Since this Contract is for a needed improvement, the provisions relating to the time of performance and time of completion of the work included in this Contract are of the essence of this Contract. The Contractor shall begin work on the day specified in paragraph B-4 and shall prosecute the work diligently so as to assure completion of the work not later than the time specified therefor, or the time of completion extended, pursuant to paragraph B-6 hereof.

B-4. TIME OF COMMENCEMENT AND COMPLETION OF WORK.

- A. The work to be performed herein shall start within five (5) days after the execution of the Contract and without further notices from the Director, except as otherwise provided in the Supplemental General Conditions; provided in case of special conditions arising after the execution of the Contract the Director and the Contractor may agree in writing to postpone the commencement of the work hereunder.
- B. This Contract shall be deemed executed when signed by the parties thereto, certified by the Director of Finance as required by law, secured by the required bond, approved by the Director of Law, and when the original contract is filed with the Commissioner of Accounts of the City and a copy delivered to the Contractor. Under normal conditions a contract will be executed within approximately 6 (six) weeks after approval of the contract.
- C. Unless fixed by the Director, or otherwise provided in the Supplemental General Conditions, the bidder shall state in its bid the date on or before which the work herein contemplated will be completed and ready for Final Acceptance. (Where equal bids are received, the date of completion will be used in determining the lowest responsible bid.)

B-5. LIQUIDATED DAMAGES FOR DELAY.

The Contractor guarantees that it can and will complete the work on or before the time fixed in its bid, or on or before the extended time as provided under Section B-6 below. For the reason that the damage and loss to the City which will result from the failure of the Contractor to complete the work at the time fixed will be most difficult or impossible of accurate assessment, the damages to the City for such delay and failure on the part of the Contractor shall be liquidated in the amount of Twenty-Five Dollars (\$25.00), or in the amount fixed in the Supplemental General Conditions, for each calendar day which the Contractor shall fail to complete the work, or any part thereof, in accordance with the provisions of this Contract and such liquidated damages shall not be considered as a penalty. The City will deduct and retain out of any money due or to become due under this Contract the amount of the liquidated damages and, in case those amounts are less than the amount of the liquidated damages, the Contractor shall be liable for the payment of the difference upon demand of the City.

B-6. DELAY FOR CAUSES BEYOND CONTROL.

- A. If the Contractor is delayed in the completion of the work by any act or neglect of the City, or by any other contractor employed by the City, or by changes ordered in the work; or by strikes, lockouts, fire, unusual delay by common carriers, unavoidable casualties, or any cause beyond the Contractor's control, including orders, limitations, or restrictions of any Governmental agency having jurisdiction over the subject matter of this Contract, or by delay authorized by the City, or by any cause which the Director shall decide to justify the delay; then, for all such delays and suspensions, the Contractor shall be allowed one calendar day extension beyond the time herein stated for completion of the work for each and every calendar day of such delay so caused in the completion of the work, the same to be ascertained by the Director.
- B. No such extension shall be made for any one or more of such delays unless within ten (10) days after the beginning of such delay a written request for additional time shall be filed with the Director. In case of a continuing cause of delay, only one request will be necessary.
- C. [Reserved]
- D. When by reason of any of the causes stated herein an extension of time has been allowed the Contractor for the completion of his or her work, he or she shall not be entitled to a bonus for completion prior to the date so extended, anything in the Contract Documents to the contrary notwithstanding.

B-7. STORAGE OF MATERIALS.

- A. The Contractor shall make all necessary arrangements and provisions for the storage of materials and equipment to be used on this Contract.
- B. Materials and equipment which are to become the property of the City, shall be so stored as to facilitate their prompt inspection and insure preservation of the quality and fitness of the work, including proper protection against damage by freezing and wet weather; and they shall be placed under cover on wooden platforms or other hard, clean surfaces, and not on the ground, when so directed. Whenever the best interest of the City so requires, upon order of the Director, the Contractor shall promptly provide improved storage facilities and

methods.

- C. Lawns, grass plots or other private property shall not be used for storage purposes without written permission of the owner, his agent or other person in possession or control of such premises.

B-8. RESPONSIBILITY OF CONTRACTOR.

