PUBLIC WORKS

Addendum #1 - File No. 75-26

Purchase of Remanufactured Allison Transmission and Repairs P&L

Question and Answer

1. For section C-22 Price List, there are multiple models listed for pricing. However, these models are all available with different configurations which would result in different pricing.

Do you have a list of your current vehicles or the specific models/serial #'s? Otherwise, we can quote and advise which configuration that pricing is for and that if different configurations, the pricing would vary.

Please provide a quote and advise which transmission configuration the pricing is based on. Please clearly identify the transmission configuration included with the quoted price. Please note that pricing may vary depending on the transmission configuration required for the vehicle.

The City does not have a complete list of its current vehicles or the specific model and serial numbers for each transmission. Pricing should be based on the transmission configurations identified in your quote, with the understanding that pricing may vary for other configurations.

Date: 7/23/2026
