Pipeline Infrastructure Improvements Update

Monday, January 6, 2025

Enbridge Gas Ohio - Pipeline Infrastructure Replacement Project
PIR 640 – Cedar Avenue & East100 Street
(City of Cleveland - Ward 6)

CLEVELAND – On Monday, January 6, 2025 weather permitting, an Enbridge Gas Ohio pipeline infrastructure replacement project will begin on the following streets:

- Cedar Avenue – South side from East 93 Street to East 103 Street
- East 93 Street – From Cedar Avenue to Quebec Avenue
- East 95 Street – From Cedar Avenue to Quebec Avenue
- East 97 Street – West side from Cedar Avenue to Quebec Avenue
- East 100 Street – From Cedar Avenue to Quebec Avenue
- East 101 Street – From Cedar Avenue to Quebec Avenue
- East 103 Street – From Cedar Avenue to Quebec Avenue
- Quebec Avenue – From East 93 Street to East 103 Street

The improvements include replacing the old steel mainline with a new plastic mainline in the roadway and sidewalk area. A work zone will be established which will allow two-way traffic with traffic control personnel present to help direct traffic flow. Access to adjacent driveways and businesses will be maintained throughout construction. The work on the project will take place Monday through Friday from 7 a.m. to 5 p.m.

This project is scheduled for completion in April 2025. Should the weather not allow for permanent restoration to the sidewalk and roadway after construction, a temporary 2” thick concrete sidewalk will be installed for pedestrian traffic, and concrete road caps will be placed on all road crossings until permanent restorations can be completed in the spring of 2025.

Should there be any questions, please contact Matt Lenke - Hill International at 330-353-7111.

***Editor’s Note:** Road construction invariably presents hazards to the public. All travelers are urged to use caution in construction zones. Public safety and the safety of workers is a top priority.*