- A. The City will not insure the work under construction, nor against claims for injury to person or property arising during the prosecution of such work.
- B. The Contractor will be held responsible for all damage to the work under construction, whether from fire, water, high winds, or other causes until Final completion and Acceptance, even though partial payments have been made under this Contract. He or she will be held answerable for all damages that may occur to persons, property, animals, or vehicles from want of proper shoring, bracing, lighting, watching, boarding or enclosing, and for any accident arising from defective scaffolding or apparatus, or from any negligence on the part of himself or his employees.

B-9. DUTY AND RESPONSIBILITY OF CONTRACTOR FOR PLANT AND METHODS.

The Contractor shall provide and install such construction plants and shall use such methods and appliances for the performance of all the operations connected with the work to be done under this Contract as will secure the safety of the work and those working on it, a satisfactory quality of the work and a rate of progress which will insure the completion of the work within the time specified. If at any time before the commencement or during the progress of the work, or any part of it, such methods and appliances appear to be unsafe, inefficient or inadequate for securing the safety of the workers, the quality of the work or the rate of progress required, the Director may order the Contractor to increase safety measures or to improve their character, and the Contractor shall comply with such orders; but the failure of the Director to make such a demand shall not release the Contractor from his obligation to secure the safe conduct and the quality of the work, and the rate of progress required, and the Contractor alone shall be responsible for the safety, efficiency and adequacy of his or her plant, appliances and methods.

B-10. STRUCTURES ENCOUNTERED AND PROTECTION OF PROPERTY.

- A. The Contractor shall, at its own expense, support and protect all buildings, bridges, conduits, wires, water pipes, gas pipes, sewers, pavements, curbing, sidewalks, equipment and fixtures of all kinds and all other public or private property, whether of this or another Contract, that may be encountered or endangered in the prosecution of the work herein contemplated and that are not otherwise provided for in the Charter or franchise relating to same. The Contractor shall repair and make good any damage caused to any such property by reason of its operations leaving all work in approved condition at the completion of the contract.
- B. The City reserves the right to repair any damage to public utilities or other facilities of the City caused by the work of the Contractor and the cost of such repair shall be borne by the Contractor. In the event the Contractor refuses or fails to pay bills for such repair work upon presentation, without prejudice to any other remedies available to the City, the cost of the same shall be deducted from any money that may be due to him on partial or final estimates as herein provided.

B-11. PROTECTION OF WORK, LIFE AND PROPERTY.

The Contractor shall provide proper facilities, take all necessary precautions and assume the entire cost for protecting the work against adverse weather conditions and for handling all storm and flood water, sewage, seepage, ice or snow that may be encountered during the performance of this Contract and the manner of providing for such contingencies and for carrying on the work in freezing weather shall meet with the approval of the City.

- A. The Contractor shall provide the necessary watchmen and sufficient warning lights and barricades at its own expense and shall take such other precautions as are necessary to protect life and property.
- B. The Director may at any time order the Contractor to provide watchmen or additional watchmen at any point where, in the Director's opinion, they are required, or where they may be requested by the proper official of any municipality affected.
- C. Nothing in this section shall be construed as requiring the Contractor to provide a road patrol.

B-14. AID TO THE INJURED.

B-18. PUBLIC LIABILITY, PROPERTY DAMAGE AND AUTOMOBILE INSURANCE.

- A. The Contractor shall take out and maintain during the life of this Contract such public liability and property damage insurance, wherein the City of Cleveland is included as an additional insured, as shall protect himself or herself, the City and any Subcontractor performing work covered by this Contract from claims for damage for personal injury, including accidental death, as well as from claims for property damages which may arise from operations under this Contract, whether such operations be by himself or herself or by any Subcontractor or by anyone directly or indirectly employed by either of them. An exact copy of such policy or policies shall be deposited with the City of Cleveland before the commencement of any work under the contract. The amounts of such insurance shall be as follows:

The Director or his authorized representative and such representative's staff shall at all times have access to inspect the work wherever it is in preparation, progress, being manufactured or fabricated and the Contractor shall arrange and provide proper facilities for such access and inspection to determine whether such work is being done in accordance with the contract requirements.

The Inspector shall not be authorized to revoke, alter, enlarge, relax or release any requirements of these specifications, nor to approve or accept any portion of the work or to issue instructions contrary to the plans and specifications. The Inspector shall in no case act as foreman or perform other duties for the Contractor or interfere with the management of the work by the latter. Any advice which the Inspector may give the Contractor shall in no wise be construed as binding the Director in any way or releasing the Contractor from the fulfillment of the terms of the contract.

