Pipeline Infrastructure Improvements Update

Wednesday September 4, 2025

Enbridge Gas Ohio - Pipeline Infrastructure Replacement Project

PIR 3905 – East 150 St

(City of Cleveland - Ward 1)

CLEVELAND – On Wednesday September 4, 2025, an Enbridge Gas Ohio pipeline infrastructure replacement project will begin on the following street:

- East 150th Street – From Harvard Avenue to Judson Drive

The improvements include replacing the old steel mainline with a new plastic mainline in the roadway and sidewalk area. A work zone will be established which will allow two-way traffic with traffic control personnel present to help direct traffic flow. Access to adjacent driveways and businesses will be maintained throughout construction. The work on the project will take place Monday through Friday from 7 a.m. to 5 p.m.

This project is scheduled for completion by November 2025. Should the weather not allow for permanent restoration to the sidewalk and roadway after construction, a temporary 2" thick concrete sidewalk will be installed for pedestrian traffic, and concrete road caps will be placed on all road crossings until permanent restorations can be completed in the spring of 2026.

Should there be any questions, please contact Matt Lenke - Hill International at 330-353-7111.

Editor's Note: Road construction invariably presents hazards to the public. All travelers are urged to use caution in construction zones. Public safety and the safety of workers is a top priority.

About the City of Cleveland

The City of Cleveland is committed to improving the quality of life for its residents by strengthening neighborhoods, delivering superior services, embracing diversity and making Cleveland a desirable, safe city in which to live, work, play, and do business.
