

The Respiratory Report summarizes influenza, COVID-19, and Respiratory Syncytial Virus (RSV) activity in the City of Cleveland during each week of respiratory illness season. Respiratory illness season starts at the beginning of October (MMWR week 40*) and lasts until mid-May the following year (MMWR week 20).

Week 41 Summary

- 1.3% of emergency department (ED) visits were for influenza-like illness (ILI) plus fever.
- Zero (0) hospitalizations and deaths were reported for influenza, COVID, or RSV this week. Hospitalization and death data often experience a delay in reporting, so more data for this week may appear on future reports.

Metric	Count This Week (% of total)	Compared to Last Week	Season Total (% of total)
ED Visits for ILI + Fever	67 (1.3%)	+2 (3% increase)	132 (1.3%)
Influenza Hospitalizations	0	--	0
COVID Hospitalizations	0	--	0
RSV Hospitalizations	0	--	0

*An MMWR week is the CDC's standard weekly calendar for tracking health data. Each week runs Sunday to Saturday. Each year, Week 1 is the week containing the first Thursday of January. Data are preliminary and subject to change.