The Director shall decide all questions of priority among separate Contractors.

B-25. PATENTS.

B-28. EIGHT HOUR DAY-MINIMUM WAGE AND NON-DISCRIMINATION.

The Contractor agrees that it will comply with the following provisions of the Charter of the City of Cleveland, which read respectively, as follows:

Section 196. Except in case of extraordinary emergencies, not to exceed eight hours shall constitute a day's work and not to exceed forty-eight (48) hours a week's work, for any City employee of the City of Cleveland in the classified service thereof, and for any workmen engaged in any public work carried on or aided by the municipality whether done by contract or otherwise. The Council shall, by ordinance, provide for the enforcement of the provisions of this section.

Section 197. Every contract for public work entered into by the City of Cleveland shall contain, and no contract shall be entered into unless it contains the following stipulations:

The Contractor hereby agrees that all persons employed by him shall be paid wages which are not less than are paid by the City of Cleveland for similar or like work; but if said City has not established a rate of wages for any particular class of work to be performed under the terms of this Contract, then said employees shall be paid wages not less than are generally paid therefor by others employing union labor in said city; but in no event shall any employee be paid less than four dollars and fifty cents (\$4.50) per day for eight hours.

The Contractor hereby further agrees that in the employment of labor, skilled or unskilled, under the contract there shall be no discrimination exercised against any citizen because of race, color, religion or national origin; and that any violation hereof shall be deemed a material breach of said contract.

B-29. PREVAILING RATES OF WAGES.

- A. Each laborer, workman or mechanic employed by the Contractor for the work herein specified or by the Subcontractor, or by other persons upon such work, shall be paid the prevailing rates of wages as determined by the Department of Industrial Relations, Division of Building and Factory Inspection, of the State of Ohio, the published and approved schedule of which may be obtained at the office of the Director.
- B. In the event the wage scale for any labor classification is changed between the time the schedule was approved and the time the work required by this Contract is performed, or in the event any class of labor employed under this Contract, is not included in the published schedule of prevailing wages, then the rate prevailing at the time the work is actually performed as ascertained and determined by the Department of Industrial Relations of the State of Ohio shall govern the work done under this Contract.
- C. Every contractor and Subcontractor who is subject to Chapter 4115. of the Revised Code shall, as soon as it begins performance under its contract with any contracting public authority, supply to the prevailing wage coordinator of the contracting public authority a schedule of the dates during the life of his contract with the authority on which it is required to pay wages to employees. It shall also deliver to the prevailing wage coordinator a certified copy of his payroll, within two weeks after the initial pay date, and supplemental report for each month thereafter which shall exhibit for each employee paid any wages, his name, current address, social security number, number of hours worked during each day of the pay periods covered and the total for each week, his hourly rate of pay, his job classification, fringe payments, and deductions from his wages. If the life of the contract is expected to be no more than four months from the beginning of performance by the contractor or subcontractor, such supplemental reports shall be filed each week after the initial report. The certification of each payroll shall be executed by the contractor, subcontractor, or duly appointed agent thereof and shall recite that the payroll is correct and complete and that the wage rates shown are not less than those required by the contract.
- D. Each contractor or subcontractor shall file with the contracting public authority upon completion of the public improvement and prior to final payment thereof an affidavit stating that he has fully complied with Chapter 4115. of the Revised Code. The affidavit is to be filed with the City Commissioner of Accounts.

B-30. STATE OR FEDERAL TAXES.

- A. The Contract Price or Prices for the materials contained in this Contract are subject to increase or decrease by the amount of any additional tax or taxes or reduction of such tax or taxes, as the case may be, affecting such commodity imposed by or under authority of the Federal Government or the State of Ohio, which may be enacted after receipt of bids for this Contract and such changes shall continue in effect during the existence of such change in the taxes, provided, however, that in the event of any increase in cost, a claim shall be presented by the Contractor within thirty (30) days and provided that such claim is supported by evidence showing such additional tax, satisfactory to the Director of Law. Reductions in taxes will be deducted from the contract price.
- B. The City is exempt from all sales, excise and transportation taxes, except State of Ohio gasoline tax. The price or prices bid, whether a unit price, lump sum price, lot price, or a trade discount from catalogue list prices, shall be exclusive of all such taxes and will be so construed.

