for assets received and disbursed by the Municipal Courts as agent or custodian related to Civil and Criminal Court matters.
Central Collection Agency	To account for the collection of the Municipal Income Tax for the City of Cleveland and any other municipalities that employ the Central Collection Agency as their agency.
Other Agencies	To account for miscellaneous assets held by the City for governmental units or individuals.

Note:

The Governmental Accounting Standards Board (GASB) issued Statement No. 65 effective for periods beginning after December 15, 2012. This statement changed the treatment of bond issuance costs to expense in the period incurred. Previously, the costs were recorded as assets and amortized over the life of the related debt issued. This change is reflected in the 2013 net position figures. The City did not restate prior years in this statistical table.

In 2011 Water restated their capital assets due to entering into amended Water agreements with 21 member communities prior to 2011. As part of the agreements, ownership of distribution mains was transferred to the Division of Water. The City did not restate these figures in this statistical table.

Note:

Program revenues and expenses previously reported as "Other" program revenues and expenses in Governmental activities on the Statement of Activities are now classified as General Government program revenues and expenses as appropriate.

Business-type activities on the Government-wide Statement of Activities summarizes other Enterprise Funds as Nonmajor activities. These include Sewer, Public Auditorium, West Side Market, East Side Market, Municipal Parking Lots, Cemeteries and Golf Courses.

(1) In 2012 a departmental reorganization occurred that merged the departments of Public Service with Parks, Recreation and Properties becoming the Department of Public Works. The Office of Capital Projects was created from the Divisions of Architecture, Engineering and Construction and Research, Planning and Development and is reported under General Government. In addition, the Division of Consumer Affairs was merged with Community Development and was moved from General Government.

(2)The Governmental Accounting Standards Board (GASB) issued Statement No. 65 effective for periods beginning after December 15, 2012. This statement changed the treatment of bond issuance costs to expense in the period incurred. Previously, the costs were recorded as assets and amortized over the life of the related debt issued. The City did not restate prior years in this statistical table.

(1) In 2012, a departmental reorganization occurred that merged the departments of Public Service with Parks, Recreation and Properties becoming the Department of Public Works. The Office of Capital Projects was created from the Divisions of Architecture, Engineering and Construction and Research, Planning and Development and is reported under General Government. In addition, the Division of Consumer Affairs was merged with Community Development and was moved from General Government. Data for years prior to 2011 is unavailable.

(2) In 2013, other taxes and other shared revenues are reported separately. For years prior to 2013, the figures are combined. Data for years prior to 2013 is unavailable.

The assessed valuation level for real property in Cuyahoga County is 35% of appraised market value, except for certain agricultural land and public utility property.

The assessed valuation of personal property constituting "inventory" was 23% of true value, in 2006 it was reduced to 18.75%, in 2007 to 12.50%, and in 2008 to 6.25%. The percentage decreased to 0% in 2009 and remains at 0% in 2013.

Electric deregulation took place January 1, 2001. Under prior law, an electric company's taxable production equipment was assessed at 100% of true value, while all of its other taxable property was assessed at 88% of true value. Effective in 2002, the valuation on electric utility production equipment was reduced from 100% to 25% of true value, with makeup payments in varying amounts to be made through 2016 to taxing subdivisions by the State of Ohio from State resources. All taxable property remained at 88% true value.

The total direct rate is shown per \$1,000 of assessed value.

Note:

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year. The City's basic property tax rate may be increased only by a majority vote of the City's residents. Charter millage is consistently applied to all types of property. The real property tax rates for the voted levies of the overlapping taxing districts are reduced so that inflationary increases in value do not generate additional revenue. Overlapping rates are those of local and county governments that apply to property owners within the City.

(1) Gross revenues include operating revenues plus interest income. Beginning in 2001, a minimum of 40% of passenger facility charges, as well as grant funds from the FAA for the new runway, are dedicated to the payment of debt service charges and are included in gross revenues. Beginning in 2007, the Coverage Account was included in the calculation of debt service coverage.

(2) Direct operating expenses are calculated in accordance with the bond indenture.

Method: Using 1.0 for each full-time employee and 0.50 for each part-time and seasonal employee at year end.

(1) Building and Housing was moved from Community Development to its own department in 2005.

(2) House of Corrections was moved from Public Health to Public Safety in 2007.

