**Buckeye Road Rehabilitation Project
Traffic Advisory
Shaker Boulevard to South Moreland Boulevard
(Wards 4 and 6)**

Expect additional traffic notices as improvements continue

CLEVELAND – On Monday August 15, 2022, weather permitting, the City will begin Phase 2 of the construction of the Buckeye Road Rehabilitation Project from Shaker Boulevard to South Moreland Boulevard (1.4 miles). The change will consist of shifting travel lanes to the south side of the road and moving the work zone to the north side.

The work includes repair and complete resurfacing of the existing roadway pavement; replacement of curbs, driveway aprons, and sidewalks as needed; installation of ADA-compliant curb ramps; streetscaping that includes decorative crosswalks and street trees; and new traffic control consisting of pavement markings and signs.

During Phase 2 of the project, traffic on Buckeye Road will be maintained as follows:

- From Shaker Boulevard to East 116th Street, one lane of traffic will be maintained in each direction.
- From East 116th Street to South Moreland Boulevard, one lane of traffic in the westbound direction and one parking lane will be maintained. Eastbound traffic will be detoured from Buckeye Road to East 116th Street northbound, to Shaker Boulevard eastbound, then to South Moreland Boulevard southbound.

The work will take place during the hours of 7 a.m. to 5 p.m. This phase of the project should be finished by July 2022. The entire project is scheduled for completion in March 2023.

Should there be any questions, please contact the City of Cleveland's Construction Inspector, Cecil Benson at 216-857-7648.

Editor's Note: Road construction invariably presents hazards to the public. All travelers are urged to use caution in construction zones. Public safety and the safety of workers is a top priority.