B-31. LABOR AND MATERIALMEN.

- A. In case the attested accounts, claims, bills or costs are not paid or adjusted to the satisfaction of the Director of Finance, then it is agreed that the City may proceed as stated in paragraph B of this section.
- B. The City may retain out of any monies at any time due to the Contractor a sum sufficient to pay all persons who have done work or furnished labor or materials for the work herein contracted for, and who shall have filed an attested account of such claim with the Director of Finance within four months from the performance of labor or the delivery of materials, stating that any balance for said work or materials is still due and unpaid, which amount may be retained by the City until satisfactory evidence is furnished to the Director of Finance that the balance has been fully paid, and if the evidence is not furnished before the next estimate becoming due to the contractor under the contract, said Director of Finance may pay said balance to the person claiming it and charge such payment to the Contractor as payment under the contract, unless the Contractor shall have previously filed with the Director of Finance written notice that such claim is in dispute. In the event of such dispute, the City will retain the amount until the claim has been adjusted or the money paid into court on proceedings in the nature of an interpleader.

B-32. ASSIGNMENT.

The Contractor shall not assign, transfer, convey or otherwise dispose of this Contract, or his right to execute it, or his right, title or interest in or to it or any part thereof, or assign, by power of attorney or otherwise, any of the moneys due or to become due under this Contract, except by consent of the Board of Control. The giving of any such consent to a particular assignment shall not dispense with the necessity of such consent to any further or other assignments. Such an assignment, transfer or conveyance shall not be valid until filed in the office of the Commissioner of Accounts.

B-33. SUBCONTRACTING.

- A. This Contract is made pursuant to the bid submitted by the Contractor and in reliance upon the Contractor's represented qualifications and responsibility. Therefore:
 - (1). The Contractor shall not subcontract, sublet, assign, transfer, convey or otherwise dispose of the Contract, its duties, rights, title or interest in it or in any part thereof, nor shall any subcontractor commence performance of any part of the work included or any materialman deliver or fabricate materials, plant or equipment to be incorporated in the contract, nor shall the Contractor assign, by power of attorney or otherwise, any of the monies due or to become due under the Contract, except, in each instance, with the previous written consent of the Board of Control of the City, expressed through its resolution, and then only upon such terms and conditions as may be agreed to by the Board. No such subcontracting, subletting, assignment, transfer, conveyance or other disposal of the contract shall be valid and effective until the written consent of the Board of Control is attached or endorsed hereto and filed in the Office of the Commissioner of Accounts. Subletting, if permitted, shall not relieve the Contractor or his or her surety of any of his, her or its obligations under the Contract.
 - (2). Prior written Board of Control consent is required for the Contractor to add a subcontractor or to substitute one subcontractor for another subcontractor, under this Contract. Failure by the Contractor to obtain consent of the Board of Control for any Subcontractor or Materialman shall be a breach of the Contract for which the Contractor may incur a penalty.
 - (3). The City assumes no obligation to pay, and will not pay, a contractor for any work and or services performed by a sub-contractor on the contract prior to Board of Control approval of that sub-contractor.
 - (4). The Director will not grant the Contractor additional time to meet project deadlines, and will not authorize or pay additional compensation or delay damages of any kind arising from the contractor's inability to add or substitute a Subcontractor because the Contractor failed to submit the approval request and supporting documentation at least 3 (three) weeks in advance of the date the additional or substitute Sub-contractor is needed.
 - (5). The City Office of Equal Opportunity shall evaluate each Subcontractor addition and substitution for increased or decreased CSB, MBE, or FBE participation even if the Contract originally had no certified Sub-contractor participation.
 - (6). The City's Sub-contractor Addition and Substitution Policy and Procedure is hereby incorporated by reference in its entirety. The complete document is available online at the City of Cleveland website: <http://www.clevelandohio.gov>.
 - (7). In its request for consent to subcontract or sublet any portion of the work, the Contractor shall state in writing the portion of the work which each Subcontractor is to do or the material which it is to furnish, its place of business, and such other information as may be required in order to ascertain whether such

Subcontractor is responsible, reliable and able to perform the work or to furnish the materials as called for in the specifications. Subletting, if permitted, shall not relieve the Contractor, or its surety of any of the Contractor's or its obligations under this Contract