(3) In 2012, a departmental reorganization occurred that merged the departments of Public Service with Parks, Recreation and Properties becoming the Department of Public Works. The Office of Capital Projects was created from the Divisions of Architecture, Engineering and Construction and Research, Planning and Development and is reported under General Government. In addition, the Division of Consumer Affairs was merged with Community Development and was moved from General Government.

(4) In 2010, the Convention Center was sold to Cuyahoga County; however, the City continues to maintain and operate the Public Auditorium.

Total enplaned passengers	74,385	92,160	87,695	87,012
Water Department				
Water rates per 1st 600 cubic feet of water used (5)	\$15.51	\$13.76	\$12.58	\$12.58
Average number of water accounts billed monthly (cubic feet)	139,201	139,023	138,002	133,626
Total water collections annually (including P&I)	\$250,250,867	\$246,046,531	\$211,302,881	\$210,264,218
Payments to Cleveland for bulk water purchases	\$20,194,830	\$21,271,504	\$19,101,723	\$20,660,824
Wastewater Department				
Sewer and sanitary calls for service	4,856	4,035	5,489	7,272
After hours sewer calls (hours)	227	167	204	185

- (1) General obligation bond rating.
- (2) Amounts are new construction starts. The majority of engineering and construction projects are multi-year projects.
- (3) Includes entire area serviced by the Division of Vital Statistics (i.e., Cleveland + suburbs).
- (4) Beginning 2007, administratively approved cases no longer included.
- (5) This is the rate for the City of Cleveland residents only. In 2012 rates changed from per 1000 cubic feet to per 600 cubic feet.
- (6) Fire Calls was changed to "Fire calls-Incoming for service" and all years adjusted beginning 2004 to reflect all calls for service received.
- (7) Holiday light setup was contracted to an outside agency in 2009, 2010 and 2011.
- (8) The City went "live" on a new financial system in January 2010. The new system creates journal entries at the transaction level instead of at the summary level like the prior financial system.
- (9) No program was available for asphalt overlay in 2010 and a new program was implemented for crackseal coating. In 2011, this program ended due to state budget cuts and the asphalt overlay program was again funded.
- (10) 2010 data has been changed. Figures included cases from prior years.
- (11) Street sweeping was limited in 2011 and 2012 due to state imposed budget cuts.
- (12) Beginning in 2011, the City no longer provides an organized leaf collection program.
- (13) Economic Development grants received were restated in 2011 for all years shown. They Include Neighborhood Development Investment Fund, Supplemental Empowerment Zone, Economic Development Funds, Urban Development Action Funds, WIA Grants and Core City Program Funds. Beginning in 2011 WIA Grants were moved to General Government.
- (14) In 2013, OVI arrests, operating a vehicle impaired, is formerly known as DUI arrests, driving under the influence. They are both counted using the same measures; however the State of Ohio now refers to them as OVI as does the City of Cleveland.

(1) Includes Dog Kennels, Inspection Garage and House of Corrections.

(2) These are calculated totals of all trunk mains [20" diameter and larger] (439 miles), distribution mains [16" and smaller] within the City of Cleveland (1,266 miles) plus distribution mains within certain suburbs with updated service agreements (1,134 miles) which transferred ownership of the distribution mains within those suburban boundaries to the City of Cleveland. Not included in these totals are the distribution mains in all master meter communities and any direct service suburban community who has not entered into a new service agreement.

(3) In 2011 the City leased Seneca golf course. In 2012 the City leased both golf courses.

(4) Closed Platt Station and Luke Easter Station in 2011. In 2013 square footage occupied decreased due to the demolition of the Miles Broadway building (21,900 sq ft) and the Highland Park Maintenance building (9,000 sq ft).

(5) In 2012 a departmental reorganization occurred that merged the departments of Public Service with Parks, Recreation and Properties becoming the Department of Public Works. The Office of Capital Projects was created from the Divisions of Architecture, Engineering and Construction and Research, Planning and Development and is reported under General Government. In addition, the Division of Consumer Affairs was merged with Community Development and was moved from General Government.

(6) In 2013 Cleveland Hopkins demolished their long-term parking area and created a surface lot. They also changed their short-term parking area into the CLE Smart Park Garage which is for both short and long-term parking.

N/A Information not available.
