

The City of Cleveland's Division of Printing and Reproduction Sustainability Policy

Our Vision

The City of Cleveland's Division of Printing and Reproduction will strive to be a leader in sustainability in the printing industry resulting in benefits to the community, reduced impact to the environment and responsible use of financial resources.

Our Mission

Sustainability at the Division of Printing and Reproduction is a dynamic process of research, self-examination, and improvement. The Division of Printing and Reproduction will continually seek new opportunities to reduce the environmental impact of its operation.

Our Commitments

The Division of Printing and Reproduction is committed to integrating environmental, health & safety (EHS) and sustainability matters into all business activities. We do so by adhering to the following:

- When feasible, utilizing materials, derived from renewable resources or low environmental impact resources and to maximize our recycling program.
- Mitigating or preventing pollution through reduction, reuse and recycling.
- Making practical and effective use of innovative green products techniques and technologies.
- Encouraging energy conservation.
- Monitor and maintain all environmental health and safety requirements with continuous improvement including all areas of the business. Our goal is to promote a safe and healthy work environment for our employees through strict compliance to all applicable regulatory and voluntary industry standards.
- Communicating our commitments to our sustainability performance, health and safety initiatives and environmental impacts with open dialog with our employees, vendors, customers and community. We will solicit their input in achieving our goals and in turn will offer assistance in meeting theirs.
- Educating City of Cleveland Employees about the Division of Printing and Reproduction's sustainability policy and procedures.