- B. Any subcontract for work covered by this Contract must conform to the requirements of the general and detailed provisions of this Contract.
- C. The Contractor shall be and remain solely responsible to the City for the acts or faults of his or her Subcontractor and of such Subcontractor's officers, agents and employees, each of whom shall, for this purpose, be deemed to be the agent or employee of the Contractor to the extent of his subcontract. The Contractor shall promptly, upon request of the Director, file a confirmed copy of the subcontract with prices and terms of payment deleted, as a condition precedent to the approval of a Subcontractor. The Contractor and Subcontractor shall jointly and severally agree that subcontracting does not obligate the City to pay, or see to the payment of any sums to any Subcontractor.

B-34. ALTERATIONS OR MODIFICATIONS OF CONTRACT. (Section 168, Charter of the City of Cleveland)

Charter Section 168. When in the prosecution of any work or improvement under contract it becomes necessary, in the opinion of the Director of the appropriate department, to make alterations or modifications in such contracts, such alterations or modifications shall be made only when authorized by the Council upon the written recommendations of such director, countersigned by the Mayor. No such alterations shall be valid unless the price to be paid for the work or material, or both, under the altered or modified contract, shall have been agreed upon in writing and signed by the Contractor and such Director prior to authorization by Council.

Consistent with Charter Section 168, for alterations or modifications in the Contract, the Contractor acknowledges and agrees to the following:

- A. Changes in the Work - Without invalidating the Contract and without notice to the Contractor's surety, the City may, at any time, or from time to time, order additions, deletions or revisions in the work, which shall be authorized by a Change Order. Upon receipt of a Change Order, the Contractor shall promptly proceed with the work as altered, the same as if it had been part of the original Contract, whether or not agreement has been reached as to any price adjustment for such work.
- B. Change of Contract Price - The Contract Price shall mean the moneys payable by the City to the Contractor under the Contract Documents less the Contingency Allowance. No change in the Contract Price shall be authorized for work required by or reasonably implied as a requirement of the Contract Documents or for work foreseeable at the time of the bid as necessary to complete the project as originally contemplated.

In the event the Contractor is requested or required to perform work neither required by nor reasonably implied as a requirement of the Contract Documents and not foreseeable at the time of the bid as necessary to complete the project as originally contemplated, the Contract Price may be changed for work so performed by Contingency Allowance or by Subsidiary Agreement, provided that:

- (1.) Within ten (10) days after the occurrence or non-occurrence of any event giving rise to Contractor's claim for an adjustment in the Contract Price based on changes in the work, Contractor shall notify the City, in writing, of the general nature of the claim.

 - (iii) identification of all work which has been or may be affected by such event;
 - (iv) itemization of all labor, materials and equipment for which a price adjustment is claimed;
 - (v) copies of all invoices for materials delivered for which a price adjustment is claimed.

The Contractor's supporting documentation shall be accompanied by the Contractor's written statement that the amount claimed covers all known amounts to which Contractor is entitled as a result of the occurrence of the event.

No claim by Contractor for an adjustment in the Contract Price shall be valid if not submitted in accordance with this Section B-34.

- (3.) The price adjustment for any work for which Contractor claims an increase in the Contract Price shall not exceed the actual cost of additional on-site labor, materials and equipment plus ten percent (10%) of such cost for profit and overhead.

All trade discounts, rebates and refunds and all returns from sale of surplus materials and equipment shall accrue to the City, and the Contractor shall make provisions so that they may be obtained.

- (4.) In the event changes in the work result in a net decrease in the Contractor's costs, the Contract Price shall be decreased by an amount equal to the actual net decrease in the cost of on-site labor, materials and equipment plus ten percent (10%) of such net decrease.

- (5.) Where the work involved is covered by unit prices contained in the Contract Documents, the value of the work for which Contractor claims an increase in the Contract Price or the credit to which the City is entitled shall be determined by application of such unit prices.
- (6.) Changes in the Contract Price made pursuant to the Contingency Allowance shall not exceed the amount of the Contingency Allowance listed on the Contractor's bid.
- (7.) In the event that the Contingency Allowance is exhausted, changes in the Contract Price may only be made by Subsidiary Agreement, pursuant to this Section B-34; the Contractor shall proceed with the work while any such Subsidiary Agreement is being processed.
